**Legends of Babylon and Egypt in Relation to Hebrew Tradition** Leonard W. King, 2005-05-24 In these lectures the Schweich Lectures of 1916 an attempt has been made not so much to restate familiar facts as to accommodate them to new and supplementary evidence which has been published in America since the outbreak of the war Hebrew achievements in the sphere of religion and ethics are only thrown into stronger relief when studied against their contemporary background The bulk of our new material is furnished by some early texts written towards the close of the third millennium B C They incorporate traditions which extend in unbroken outline from their own period into the remote ages of the past and claim to trace the history of man back to his creation They represent the early national traditions of the Sumerian people who preceded the Semites as the ruling race in Babylonia and incidentally they necessitate a revision of current views with regard to the cradle of Babylonian civilization from the Preface

*Legends of Babylon and Egypt in Relation to Hebrew Tradition* Leonard William King, 1918

The Old Testament in the Light of the Historical Records and Legends of Assyria and Babylonia Theophilus Goldridge Pinches, 2019-03-18 To find out how the world was made or rather to give forth a theory accounting for its origin and continued existence is one of the subjects that has attracted the attention of thinking minds among all nations having any pretension to civilization It was therefore to be expected that the ancient Babylonians and Assyrians far advanced in civilization as they were at an exceedingly early date should have formed opinions thereupon and placed them on record as soon as those opinions were matured and the art of writing had been perfected sufficiently to enable a serviceable account to be composed This naturally did not take place all at once We may take it for granted that the history of the Creation grew piece by piece as different minds thought over and elaborated it The first theories we should expect to find more or less

improbable wild stories of serpents and gods emblematic of the conflicting powers of good and evil which with them had their origin before the advent of mankind upon the earth But all men would not have the same opinion of the way in which the universe came into existence and this would give rise as really happened in Babylonia to conflicting accounts or theories the later ones less improbable than and therefore superior to the earlier The earlier Creation legend being a sort of heroic poem would remain popular with the common people who always love stories of heroes and mighty conflicts such as those in which the Babylonians and Assyrians to the latest times delighted and of which the Semitic Babylonian Creation story consists As the ages passed by and the newer theories grew up the older popular ones would be elaborated and new ideas from the later theories of the Creation would be incorporated whilst at the same time mystical meanings would be given to the events recorded in the earlier legends to make them fit in with the newer ones African Zion Edith Bruder,2012-03-15

Over the last hundred years in Africa and the United States through a variety of religious encounters some black African societies adopted or perhaps rediscovered a Judaic religious identity African Zion grows out of a joined interest in these diversified encounters with Judaism their common substrata and divergences their exogenous or endogenous characteristics the entry or re entry of these people into the contemporary world as Jews and the necessity of reshaping the standard accounts of their collective experience In various loci the bonds with Judaism of black Jews were often forged in the harshest circumstances and grew out of experiences of slavery exile colonial subjugation political ethnic conflicts and apartheid For the African peoples who identify as Jews and with other Jews identification with biblical Israel assumes symbolical significance This book presents the way in which the religious identification of African American Jews and African black Jews real ideal or imaginary has been represented conceptualized and reconfigured over the last century or so These essays grow out of a concern to understand Black encounters with Judaism Jews and putative Hebrew Israelite origins and are intended to illuminate their developments in the medley of race ethnicity and religion of the African and African American religious experience They reflect the geographical and historic mosaic of black Judaism permeated as it is with different meanings both contemporary and historical
