The Fulfilling Workplace Ronald J. Burke, 2016-03-09 It is very easy for organizations to ignore or overlook the impact of social and commercial change of increased pressure to deliver profit above all else and of transformation in the ways in which we are now working on the mental health and consequently the performance of their employees And yet there is plenty of evidence that in many workplaces performance is down stress is up and professional employees are struggling to balance their home and work lives This collection while looking at individuals places the spotlight on organizational initiatives to support the development of attitudes values character and behaviors in employees The aim of these initiatives is to increase our resilience to those experiences and events which impact on performance There is a particular focus on managerial and professional jobs where employee discretion and commitment are critical The Fulfilling Workplace extends the themes developed in early titles in the Psychological and Behavioral Aspects of Risk Series deeper into organizations to explore the organization's role in coming to grips both with human frailties and toxic workplaces both destructive to individual and organizational health

Decision Sciences and Technology for Globalisation (ISDSI_2008) B.S. Sahaye, Jeet N.D. Gupta, Surinder Batra, Sanjay Kumar, Sushil Kumar, 2008-11-05 It is not uncommon to find books and other publications in the literature dealing individually with the subjects of decision sciences technology and globalisation However there are very few instances of books which integrate these three dimensions in an umbrella framework This publication is one such attempt This book comprises of 58 papers contributed by leading academia from universities and management institutes in India and abroad Many of the contributions have come from USA Canada UK Japan Australia New Zealand UAE Bahrain Taiwan Brazil and Mexico adding to the rich diversity of the thought processes explored in the papers Some of these papers are country specific while some others provide a transnational perspective Also while some papers provide enriched conceptual frameworks in specific disciplines building upon existing frameworks several other papers provide application oriented coverage focused at select organizations or industries further adding unique value to this book There are eight sections in the book namely Supply

Chain Management Operations Management Information Systems ICT IT E Business Strategies Business Modeling Global Business Issues Challenges Marketing and Globalisation New Paradigms in Education and Globalisation The issues touched upon by various papers within each section are diverse and yet highly relevant and contemporary We believe this book would be useful not only to academia research scholars and students of various disciplines of management but also to those in the industry in India and abroad who are seeking conceptual inputs and experience sharing in their respective positions
