Arnold,2019-01-15 This engaging and informative introduction to the the Babylonians were important not only because of their many historical contacts with ancient Israel but because they and their predecessors the Sumerians established the philosophical and social infrastructure for most of Western Asia for nearly two millennia Beginning and advanced students as well as biblical scholars and interested nonspecialists will read this introduction to the history and culture of the Babylonians with interest and profit The Gilgamesh Epic in Genesis 1-11 Adam E. Miglio,2023-02-10 This book provides a substantive reliable and accessible comparison of the Gilgamesh Epic and Genesis 1 11 investigating their presentation of humanistic themes such as wisdom power and the good life While the Gilgamesh Epic and Genesis 1 11 are characterized by historical and cultural features that may seem unusual or challenging to modern readers such as the intervention of gods and goddesses and talking animals these ancient literary masterpieces are nonetheless familiar and relatable stories through their humanistic composition This volume explores the presentation of humanistic themes and motifs throughout both stories Significant passages and narratives such as stories from the Garden of Eden and the Flood are translated into English and accompanied by comprehensive discussions that compare and contrast shared ideas in both compositions Written in a lucid

and concise fashion this book offers new insights into the Gilgamesh Epic and Genesis 1 11 in an accessible way The Gilgamesh Epic in Genesis 1 11 Peering into the Deep is suitable for students and scholars of ancient Near Eastern literature with broad appeal across religious studies ancient history and world literature     Theodicy in the World of the Bible Antii Laato, Johannes de Moor, 2021-11-08 Is it justice when deities allow righteous human beings to suffer This question has occupied the minds of theologians and philosophers for many centuries and is still hotly disputed All kinds of argument have been developed to exonerate the good God of any guilt in this respect Since Leibniz it has become customary to describe such attempts as theodicy the justification of God In modern philosophical debate this use of theodicy has been questioned However this volume shows that it is still a workable term for a concept that originated much earlier than is commonly realised Experts from many disciplines follow the emergence of the theodicy problem from ancient Near Eastern texts of the second millennium BCE through biblical literature from both Old and New Testament intertestamental writings including Qumran Philo Judaeus and rabbinic Judaism     *Babylonian Wisdom* Stephen Herbert Langdon, 1923
