Morton, 2015-08-05 Excerpt from Annals of Bath County Virginia Bath has a small number of people and a considerable share of this small number is a new element To many individuals of the latter class a history of the county will appeal very little And since the circulation of such a book must necessarily be small the price of a full and comprehensive history would unavoidably be so high as to be prohibitive to persons of small means The choice before us was whether to bring out a very small edition of a very high priced book or a larger edition of a comparatively low priced book If the second choice were taken only a small volume was possible And if the volume were to be small it was clearly out of the question to cover as much ground as is attempted in a local history of comprehensive scope For the above reasons we confine ourselves to a presentation of the more striking and important features in the story of this county But while this was the only course possible we have sought to treat these features with all the fullness the limits of the book would permit And since the present volume is a county history in a somewhat abbreviated form we entitle it The Annals of Bath rather than A History of Bath Owing to the necessary limitation in space it has been impossible to give genealogic records of the old families of the county A partial account is all the size of the book will permit Yet this account would cover more pages if there had been a more general response to our requests for information What was not furnished to us we could not put in and we disclaim all responsibility for its non appearance But if in a commercial sense this county seemed only a moderately promising field for a local history it remains very true that Bath is one of the best known counties of the Old Dominion It is one of the older counties in the Alleghany belt and it lies on a natural highway of travel and commerce The story of its evolution is one of

much interest The present work was begun in the fall of 1912 Joseph T McAllister of Hot Springs had for a long while been collecting material for a history of the county About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

relevant Richard Morris and Jane Callison of Bath County, Virginia, and Their Descendants, 1740-1985 Richard Eugene Willson, 1985 A genealogy of the descendants of Richard Morris born about 1740 in Ireland and died in 1805 in Bath County Virginia and his wife Jane Callison They were married in Nov 1761 in Augusta County Virginia They had at least eleven children Most of the children migrated to Ohio *The Backcountry Towns of Colonial Virginia* Christopher E. Hendricks, 2006 Hendricks writes on how towns in backcountry Virginia came about from the designs and ambitions of entrepreneurial individuals They did not just spring up randomly in some pleasing meadow or on some riverbank happened upon by a frontiersman for example or a group which had struck out into the wilderness The people who put these plans for towns into action were motivated by a variety of economic social or philanthropic factors and sometimes purely by circumstance and opportunity These entrepreneurial like individuals were not a part of any organized movement But their activities in toto played a large part in opening up the western parts of Virginia and setting a pattern for westward expansion Among the towns Hendricks studies in larger topological areas such as the Piedmont and the Great Valley Shenandoah are Winchester Marysville Leesburg Woodstock Charlottesville and Brent Town Early maps of many of the towns especially demonstrate the ideas and purposes of their founders Along with the maps the authors specifics on the conception establishment and early period of the many towns makes each one stand out distinctively The enterprises and goals of the town were as varied as the individuals who conceived them *The Caves of Burnsville Cove, Virginia* William B. White, 2015-04-20 This book highlights some of the most difficult and persistent exploration ever undertaken in the United States in Burnsville Cove a small limestone valley in west central Virginia while at the same time reviewing the scientific discoveries made in the area s 116 km of caves in the course of 50 years Overall the book offers a unique combination of exploration and science by a conservation organization specifically dedicated to the preservation and study of the caves A History of Monroe County, West Virginia Oren F. Morton, 1974 This volume contains both a sourcebook of genealogical data and a group family record with slightly greater detail marshaled in the sourcebook section A significant portion of the work nevertheless is devoted to the general history of the county explaining in the customary manner when how and why the county was settled and tracing the various phases of its development The group family portion of the book occupying a full third of the text carries the lines of descent far enough down to enable the present generation to recognize relationships An abundance of available data coupled with the desire to set forth the family histories of as many county residents as possible compelled the author to employ a compact form of narrative This skeletal history embracing all vital and ascertainable facts has the virtue of precluding biographical embellishments and at once puts before the researcher all that he needs to know of several hundred families and many thousands of related individuals All families discussed in this section are indexed alphabetically for easy reference The remainder of the book is comprised of genealogical source materials **The WPA Guide to Virginia** Federal Writers' Project, 2013-10-31 During the 1930s in the United States the Works Progress

Administration developed the Federal Writers Project to support writers and artists while making a national effort to document the country's shared history and culture. The American Guide series consists of individual guides to each of the states. Little-known authors, many of whom would later become celebrated literary figures, were commissioned to write these important books. John Steinbeck, Saul Bellow, Zora Neale Hurston, and Ralph Ellison are among the more than 6,000 writers, editors, historians, and researchers who documented this celebration of local histories. Photographs, drawings, driving tours, detailed descriptions of towns, and rich cultural details exhibit each state's unique flavor. The WPA Guide to Virginia documents the vital role the Old Dominion played in the history of the first 150 years of the United States and before. It is packed with historical information, particularly from the Colonial and Revolutionary years, and supplemented with photos of historic buildings and sites. Also worth note are the artistic photographs of the state's ordinary people and its natural beauty, including the Shenandoah and Chesapeake Bay regions. **Virginia** Best Books on, 1940
