Annual Of The Swedish Theological Institute 1973:

Annual of the Swedish Theological Institute, volume XI festschrift Gillis Gerleman ,1978 *Annual of the Swedish Theological Institute Svenska teologiska institutet (Jerusalem),1977* *The D and H stems in Koranic Arabic*

Leemhuis,2025-02-10 **Linguistics and Biblical Hebrew** Walter Ray Bodine,1992 The essays in this volume arose out of the Society of Biblical Literature section on linguistics and Biblical Hebrew and have been selected to provide a summary and statement of the state of the question with regard to a number of areas of investigation The sixteen articles are organized into sections on phonology morphology syntax semantics discourse analysis historical comparative linguistics and graphemics

Narrative Analogy in the Hebrew Bible Joshua Berman,2004-07-01 This volume sheds fresh light upon the phenomenon of narrative doubling in the Hebrew Bible Through an innovative interdisciplinary model the author defines the notion of narrative analogy in relation to other literatures where it has been studied such as English Renaissance drama and makes extensive critical use of contemporary literary theory particularly that of the Russian formalist Vladimir Propp His exploitation of narrative doubling with a focus upon the metaphorical reorients our reading by uncovering a major dynamic in biblical literature The author examines several battle reports and demonstrates how each could be interpreted as an oblique commentary and metaphor for the non battle account that immediately precedes it Battle scenes are revealed to stand in metaphoric analogy with among others accounts of a trial a rape a drinking feast and a court deliberation Joshua Berman offers new insights to the ever growing concern with the relationship between historiography and literary strategies and succeeds in articulating a new aspect of biblical ideology concerning human and divine relationship *Studies in the Book*

of Job Walter E. Aufrecht,2006-01-01 The four essays in this volume present an overview of current issues in studies of the book of Job The opening essay by Williams deals with major aspects of Joban research new commentaries Near Eastern backgrounds textual criticism language and vocabulary literary criticism dating problems and theological ideas The remaining essays focus on specifics from within Williams overview Craigie discusses the impact of Ugaritic language and literature on studies of Job Cox is concerned with textual criticism of Job primarily with regard to the Septuagint And in the final essay Aufrecht illustrates the importance of Aramaic in biblical studies in general and studies of Job in particular

Rumors of Wisdom Scott C. Jones,2009 Efforts at interpreting Joban poetry have often been divided between philological and literary critics This study brings these two critical modes together to offer an account of how Job 28 achieves meaning The heart of the study consists of two major sections The first is a reading of the poem with special attention to the conceptual background of its metaphors Rather than a poetic account of mining technology Job 28 is properly understood against the heroic deeds of ancient Mesopotamian kings described in Sumerian and Akkadian royal narratives especially the Gilgamesh epic The second major section is a thorough philological and textual commentary in which comparative philological and text critical methods are complemented by an aesthetic rationale for restoring the text of the poem as a work

of art The study reveals a multileveled and image driven masterpiece whose complexity impacts how one reads Job 28 as poetry and theology

Words Remembered, Texts Renewed Jon Davies, Graham Harvey, Wilfred G. E. Watson, 1995-01-01 To mark the retirement of John F A Sawyer Professor of Religious Studies in the University of Newcastle upon Tyne colleagues and former students from around the world have contributed studies on his areas of interest the study of Hebrew the books of the Jewish Bible and the culture and traditions of Judaism The essayists consider not simply the origin of the meaning of word and text but also the many and strange ways in which word and text become transposed re oriented and often enough traduced by later interests and purposes The roll call of scholars reads Philip Alexander Francis Andersen Graeme Auld Calvin Carmichael Robert Carroll David Clines Richard Coggins Jon Davies Philip Davies James Dunn John Elwolde John Gibson Graham Harvey Peter Hayman Dermot Killingley Jonathan Magonet Robert Morgan Takamitsu Muraoka Christopher Rowland Deborah Sawyer Clyde Curry Smith Max Sussman William Telford Marc Vervenne Wilfred Watson Keith Whitelam and Isabel Wollaston

Joel's Use of Scripture And the Scripture's Use of Joel John Strazicich, 2007 This work focuses on the appropriation and resignification of scripture in Joel and its NT Nachleben where Israel s literature functions as an authoritative medium of refraction The purpose is to recover the canon s unrecorded hermeneutics at the intersection of both diachronic and synchronic textual surfaces

In Search of History John Van Seters, 1997 The primary concern of the book is to understand the origins and nature of history writing in ancient Israel The investigation is undertaken against the background of history writing in the Near Eastern and classical worlds Professor Van Seters begins with a broad survey of all the historiographic material relevant for the study of Israel s own writing of history He then turns his attention to the question of Israel s historiography by focusing particularly on the Deuteronomistic Historian the first Israelite historian

Between Wisdom and Torah Jiseong James Kwon, Seth Bledsoe, 2023-05-08 Previous scholars have largely approached Wisdom and Torah in the Second Temple Period through a type of reception history

whereby the two concepts have been understood as signifiers of independent earlier biblical streams of tradition that later came together in the Hellenistic and Roman eras largely under the process of a so called torahization of wisdom Recent studies critiquing the nature of wisdom and wisdom literature as operative categories for understanding scribal cultures in early Judaism as well as newer approaches to conceptualizing Torah and authorizing compositional practices related to the Pentateuchal texts however have challenged the foundations on which the previous models of Wisdom and Torah rested This volume therefore brings together several essays that aim to reexamine and rethink the ways we can describe the developments of texts categorized as Wisdom that proliferated during the Second Temple Period and whose contents point to an engagement with a Torah discourse By asking anew the question of whether Wisdom was transformed by into Torah during this period this volume offers reformulations on the discursive space between Wisdom and Torah through analyzing new identifications confluences and transformations

Institutionalization of Authority and the Naming of Jesus Yolanda Dreyer, 2012-01-25 This

book is about the names given to Jesus by those followers responsible for putting his words and deeds into writing the earliest Christian scribes In the first century Mediterranean world the first name of male person was his proper name The second name indicated the family or clan to which he belonged whereas the third name was an honorary title bestowed on him because of some achievement good fortune physical attribute or special excellence Honorary titles were bestowed on Jesus mostly after his death Such titles were often given to sages The titles could either amplify Jesus wisdom and empower people or serve as instruments of power This book aims to demonstrate the ideological and political mystification of Jesus in the transmission of the tradition about him It illustrates the relevance of The social history of formative Christianity The evolution of the Jesus traditions The genre of the gospels as biography and The institutionalization of charismatic authority
