Histories. 1794-1892 Pennsylvania State Library,1892 **Report of the State Librarian** Pennsylvania State Library,1892 Includes catalogs of accessions and special bibliographical supplements **Selected Catalogues, 1890-1895** Francis P. Harper (Firm),1890 *Handbook of the Linguistic Atlas of the Middle and South Atlantic States* William A. Kretzschmar,William A. Kretzschmar Jr.,1993-09-15 Who uses skeeter hawk snake doctor and dragonfly to refer to the same insect Who says gum band instead of rubber band The answers can be found in the Linguistic Atlas of the Middle and South Atlantic States LAMSAS the largest single survey of regional and social differences in spoken American English It covers the region from New York state to northern Florida and from the coastline to the borders of Ohio and Kentucky Through interviews with nearly twelve hundred people conducted during the 1930s and 1940s the LAMSAS mapped regional variations in vocabulary grammar and pronunciation at a time when population movements were more limited than they are today thus providing a unique look at the correspondence of language and settlement patterns This handbook is an essential guide to the LAMSAS project laying out its history and describing its scope and methodology In addition the handbook reveals biographical information about the informants and social histories of the communities in which they lived including primary settlement areas of the original colonies Dialectologists will rely on it for understanding the LAMSAS and historians will find it valuable for its original historical research Since much of the LAMSAS questionnaire concerns rural terms the data collected from the interviews can pinpoint such language differences as those between areas of plantation and small farm agriculture For example LAMSAS reveals that two waves of settlement through the Appalachians created two distinct speech types Settlers coming into Georgia and other parts of the Upper South through the Shenandoah Valley and on to the western side of the mountain range had a Pennsylvania influenced dialect and were typically small farmers Those who settled the Deep South in the rich lowlands and plateaus tended to be plantation farmers from Virginia and the Carolinas who retained the vocabulary and speech patterns of coastal areas With these revealing findings the LAMSAS represents a

benchmark study of the English language and this handbook is an indispensable guide to its riches Catalogue of the Pennsylvania State Library: Catalogue of miscellaneous books. 742 p ,1878 Harrisburg Industrializes Gerald G.

Eggert,2010-11-01 In 1850 Harrisburg Pennsylvania was a community like many others in the U S employing most of its citizens in trade and commerce Unlike its larger neighbors Pittsburgh and Philadelphia Harrisburg had not yet experienced firsthand the Industrial Revolution Within a decade however Harrisburg boasted a cotton textile mill two blast furnaces and several iron rolling mills a railroad car manufactory and a machinery plant This burst of industrial activity naturally left its mark on the community by within two generations most industry had left Harrisburg and its economic base was shifting toward white collar governmental administration and services Harrisburg Industrializes looks at this critical episode in Harrisburg s history to discover how the coming of the factory system affected the life of the community Eggert begins with the earliest years of Harrisburg describing its transformation from a frontier town to a small commercial and artisanal community He identifies the early entrepreneurs who built the banking commercial and transportation infrastructure which would provide the basis for industry at mid century Eggert then reconstructs the development of the principal manufacturing firms from their foundings through the expansive post Civil War era to the onset of deindustrialization near the end of the century Through census and company records he is able to follow the next generation of craftsmen and entrepreneurs as well as the new industrial workers many of then minorities who came to the city after 1850 Eggert sees Harrisburg s experience with the factory system as second stage or imitative industrialization which was typical of many if not most communities that developed factory production At those relatively few industrial centers Lowell and Pittsburgh for example where new technologies arose and were aggressively impose on workers the consequences were devastating often causing alienation rebellion and repression By contrast at secondary centers like Harrisburg or Reading Scranton or Wilmington industrialization came later was derivative rather than creative was modest in scale and focused on local and regional markets Because the new factories did not compete with local crafts few displaced artisans became factory hands At the same time an adequate supply of local native born workers forestalled an influx of immigrants so Harrisburg experienced little ethnic hostility Ultimately therefore Eggert concludes that the introduction of an industrial order was much less disruptive in Harrisburg than in the major industrial sites primarily because it did not alter so profoundly the existing economic and social order *Catalogue of the Pennsylvania State Library, January 1, 1978* Pennsylvania State Library,1878
