Publishing Africa in French Ruth Bush,2016 The history of post war writing in French has tended to separate African literature from French metropolitan literary production The same separation resonates in today s global French literary marketplace still dominated by Parisian publishing houses and metropolitan literary kudos This study historicises the aesthetic and socio economic implications of that evident asymmetry Archival research combines with literary analysis to explore the mediations that defined and legitimated notions of language authorship and literary value during the decolonizing vingt glorieuses Revealing known and less known connections between institutions such as Pr sence Africaine Editions du Seuil Gallimard and the

Association des crivains de la mer et de l'outre mer the author argues that a contested and variegated African literary presence was widely dispersed across the metropolitan publishing scene in this period These material aspects of book production and distribution are inextricably entangled with ongoing debates over the representation of Africa in words Authors whose work is considered in detail include Abdoulaye Sadi Cheikh Hamidou Kane Christine Garnier Malick Fall Chinua Achebe and Peter Abrahams Publishing Africa in French uses an innovative interdisciplinary methodology to contribute fresh insights and new material to current concerns in French Studies African Studies the sociology of literature and book history

State Continuity and Nationality: The Baltic States and Russia Ineta Ziemele, 2025-09-01 Political changes in Central and Eastern Europe in the 1990s led to important territorial changes and confronted decision makers and international lawyers with complex questions relevant to State continuity and succession The case of the Baltic States was particularly difficult since they re-emerged after half a century of Soviet occupation In addition to questions on the status of new States important issues arose with regard to the fate of nationals of the former federations generating frantic international efforts in developing and consolidating available rules and principles on nationality in situations of territorial change In this context the Baltic case stood apart It raised questions of non recognition of consequences of their illegal occupation in international law but that was not the way the issues were dealt with The book documents and examines the story of the Soviet occupation of the Baltic States in 1940 and their claim to State continuity fifty years later It brings in the issue of the obligations of Russia in this context The book asks the question what nationality solutions had to be adopted in the region and shows the scrutiny they received from international institutions This second edition of the book revisits decisions that were taken in the 1990s and asks whether they have withstood the test of time The case of the Baltic States is an example of the strength of international law rules when applied with courage and of the risks when too many compromises with rules and principles are accepted Although the book is specific in its coverage it is of general importance because it draws conclusions concerning developments in law and practice which are relevant for a better understanding and regulation of statehood and nationality in international law

Democratization in Morocco Lise Storm, 2007-10-29 This book explores the political games of the Moroccan democratization process in the period from independence in 1956 until 2006 By combining a great degree of political theory with empirical material on Morocco it analyzes the strategies and actions of the various political actors and evaluates the level of democracy present in the country after the adoption of new constitutions in 1962 1970 1972 1980 1992 and 1996 Lise Storm demonstrates that in at least some instances democratization has been more than simply a survival strategy every so often key figures within the political elite have taken the democratization process further than strictly needed for them to stay in power In the case of Morocco it has been the monarch who on more than one occasion has moved the country further towards the democratic ideal than he necessarily had to and that sometimes even against the wishes of one or more of the established political parties This book illustrates how the Moroccan political parties like so many of their counterparts in the region have become the main obstacle to further democratization as most of them have never honoured or appear to have abandoned the key function of political parties popular representation Democratization in Morocco will be a very valuable contribution to students and researchers interested in the dynamics behind the Moroccan democratization and the role of electoral politics in North African and Middle Eastern politics **Ethnologia Balkanica** , *La Citoyenneté locale en*
