Street Fight in Naples Peter Robb,2012-07-05 Naples is always a shock flaunting beauty and squalor like nowhere else It is the only city in Europe whose ancient past still lives in its irrepressible people In 1503 Naples was the Mediterranean capital of Spain s world empire and the base for the Christian struggle with Islam It was a European metropolis matched only by Paris and Istanbul an extraordinary concentration of military power lavish consumption poverty and desperation It was to Naples in 1606 that Michelangelo Merisi fled after a fatal street fight and there released a great age in European art until everything erupted in a

revolt by the dispossessed and the people of an occupied city brought Europe into the modern world Ranging across nearly three thousand years of Neapolitan life and art from the first Greek landings in Italy to the author's own less auspicious arrival thirty something years ago *Street Fight in Naples* brings vividly to life the tumultuous and at times tragic history of Naples

A Life in Balkan Archaeology John Chapman,2021-10-13 This memoir is not really about research questions or main conclusions It tells the story of a boy growing up in Plymouth Devon getting excited about archaeology after visits to mainland Greece and Crete trying to get into Greek archaeology and relocating northwards into the Balkans where he spent a career in prehistoric research The chapters alternate between museum university experiences and my major research projects The experiences of working in that part of the world as the Third Balkan War was starting were dramatic and a history style chapter is devoted to these beginnings The Balkan prehistoric club in the west is a very small and select group so there is an intrinsic interest about how westerners did their archaeology there and how they interacted with local colleagues There is also a sense of a colonial relationship between westerners knowledgeable about theory and method with well stocked libraries and large research grants and easterners with little of the above On a basic level the memoir presents stories with implications for east west relationships that will soon disappear from living memory The ways that research projects originated and developed are strongly featured and there is a fund of anecdotes about prehistorians living and dead The publication of this memoir records those fragments of the discipline s history that are in danger of being lost forever But my life story is not erased from this account which is not an anthropological work but rather a participant account with a modicum of relevant personal details The book providing the archaeological results is the publication *Forging identities in the prehistory of Old Europe* Dividuals individuals and communities 7000 3000 BC a synthesis of academic research in Balkan prehistory This memoir provides the insider story to the research results
