The Ghetto Underclass William J. Wilson, 1993-08-17 This volume examines the urban underclass from theoretical empirical and policy perspectives Focusing strongly on policy contributors explore such topics as demographic and industrial transitions family patterns sexual behaviour immigration and homelessness A new introduction updates recent work in the field since publication of the first edition *The Psychosocial Interior of the Family* Gerald Handel, Gail G. Whitchurch, 1994 This long awaited fourth edition has the same goal as the preceding editions to understand families in terms of the kinds of interaction through which family life is constructed The changes in the family as an institution have

influenced these processes just as they have influenced the ways we understand and write about them But even in these postmodern circumstances an underlying premise of the volume is that two partners establish a family because they have selected each other as distinctively meaningful to one another They will affirm modify elaborate or retreat from various aspects of the relationship through interaction over time and in changing circumstances This volume contains the best available interdisciplinary work on the social psychology of the family More than half of the selections are new to this edition which incorporates a variety of theoretical and research perspectives that provide the reader with a range of authoritative and up to date sources on the family and interpersonal relations The newer forms of family organization that have emerged in the more recent literature specifically single parent families stepfamilies and families of gay and lesbian domestic partners are included Authors have been drawn from a variety of disciplines including sociology communication family studies human development psychology anthropology and social work

My Baby's Father Maureen R. Waller,2018-05-31

About one third of births in the United States occur to unmarried parents Evidence suggests that children who grow up in families headed by single parents have worse socioeconomic

outcomes than those raised by married parents Fatherlessness has become a byword in public debate and policymaking yet fundamental questions about unmarried parents and their ideas of paternal responsibility remain unanswered In *My Baby's Father* Maureen R Waller draws on interviews with unmarried parents whose children receive welfare to address several basic vital questions How do low income mothers and fathers define the father's obligation to his children and explain irresponsible behavior among fathers How do they negotiate private arrangements of paternal acknowledgment and support And how do these informal practices interact with mandatory welfare and child support regulations The majority of research on low income families focuses on single mothers Waller's book also gives a voice to the fathers historically either excluded from academic and policy discussions or simply characterized as deadbeat dads with no sense of paternal responsibility By documenting the experiences of African American and white parents simultaneously Waller illustrates the extent to which beliefs and practices are likely to cut across racial lines She also shifts the focus from teenagers to adults who constitute the largest group of unmarried parents *My Baby's Father* provides honest glimpses into the lives of unmarried parents In addition it offers specific recommendations for social policies that are both better suited to unmarried parents socioeconomic situations and more responsive to the practices of responsible fatherhood in low income families [EY Tax Guide 2015](#)
