Ancient Near Eastern Themes in Biblical Theology Jeffrey Jay Niehaus, 2008-03-13 Tracing parallels between biblical accounts and pagan cultures of the ancient Near East Niehaus explores creation and flood narratives literary and legal forms and the acts of deities and the God of the Bible He reveals not just cultural similarities but spiritual dimensions of common thought and practice providing an overarching view of the story of the Bible Publisher *The Cambridge Companion to Genesis* Bill T. Arnold, 2022-05-12 Essays explaining diverse methods and reading strategies providing a dependable guide to understanding the Book of Genesis *I Studied Inscriptions from Before the Flood* Richard S. Tsumura, 1994 **Egypt as a Monster in the Book of Ezekiel** Safwat Marzouk, 2015-06-05 Appealing to Monster Theory and the ancient Near Eastern motif of Chaotkampf Safwat Marzouk argues that the paradoxical character of the category of the monster is what prompts the portrayal of Egypt as a monster in the book of Ezekiel While on the surface the monster seems to embody utter difference underlying its otherness there is a disturbing sameness Though the monster may be defeated and its body dismembered it is never completely annihilated Egypt is portrayed as a monster in the book of Ezekiel because Egypt represents the threat of religious assimilation Although initially the monstrosity of Egypt is constructed because of the shared elements of identity between Egypt and Israel the prophet flips this imagery of monster in order to embody Egypt as a monstrous Other In a combat myth YHWH defeats the monster and dismembers its body Despite its near annihilation Egypt in Ezekiel's rhetoric is not entirely obliterated Rather it is kept at bay hovering at the periphery questioning Israel's identity *Creation and the Abrahamic Faiths* Neil Spurway, 2009-05-27 Creation How we are here Not just us of course but bluetits and Hereford cattle and cabbages and E coli and deserts and mountains and suns and nebulae in fact all that is So not only Why are we here but Why is there a here for us to inhabit That is this book's theme Inevitably it doesn't answer the question in a mechanistic sense A telescope cannot look at itself and neither can an inhabitant of the Universe say how it came to be But that does not stop those questions haunting us So where shall we turn To cosmology The concept of an initial event a Big Bang is now almost universally accepted But what caused that Most would feel that this is not a question science can answer The first two contributors to this book are professional cosmologists yet cosmology is only a background for this book not its core theme That theme is the conviction that the Universe owes its existence to a divine

Creator and the specific formulations of this conviction in the three great monotheistic religions the Abrahamic faiths The scriptures of all three faiths include the creation accounts in the first two chapters of Genesis Later developments moved the expressions of the three faiths considerably apart but the social and political conditions of the 21st C world make it imperative that every effort should be put into a recovery of understanding between their practitioners The purpose of this book is to contribute to that understanding Of thirteen chapters two are by Jewish authors and three by Moslems several of the Christian authors also are deeply versed in the other traditions Together the chapters show that the attitudes of the three faiths to Creation have far more in common than otherwise In particular they are noticeably and encouragingly coming together in their endorsements of 21st C concerns for the environment The book derives from a conference of the Science and Religion Forum in Sept 2006 but all chapters have been rewritten for publication and carefully edited with linking commentaries

The Mythology of Kingship in Neo-Assyrian Art Mehmet-Ali Ataç,2010-02-08 In this book Mehmet Ali Ata argues that the palace reliefs of the Neo Assyrian Empire hold a meaning deeper than simple imperial propaganda

God's Design, 4th Edition Elmer Martens,2015-11-11 How does one summarize the thirty nine books of the Old Testament How might one determine the message of the Old Testament with others This book attempts an answer to these questions The answer is taken from a single Scripture passage Exodus 5 22 6 8 which is here considered a theological Table of Contents for the Old Testament In addition to such topics as Deliverance Community and Experiencing God the book has an extended discussion on Land a subject which deals with a wide range of interests but which only rarely receives attention in books on biblical theology The current edition features reflections and a set of discussion questions following each of the seventeen chapters a boon for university and seminary teachers and students and of large help for church study groups

Beliefs, Rituals, and Symbols of Ancient Egypt, Mesopotamia, and the Fertile Crescent Dean Miller,Samuel George Frederick Brandon,2014-01-01 This comprehensive atlas explores the varied ritual practices and religious beliefs in the ancient cultural region thought to be the cradle of civilization The captivating history of Ancient Egypt Mesopotamia and the area known as the Fertile Crescent unfolds through a pictorial and illustrated journey Through a robust glossary sidebars and thematic introductions the social studies content of this fascinating subject becomes easily digestible for even the most reluctant reader while the further reading section inspires future research

The Babylonian Genesis. The Story of Creation ... Second Edition. [With Illustrations, Including a Map.]. Alexander HEIDEL,1963 Primeval History: Babylonian, Biblical, and Enochic Helge Kvanvig,2011-03-21 The book offers a comprehensive analytic comparison between the images of primeval history in Babylonia in the Hebrew Bible and the parallel Enochic traditions It presents new interpretations of each of these traditions and how they relate to each other

From Logos to Trinity Marian Hillar,2012-01-30 A critical evaluation of the doctrine of the Trinity tracing its development and investigating its intellectual philosophical and theological background *The Legacy of Mesopotamia* Stephanie Dalley,1998 Influence from

Mesopotamia on adjacent civilizations has often been proposed on the basis of scattered similarities. For the first time a wide ranging assessment from 3000 BC to the Middle Ages investigates how similarities arose in Egypt, Palestine, Anatolia and Greece. The development of writing for accountancy, astronomy, divination and belles lettres emanated from Mesopotamians who took their academic traditions into countries beyond their political control. Each country soon transformed what it received into its own individual culture. When cuneiform writing disappeared, Babylonian cults and literature, now in Aramaic and Greek, flourished during the Roman Empire. The Manichaeans adapted the old traditions which then perished under persecution, but traces persist in Hermetic works, court narratives and romances, and in the *Arabian Nights*. When ancient Mesopotamia was rediscovered in the last century, British scholars were at the forefront of international research. Public excitement has been reflected in pictures and poems, films and fashion.

Creation and Destruction David Toshio Tsumura, 2005-01-01

In 1989 David Tsumura published a monograph entitled *The Earth and the Waters in Genesis 1 and 2: A Linguistic Evaluation* in which he demonstrated that the oft-recited claim that the early chapters of Genesis betrayed a background or adaptation by Israel of mythological terms and motifs from other ancient Near Eastern literature could not be supported by a close examination of the linguistic data. Despite the book's positive reception, the notion that the Chaoskampf motif lies behind the early chapters of Genesis continues to be rehearsed in the literature as if the data were incontrovertible. In this revised and expanded edition of the 1989 book, Tsumura carries the discussion forward. In part 1, the general thesis of the original work is restated in a significantly revised and expanded form. In the second part of this monograph, he expands the scope of his research to include a number of poetic texts outside the Primeval History texts for which scholars often have posited an ancient Near Eastern mythological substratum. Among the questions asked are the following: What are the functions of waters and flood in biblical poetry? Do the so-called chaos dragons in the Old Testament, such as Leviathan, Rahab, and Yam, have anything to do with the creation motif in the biblical tradition? What is the relationship between these poetic texts and the Ugaritic myths of the Baal-Yam conflict? Are Psalms 18 and 29 adaptations of Canaanite hymns, as suggested by some scholars? Among the conclusions that Tsumura reaches are these: 1. The phrase *tohu waboh* has nothing to do with the idea of a chaotic state of the earth. 2. The term *tehom* in Gen 1:2 is a Hebrew form derived from the Proto-Semitic *tiham* 'ocean' and it usually refers to the underground water that was overflowing and covering the entire surface of the earth in the initial state of creation. 3. The earth-water relationship in Gen 2:5-6 is different from that in Gen 1:2. In Gen 1:2, the earth was totally under the water; in Gen 2:5-6, only a part of the earth, the land, was watered by the *ed* (water) which was overflowing from an underground source. 4. The biblical poetic texts that are claimed to have been influenced by the Chaoskampf motif of the ancient Near East, in fact, use the language of storms and floods metaphorically and have nothing to do with primordial combat.
