Annales Historiques De La Revolution 166:

Annales historiques de la Révolution française, tables du centenaire 1908-2007 Claude Coquard, 2008 The French Revolution and Social Democracy Jean-Numa Ducange, 2018-11-26 Beyond France's own national historiography the French Revolution was a fundamental point of reference for the nineteenth century socialist movement As Jean Numa Ducange tells us while Karl Marx never wrote his planned history of the Revolution from the 1880s the German and Austrian social democrats did embark on such a project This was an important moment for both Marxism and the historiography of the French Revolution Yet it has not previously been the object of any overall study The French Revolution and Social Democracy studies both the social democratic readings of the foundational revolutionary event and the place of this history in militant culture as seen in sources from party educationals to leaflets and workers calendars First published in 2012 as *La Révolution française et la social démocratie. Transmissions et usages politiques de l'histoire en Allemagne et Autriche 1889-1934* by Presses Universitaires de Rennes in 2012 **Haitian Revolutionary Studies** David Patrick Geggus, 2002-08-12 The Haitian Revolution of 1789-1803 transformed the Caribbean's wealthiest colony into the first independent state in Latin America encompassed the largest slave uprising in the Americas and inflicted a humiliating defeat on three colonial powers In *Haitian Revolutionary Studies* David Patrick Geggus sheds new light on this tremendous upheaval by marshaling an unprecedented range of evidence drawn from archival research in six countries Geggus's fine grained essays explore central issues and little studied aspects of the conflict including new historiography and sources the origins of the black rebellion and relations between slaves and free people of color The contributions of vodou and marronage to the slave uprising Toussaint Louverture and the abolition question the policies of the major powers toward the revolution and its interaction with the early French Revolution are also addressed Questions about ethnicity identity and historical knowledge inform this essential study of a complex revolution *Mezzi di scambio non monetari. Merci e servizi come moneta alternative nelle economie dei secoli XIII-XVIII / Alternative currencies. Commodities and services as exchange currencies in the monetarized economies of the 13th to 18th centuries* Angela Orlandi, 2024-05-08 The volume focuses on the importance and placement of alternative exchange practices in the 13th to 18th centuries specifically examining goods and services used as means of payment in barter or in kind transactions Despite monetary theory emphasizing credit and real currency coins or paper money did not prevent in kind transactions Barter isn't merely a result of a lack of money but rather an economic choice with diverse reasons meanings and consequences found in both rural and urban areas These alternative exchange methods go beyond mere stopgaps and impact all economic activities from production to consumption The Bourgeois Revolution in France, 1789-1815 Henry Heller, 2006 In the last generation the classic Marxist interpretation of the French Revolution has been challenged by the so called revisionist school The Marxist view that the Revolution was a bourgeois and capitalist revolution has been questioned by Anglo Saxon revisionists like Alfred Cobban and William Doyle as well as a French school of criticism

headed by François Furet Today revisionism is the dominant interpretation of the Revolution both in the academic world and among the educated public Against this conception this book reasserts the view that the Revolution the capital event of the modern age was indeed a capitalist and bourgeois revolution Based on an analysis of the latest historical scholarship as well as on knowledge of Marxist theories of the transition from feudalism to capitalism the work confutes the main arguments and contentions of the revisionist school while laying out a narrative of the causes and unfolding of the Revolution from the eighteenth century to the Napoleonic Age

The Wrightsman Collection. Vols. 1 and 2, Furniture, Gilt Bronze and Mounted Porcelain, Carpets , La revolution francaise face au systeme judiciaire d'Ancien Regime Jacqueline Lucienne Lafon,2001

The Legacy of the French Revolutionary Wars Alan Forrest,2009-05-28 A major contribution to the study of collective identity and memory in France this book examines a French republican myth the belief that the nation can be adequately defended only by its own citizens in the manner of the French revolutionaries of 1793 Alan Forrest examines the image of the citizen army reflected in political speeches school textbooks art and literature across the nineteenth century He reveals that the image appealed to notions of equality and social justice and with time it expanded to incorporate Napoleon's victorious legions the partisans who repelled the German invader in 1814 and the people of Paris who rose in arms to defend the Republic in 1870 More recently it has risked being marginalized by military technology and by the realities of colonial warfare but its influence can still be seen in the propaganda of the Great War and of the French Resistance under Vichy

"Striking Images, Iconoclasms Past and Present " Stacy Boldrick,2017-07-05 All cultures make and break images Striking Images Iconoclasms Past and Present explores how and why people have made and modified images and other cultural material from pre history into the 21st century With its impressive chronological sweep and disciplinary breadth this is the first book about iconoclasm the breaking of images and the transformation of broader sets of signs that includes contributions from archaeologists curators and museum conservators as well as historians of art literature and religious studies The chapters examine themes critical to the study of iconoclasm violence punishment memory intentionality ruins and relics and their survival The conclusion shows how cross disciplinary debate amongst the contributors informed Tate Britain's Art under Attack exhibition 2013 and addresses the challenges iconoclasm presents to the modern museum By juxtaposing objects and places usually considered in isolation Striking Images raises provocative questions about our understandings of cross cultural differences and the value of representational objects from the broken swords of pre historical bog graves to the Bamiyan Buddhas and contemporary art Are any such objects ever finished or are they simply subject to constant transformation In dialogue with each other the essays consider this question and expand the field of iconoclasm and cultural studies

The Oxford Handbook of the French Revolution David Andress,2015 The Oxford Handbook of the French Revolution brings together a sweeping range of expert and innovative contributions to offer engaging and thought provoking insights into the history and historiography of this epochal event Each chapter presents the

foremost summations of academic thinking on key topics along with stimulating and provocative interpretations and suggestions for future research directions Placing core dimensions of the history of the French Revolution in their transnational and global contexts the contributors demonstrate that revolutionary times demand close analysis of sometimes tiny groups of key political actors whether the king and his ministers or the besieged leaders of the Jacobin republic and attention to the deeply local politics of both rural and urban populations Identities of class gender and ethnicity are interrogated but so too are conceptions and practices linked to citizenship community order security and freedom each in their way just as central to revolutionary experiences and equally amenable to critical analysis and reflection This Handbook covers the structural and political contexts that build up to give new views on the classic question of the origins of revolution the different dimensions of personal and social experience that illuminate the political moment of 1789 itself the goals and dilemmas of the period of constitutional monarchy the processes of destabilisation and ongoing conflict that ended that experiment the key issues surrounding the emergence and experience of terror and the short and long term legacies for both good and ill of the revolutionary trauma for France and for global politics

Memory and Desire Peter Wagstaff, 1996 This study challenges the conventional view of R tiff de la Bretonne as a chronicler of eighteenth century France and notorious exponent of la littérature galante to provide both students and scholars with a fresh analysis focusing on two themes autobiography and utopianism which feature prominently in his writing It suggests that each is the product of similar impulses reflecting common polarities between public and private self and others past and future In tracing R tiff's persistent but frustrated attempts to reconcile the conflicting elements of the world he inhabits rural and urban old and new stable and changing this volume analyses the failure of his utopian dream of a well ordered and harmonious society By exploring his absorption in the autobiographical project and in particular Monsieur Nicolas ou le cœur humain d'ivoire it offers an interpretation of his work as a sustained reflection on selfhood and on the power of memory which enables R tiff to create within the confines of the text a utopian space where self and world are reconciled and time and space no longer count

Paris Concealed James H. Johnson, 2025-01-22 A comprehensive history of masks in France from the seventeenth to the nineteenth century Masks can conceal disguise or protect They can guard status inspire delight or spread fear They can also betray trust through insincerity deceit and hypocrisy In Paris Concealed historian James H Johnson offers a sweeping history of masks both visible and unseen from the time of Louis XIV to the late nineteenth century exploring the complex roles that masking and unmasking have played in the fashioning of our social selves Drawing from memoirs novels plays and paintings Paris Concealed explores the many domains in which masks have been decisive Beginning in the court of

Versailles Johnson charts the genesis of courtly politesse and its widespread condemnation by Enlightenment philosophers and political thinkers He describes strategies deployed in the era of the French Revolution for unmasking traitors and later efforts to penetrate criminal disguises through telltale marks on the body He portrays the disruptive power of masks in public balls and carnivals and with the coming of modernity evokes their unsettling presence within the unconscious Compellingly written and beautifully illustrated Paris Concealed lays bare the mask s transformations from marking one s position in a static society to inspiring imagined identities in meritocracies to impeding the elusive search for one s true self To tell the history of masks Johnson shows is to tell the history of modern selfhood

Philanthropy and Race in the Haitian Revolution Erica R. Johnson, 2018-06-19 This book examines the ways in which a minority of primarily white male French philanthropists used their social standing and talents to improve the lives of peoples of African descent in Saint Domingue during the crucial period of the Haitian Revolution They went to great lengths to advocate for the application of universal human rights through political activities academic societies religious charity influence on public opinion and fraternity in the armed services The motives for their benevolence ran the gamut from genuine altruism to the selfish pursuit of prestige which could on occasion lead to political or economic benefit from aiding blacks and people of color This book offers a view that takes into account the efforts of all peoples who worked to end slavery and establish racial equality in Saint Domingue and challenges simplistic notions of the Haitian Revolution which lean too heavily on an assumed strict racial divide between black and white

The Barristers of Toulouse in the Eighteenth Century (1740-1793) Lenard Berlanstein, 2019-12-01 Originally published in 1975 Following the vein of French historiography many twentieth century scholars of the French Revolution believed that the middle class of lawyers played a crucial role in the Revolution In *The Barristers of Toulouse* Lenard Berlanstein contends with that notion in a case study examining the response of the Toulousian legal community to the French Revolution Using tax rolls marriage contracts and court records as primary sources Professor Berlanstein argues that class interests such as a desire to preserve their status in the cultured conservative urban elite led many Toulousian judges and lawyers to reject the Revolution and to remain loyal to the aristocratic Parlement In other words those in the legal community of Toulouse conducted themselves in ways that were consistent with other members of their social and economic class To supplement his argument Berlanstein s integrates methods from the New Social History movement
