Baby Calf:

Calf Care and Raising Young Stock, 1994 **Calf Rearing** John Moran, 2002 This work provides information on growth nutrition health and behaviour with descriptions of various calf raising systems and facilities It also covers calf welfare post weaning management and calf communication The Rotarian, 1918-05 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Ghandi to Kurt Vonnegut Jr have written for the magazine **Meet a Baby Cow** Buffy Silverman, 2016-08-01 Baby cows are skinny at birth Yet they can stand right away And they grow really quickly Did you know that a full grown cow weighs about as much as a whole class of fourth graders Or that it takes an entire herd to raise one baby calf Read this book to find out more The Intelligence of Dumb Animals Ken Bull, 2009-09-03 The Intelligence of Dumb Animals Ken Bull Are animals really dumb I guess it depends on what the definition of dumb is If dumb means that animals do not make noises then they are not dumb If dumb means that animals do not communicate then they are not dumb If dumb means that they do not communicate with humans then there is some doubt but one might question whether the problem is with the animal or with the human Certainly they communicate with others of their species and often with other species as well I think that they can and do communicate with humans Most of those who read this will know that their pets do communicate with them A dog or a cat will surely get across that they need to go out Dog owners know that dogs learn tricks and perform on command Cat owners know that cats spend all of their time training their owners Certainly pets understand human languages They know when you are unhappy and when you are pleased Your gruff voice may send them cowering but they know that their careful response to your anger usually will bring forgiveness The lesser domesticated animals horses cows sheep goats dogs cats and the wild animals as well do respond to humans They respond to voices and are particularly attentive to body language Barbara and I own and operate a ranch in Central Texas Actually Barbara owns the ranch and I just work here Truthfully the ranch owns us It decides what we will do each day and when we might take a trip or even when we may go to town for more supplies Invariably when we leave for a day or two the bulls will break down a gate and let the herds mix or the horses will get into a wire fence and cut a leg or some cow will get in trouble having a calf One gets afraid to leave the place I don t know how the animals know that we are gone but they seem to know But it s a great life style if you love working with animals We took over the ranch operations in 1974 and now live in a house on the ranch We have raised horses cows sheep goats dogs and cats out here amongst the deer raccoons armadillos opossums bobcats coyotes snakes and mountain lions Some years we make a little money depending upon the livestock market the weather and the government More years than we would like we end up with little income and chalk it off as another year of great experience and forced intense exercise Over the years of living and working with animals we have noted that animals are intelligent and far from being dumb We

notice many human traits in animals or perhaps animal traits in humans They live by a hierarchy There is a boss cow or boss horse or a boss deer and the others within that herd yield to that hierarchy There is also a dominance of one animal species over another including humans They definitely grieve over the loss of an offspring Unlike humans the newly born animals instinctively know to get up nurse and make their own way The stories that I document here are actual experiences that Barbara and I have had here on the ranch A horse that knew to come for our help to rescue her friend see Chapter 1 A Pyreneese sheep dog that willingly allowed a lost lamb to nurse along with her own pups see Chapter 4 A cow that led us to her calf that had drowned shortly after birth see Chapter 2 Many other examples of animal intelligence are documented in this book We love the animals and believe that we are not alone Most mom and pop ranching families are in business because they love animals and love the ranch way of life We know that they do not stay in the ranching business because of profit The ever increasing cost of operations has long ago taken the profit from ranching America owes a lot to small agriculture operations because these small ag businesses have kept the cost of food and fiber reasonable for the American families Contrary to the belief of some folks in the cities food does

[Stories by Meir Blinkin](#) Meir Blinkin, 2012-02-01 Now available for the first time to the English speaking public, the captivating short stories of master storyteller Meir Blinkin are the charming prose equivalents of the film Hester Street. These delightful and touching stories also give an authentic account of the Jewish immigrant experience at the turn of the century. This collection is introduced by the renowned Yiddish scholar Ruth R. Wisse, professor of Yiddish literature at McGill University and co-author with Irving Howe of Tales of Sholem Aleichem. Her introduction provides bibliographical information on Meir Blinkin and places his work in the context of the development of Yiddish literature. Born in the same small town as Sholem Aleichem, Meir Blinkin was driven by poverty and anti-semitism to America. He arrived in New York in 1904 at the age of 25, one of the 105,000 Jews to reach America that year. At his untimely death eleven years later, Blinkin was well known to his Jewish American contemporaries as one of their finest prose writers, a leader of the young literary movement and a frequent contributor to the major Yiddish periodicals. Meir Blinkin's stories tell us what life was like in the immigrant community, conveying a strong sense of the stresses and changes to be endured. These stories not only illuminate the social conditions of the times but provide deft psychological analyses of troubled immigrants with their conflicting claims of loyalty to the secular world and Jewish orthodoxy. Blinkin is also a master at the evocation of mood, of psychic tensions and the claustrophobia of tenement life. In the best traditions of mimetic realism, he captures the vividly demotic speech of his characters with their Anglicisms and malapropisms. This unique collection of stories helps preserve the vibrant immigrant world. A tribal memory man, Meir Blinkin saves us from cultural amnesia.
