Schneider, 2011-06 In her book the author offers readers a compact guide to the religion of the peoples living in the region of the Tigris and Euphrates rivers from the beginning of the Bronze Age to the time of Alexander the Great and Darius III Drawing on extant texts artifacts and architecture Schneider uncovers both an intriguing pantheon of deities including Marduk Ishtar and many others and the complex fluid and highly ritualized religious experience of the people who spent their lives serving and appeasing them *Writing, Law, and Kingship in Old Babylonian Mesopotamia* Dominique Charpin, 2010-11-15 Ancient Mesopotamia the fertile crescent between the Tigris and Euphrates rivers in what is now western Iraq and eastern Syria is considered to be the cradle of civilization home of the Babylonian and Assyrian empires as well as the great Code of Hammurabi The Code was only part of a rich juridical culture from 2200 1600 BCE that saw the invention of writing and the development of its relationship to law among other remarkable firsts Though ancient history offers inexhaustible riches Dominique Charpin focuses here on the legal systems of Old Babylonian Mesopotamia and offers considerable insight into how writing and the law evolved together to forge the principles of authority precedent and documentation that dominate us to this day As legal codes throughout the region evolved through advances in cuneiform writing kings and governments were able to stabilize their control over distant realms and impose a common language which gave rise to complex social systems overseen by magistrates judges and scribes that eventually became the vast empires of history books Sure to attract any reader with an interest in the ancient Near East as well as rhetoric legal history and classical studies this book is an innovative account of the intertwined histories of law and language **Magic and Divination in the Ancient World** Leda Jean Ciriaolo, Jonathan Lee Seidel, 2002-01-01 This collection of essays focuses on divination across the Ancient World from early Mesopotamia to late antiquity The authors deal with the forms theory and poetics of this important and still poorly understood ancient phenomenon Babylonian Oracle Questions Wilfred G. Lambert, 2007-01-01 The Babylonian tamitu texts are a corpus of questions addressed to the sun god Shamash and the storm god Adad jointly Professional diviners were employed to put the questions with the appropriate rites and to formulate the wording correctly since the only answer would be yes or no Thus the questions had to include a detailed exposition of the

matter and they open up intimate glances of things not otherwise available Kings ask whether they should undertake a certain campaign laying out a detailed plan of action At the other end of the scale a man wants to know whether his wife is telling him the truth All tablets are of first millennium B C date though some of the questions date from the second millennium B C Scribes copied out questions to serve as models for later use In this volume W G Lambert has gathered together all the known material including 54 tablets and fragments not previously published All are given in cuneiform copy transliteration translation with notes and an introduction By far the greater part of this material has not been edited before
