Wise Reflections Anne Marie Power, Alison Richards, 2006 **Anne Marie Power** Anne Marie Power, *The Kingdom of Dreams* Demetrios Anagnostopoulos, 2018-06-21 In the world of dreams there are two incredible powers One is Esheia the noble goddess of good dreams The other is Mhithl ithoth the demonic ruler of nightmares For eons the two powers have been fighting for control of the Dream World The Champions of the Light and the Red Knights join in the battle when it seems that Mhithl ithoth has finally gained the upper hand The High Heeled Guide to Enlightenment Alice Grist, 2009-09-25 The High Heeled Guide to Enlightenment is the must have book for females who are looking to connect to something other than their internet provider Alice Grist jumps stilettos first into all things spiritual and conjures up an entertaining witty and honest account of her search for Enlightenment *French Women in Politics: Writing Power* Raylene L. Ramsay, 2003 Although more women in France have entered political life than ever before the fact remains that there are fewer women representatives in the French parliament than there were after the Second World War In a new and original approach the author presents an overview and analysis of the emerging body of text by or on women who have held high political office in France The argument is that writing about women and politics has not just described or reflected women's slow but now substantial entry into political life it has played a major part in shaping the parity debate and its outcomes Interviews with political women such as Huguette Bouchardeau Simone Veil or Edith Cresson inserted in the text demonstrate the emergence and circulation of a new common discourse focused on the issue of whether women in politics make or should make a difference A close reading of the various texts examined in this book and their connection to new public counter discourses in France suggest that a re writing of power is indeed occurring **Welcome Unreason** Raynalle Udris, 2023-11-27 Faux Titre est une collection d'études en littérature française Depuis cinquante ans d'ailleurs elle offre une sélection d'essais de haute envergure couvrant l'ensemble du domaine de la recherche littéraire de la littérature médiévale jusqu'à l'extrême contemporain La collection offre également une plateforme pour de nouvelles pistes de recherche comme les études de traduction les littératures minoritaires les études du genre et queer l'écologie les sciences humaines médicales études hémisphériques études transatlantiques études de réseaux et sciences sociales ainsi que des réflexions sur les études en littérature française en tant que discipline Faux Titre is a longstanding book series for state of the art research in the field of French language literature's Besides the more classical research in French literature covering the field of Medieval Studies to XXIth century literature the series offers a platform for new directions in literary studies in relation to translation studies minority literatures gender and queer studies ecology medical humanities hemispheric studies transatlantic studies network studies and social sciences as well as reflections on studies in French literature as a discipline Authors are cordially invited to submit proposals and or full manuscripts to the publisher at BRILL Christa Stevens Please advise our Guidelines for a Book Proposal Doing Qualitative Research Wolff-Michael Roth, 2005-01-01 The author takes readers on a journey of a large number of

issues in designing actual studies of knowing and learning in the classroom exploring actual data and putting readers face to face with problems that he actually or possibly encountered and what he has done or possibly could have done The reader subsequently sees the results of data collection in the different analyses provided The author shows how one writes very different studies using the same data sources but very different theoretical assumptions and analytic technique The author brings his publication experience in very different disciplines into play to provide readers with way of experiencing research as praxis The book is organized around six major themes sections in the course of which it develops the practical problems an educational researcher might face in a large variety of settings The book was written to be used by upper undergraduate and graduate students taking courses in research design and professors who want to have a reference on design and methodology

Women and Power in

Post-Conflict Africa Aili Mari Tripp, 2015-10-20 The book explains an unexpected consequence of the decrease in conflict in Africa after the 1990s Analysis of cross national data and in depth comparisons of case studies of Uganda Liberia and Angola show that post conflict countries have significantly higher rates of women s political representation in legislatures and government compared with countries that have not undergone major conflict They have also passed more legislative reforms and made more constitutional changes relating to women s rights The study explains how and why these patterns emerged tying these outcomes to the conjuncture of the rise of women s movements changes in international women s rights norms and most importantly gender disruptions that occur during war This book will help scholars students women s rights activists international donors policy makers non governmental organizations NGOs and others better understand some of the circumstances that are most conducive to women s rights reform today and why

The Power Problem Christopher A. Preble, 2011-05-15 Numerous polls show that Americans want to reduce our military presence abroad allowing our allies and other nations to assume greater responsibility both for their own defense and for enforcing security in their respective regions In The Power Problem Christopher A Preble explores the aims costs and limitations of the use of this nation s military power throughout he makes the case that the majority of Americans are right and the foreign policy experts who disdain the public s perspective are wrong Preble is a keen and skeptical observer of recent U S foreign policy experiences which have been marked by the promiscuous use of armed intervention He documents how the possession of vast military strength runs contrary to the original intent of the Founders and has as they feared shifted the balance of power away from individual citizens and toward the central government and from the legislative and judicial branches of government to the executive In Preble s estimate if policymakers in Washington have at their disposal immense military might they will constantly be tempted to overreach and to redefine ever more broadly the national interest Preble holds that the core national interest preserving American security is easily defined and largely immutable Possessing vast military power in order to further other objectives is he asserts illicit and to be resisted Preble views military power as purely instrumental if it advances U S security then it is fulfilling its essential role If it does not if it undermines our security imposes unnecessary costs and forces all Americans to incur additional risks then our military power is a problem one that only we can solve As it stands today Washington s eagerness to maintain and use an enormous and expensive military is corrosive to contemporary American democracy

GENDER AND DECENTRALIZATION Simi Afonja & Monica Alagbile, GENDER DECENTRALISATION Gender and Decentralization in Nigeria is a product of two years research sponsored by the Gender Unit of the International Development Research Centre IDRC Canada as part of its Gender and Decentralization Program for sub Saharan Africa The overall objective of the program was to document and analyze specific state decentralization reforms that have worked to promote women s rights and or reforms that have created barriers to the protection and realization of these rights At the core of the Nigerian project were women s representation and political effectiveness in local administration The issues

transcended the usual structural analysis of the political administrative and fiscal changes associated with decentralization and a breakdown by gender Given the centrality of equity and accountability issues in current good governance debates a feminist perspective on voice and action was inserted into the traditional public administration perspective Going beyond numbers description of gender inequitable electioneering processes poor accountability of the state of political parties and the women s constituency the book also focusses on feminist political activism at the grassroots level The authors also document the potential impact of re politicizing civil society and restructuring of gender ideologies to achieve self determination and increase women representation and political effectiveness

Current Debates in Global Justice Gillian Brock, Darrel Moellendorf, 2006-03-30 Issues of global justice dominate our contemporary world Increasingly philosophers are turning their attention to thinking about particular issues of global justice and the accounts that would best facilitate theorizing about these This volume of papers on global justice derives from a mini conference held in conjunction with the Pacific Division meeting of the American Philosophical Association in Pasadena California in 2004 The idea of holding a mini conference on global justice was inspired by the growth of interest in such questions and it was hoped that organizing the mini conference would stimulate further good writing in this area We believe that our mission has been accomplished We received a number of thoughtful papers on both theoretical and more applied issues showing excellent coverage of a range of topics in the domain of global justice A selection of some of the very best papers is published in this special issue of The Journal of Ethics In particular we tried to include papers that would reflect some of the range of topics that were covered at the conference to give readers a sense of both the scope of the field as it is currently emerging and the direction that the debates seem to be taking As a result of increased attention to theorizing about global justice cosmopolitanism has enjoyed a resurgence of interest as well

Great Powers' Foreign Policy, 2022-12-19 By comparing the great powers foreign policy this book investigates the global competition and revisionist attempts to dismantle the Western liberal order Since February 2022 the international system has been challenged by the Russian invasion in Ukraine and its profound multiple consequences Putin s War has reinvented the West But still this is not the end of history To illustrate that tensions between democratic and autocratic great powers are nowadays at their peak since the end of the Cold War one should consider President Biden s words in Warsaw referring to President Putin For God s sake this man cannot remain in power

Canadian Federalism and Treaty Powers Hugo Cyr, 2009 With the increased mobility and interdependence brought on by globalisation governments can no longer deal effectively with what were traditionally regarded as domestic issues unless they cooperate among themselves International law may once have been a sort of inter state law concerned mostly with

relations between states but it now looks increasingly inside state borders and has become to a large degree a trans governmental law While this creates significant challenges even for highly unified nation states the challenges are even greater for federations in which powers have been divided up between the central government and federated states What roles should central governments and federated states play in creating and implementing this new form of governance Using the Canadian federation as its starting point this case study illustrates a range of factors to be considered in the appropriate distribution of treaty powers within a federation Professor Cyr also shows how because it has no specific provisions dealing with the distribution of treaty powers the Canadian constitution has organically developed a tight knit set of rules and principles responding to these distributional factors This book is therefore both about the role of federated states in the current world order and an illustration of how organic constitutionalism works **To Myanmar with Love** Morgan Edwardson, 2009 Beyond politics little is known about Myanmar Burma Highlighting the country's great beauty and hospitality these essays are reflections on such topics as helping a community library in New Bagan and eating breakfast with 2 700 monks in Mandalay Adventurers and armchair voyagers will discover the secrets of savvy expatriates seasoned travelers and inspired locals
