**Annual Survey of Eastern Europe and the Former Soviet Union: 1998** Peter Rutland, Gale Stokes, 2024-11-01

Annual Survey of Eastern Europe and the Former Soviet Union 1998 provides an overview of developments in one of the most rapidly changing regions of the world. It covers useful historical background as well as foreign policy issues and profiles of key personalities in these regions. From Ethnic Conflict to Stillborn Reform Shale Horowitz, 2005-04-27 From Ethnic Conflict to Stillborn Reform is the first complete treatment of the major post communist conflicts in both the former Yugoslavia Bosnia Herzegovina Croatia and Serbia and the former Soviet Union Armenia Azerbaijan Georgia Moldova and Tajikistan. It is also the first work that focuses not on causes but rather on consequences for democratization and market reform, the two most widely studied political outcomes in the developing world. Building on existing work emphasizing the effects of economic development and political culture, the book adds a new comprehensive treatment of how war affects political and economic reform. Author Shale Horowitz employs both statistical evidence and historical case studies of the eight new nations to determine that ethnic conflict entangles, distracts, and destabilizes reformist democratic governments while making it easier for authoritarian leaders to seize and consolidate power. As expected, economic backwardness worsens these tendencies, but Horowitz finds that powerful reform-minded nationalist ideologies can function as antidotes. The comprehensiveness of the treatment, use of both qualitative and quantitative analysis, and focus on standard concepts from comparative politics make this book an excellent tool for classroom use as well as a ground-breaking analysis for scholars.

EU, Europe Unfinished Zlatan Krajina, Nebojša Blanuša, 2016-09-23 What is the meaning of the Balkans in the early 21st century? Former Yugoslav countries seek a self-flattering alliance with the West via EU membership, while the Union's citizens increasingly declare to be Eurosceptic. At the same time, economic turmoil in countries like Greece confronts massive incoming waves of refugees for whom Europe's south-eastern borders are the nearest shelter. In this time of crisis, the Balkans return on the agenda as a parable of Europe's haunting questions about its future. EU, Europe Unfinished brings together established and emerging media and cultural scholars to explore colliding visions of space and identity within a declining continent. Whereas Europe imagines the Balkans to be the source of its nearest trouble, the region envisions Europe as a refuge from ongoing post-socialist transition. The book adopts a variety of critical perspectives from media and policy analysis to anthropology, art history, and autobiography to investigate where Europe is headed with the Balkans in its skein 25 years after the fall of the Iron Curtain. Holding the Course EastWest Institute (New York, N.Y.), 2000 The premier source for a comprehensive update and overview of developments in the most rapidly changing region in the world. Each edition features thematic coverage of regional political and economic developments. Chapters on every country of the region cover essential historical background as well as current developments and domestic and foreign policy issues. Supplementing the chapters are maps, data boxes, documents, and sidebars. **National Purpose in the World Economy** Rawi

Abdelal,2018-08-06 How do national identities affect the world economy Building on the insight that nationalisms and national identities endow economic policy with social purpose Rawi Abdelal proposes a novel theoretical framework a distinctively Nationalist perspective on international political economy to answer this question Using this framework and drawing on field research in Lithuania Ukraine and Belarus he provides an in depth look at the link between national identity and the economic policies of the new states formed by the breakup of the Soviet Union All these states from the Baltic coast to central Asia were economically dependent on Russia during the 1990s However they reacted very differently to that dependence and their reactions can be traced Abdelal contends to their individual societies Some such as Belarus found dependence inevitable and sought economic reintegration with Russia Others like Lithuania interpreted dependence as a large scale security threat and reoriented their economies away from Russia A third group typified by Ukraine demonstrated no coherent economic policy at all regarding dependence Abdelal distinguishes the Nationalist tradition in international political economy from the Realist tradition and shows that economic nationalism is different than mercantilism He demonstrates the ways that national identity affects economic policy and explains why some governments seek economic autonomy while others prefer regional reintegration He then applies his approach to other cases of economic reorganization after the end of empire eastern Europe in the 1920s after the Habsburgs 1950s Indonesia and French West Africa in the 1960s

**Nuclear Energy Safety and International Cooperation** Spencer Meredith, III,2014-07-11 Twenty five years after the Chernobyl explosion disaster struck once again after a tsunami overwhelmed the considerable safety measures at the Fukushima nuclear power plant in Japan However Fukushima had in place a solid containment structure to reduce the spread of radiation in the event of a worst case scenario Chernobyl did not These two incidents highlight the importance of such safety measures which were critically lacking in an entire class of Soviet designed reactors This book examines why five countries operating these dangerous reactors first signed international agreements to close them within a few years then instead delayed for almost two decades It looks at how political decision makers weighed the enormous short term costs of closing those reactors against the long term benefits of compliance and how the political instability that dominated post Communist transitions impacted their choices The book questions the efficacy of Western governments efforts to convince their Eastern counterparts of the dangers they faced and establishes a causal relationship between political stability and compliance behavior This model will also enable more effective assistance policies in similar situations of political change where decision makers face considerable short term costs to gain greater future rewards This book provides a valuable resource for postgraduate students academics and policy makers in the fields of nuclear safety international agreements and democratization
