Please Don't Wish Me a Merry Christmas Stephen M Feldman,2023-11-21 Whether in the form of Christmas trees in town squares or prayer in school fierce disputes over the separation of church and state have long bedeviled this country Both decried and celebrated this principle is considered by many for right or wrong a defining aspect of American national identity Nearly all discussions regarding the role of religion in American life build on two dominant assumptions first the separation of church and state is a constitutional principle that promotes democracy and equally protects the religious freedom of all Americans especially religious outgroups and second this principle emerges as a uniquely American contribution to political theory In Please Don t Wish Me a Merry Christmas Stephen M Feldman challenges both these assumptions He argues that the separation of church and state primarily manifests and reinforces Christian domination in American society Furthermore Feldman reveals that the separation of church and state did not first arise in the United States Rather it has slowly evolved as a political and religious development through western history beginning with the initial appearance of Christianity as it contentiously separated from Judaism In tracing the historical roots of the separation of church and state within the Western world Feldman begins with the Roman Empire and names Augustine as the first political theorist to suggest the idea Feldman next examines how the roles of church and state variously merged and divided throughout history during the Crusades the Italian Renaissance the Protestant Reformation the British Civil War and Restoration the early North American colonies nineteenth century America and up to the present day In challenging the dominant story of the separation of church and state Feldman interprets the development of Christian social power vis vis the state and religious minorities particularly the prototypical religious outgroup Jews **The Dragon** ,1886 *Colonial Reports - Annual* Great Britain. Colonial Reports--annual ,1939 **Anna's Wish** Bruno Hachler,2008 It had not snowed for many years When the last leaves disappeared from the trees and the stormy wind of fall turned to a cool whisper fog lay down on the city like a grey blanket As time went on people began to wonder whether it would snow again as each winter they looked at the sky more sorrowfully People s faces turned grey too and they forgot how it had been when snow had still been enchanting the city each winter One day something stranged happened It started with a little girl walking in the streets with her mother Her name was Anna As Anna looks into the eyes of a little wooden horse in the window of the bakery she wishes for snow to fall Like tiny stars her wishes floated up to the edge of the sky where they froze to be ice crystals and fell It was snowing and snowing and would not stop Only when evening came did the clouds move on Beautiful artwork brings this Christmas story to life
