Pushing Back the Boundaries Mike Mannin, 1999 Missionary families were an integral component of the missionary enterprise both as active agents on the global religious stage and as a force within the enterprise that shaped understandings and theories of mission itself Taking the family as a legitimate unit of historical analysis in its own right for the first time Missionary families traces changing familial policies and lived realities throughout the nineteenth century and powerfully argues for the importance of an historical understanding of the missionary enterprise informed by the complex interplay between the intimate the personal and the professional By looking at marriage parenting and childhood along with professionalism vocation and domesticity this first in depth study of missionary families reveals their profound importance to the missionary enterprise and concludes that mission history can no longer be written without attention to the personal emotional and intimate aspects of missionary lives

The European Union in the Security of

Europe Steve Marsh, Wyn Rees, 2012-03-12 This book examines the European Union's contribution to providing security in Europe amidst an increasingly complex and challenging environment. In this new and comprehensive guide to the EU's role in security since the end of the Cold War, the authors offer an explanation of EU internal and external security regimes and argue that the Union has become an important exporter of security within its region. However, the Union's rhetorical ambitions and commitments continue to outstrip its capabilities, and it lacks both a common conceptualisation of security and a meaningful shared strategic culture. Drawing extensively on primary sources, the book examines the Union's relations with the US and Russia in a time of shifting geostrategic calculations and priorities. With the EU's capacity for enlargement slowing, this text presents a detailed assessment of EU security policies towards Central Europe, the Mediterranean, the Western Balkans, Eastern Europe, and South Caucasus. *European Union Security* will be of interest to students and scholars of the EU, security studies, and international relations.

The European Union Handbook Jackie Gower, 2013-10-31 First Published in 2002, Routledge is an imprint of Taylor & Francis, an informal company.

The Eastern Enlargement of the European Union John O'Brennan, 2006-04-18 In May 2004, eight former communist states in Central and Eastern Europe acceded to the European Union. This new book examines the Eastern expansion of the EU through a tripartite structure, developing an empirical, conceptual, and institutional analysis to provide a rounded and substantive account of EU enlargement with new theoretical insights. The foreword is written by Pat Cox, former president of the European Parliament. John O'Brennan also explores why the EU decided to expand its membership, what factors drove this process forward, how did the institutional environment of the EU influence enlargement outcomes. In this context, he comprehensively covers the role of the European Council, Commission, and Parliament. This important volume will be of great interest to students and scholars of European politics and European Union studies.

The Road to the European Union Jacques Rupnik, Jan Zielonka, 2003 This book is a timely and solid portrait of modern China from the First Opium War to the Xi Jinping era. Unlike the handful of existing textbooks that only provide narratives, this textbook fashions a new and practical way to study modern China. Written exclusively for university students, A-level or high school teachers and students, it uses primary sources to tell the story of China and introduces them to existing scholarship and academic debate so they can conduct independent research for their essays and dissertations. This book will be required reading for students who embark on the study of Chinese history, politics, economics, diaspora, sociology, literature, cultural, urban, and women's studies. It would be essential reading to journalists, NGO workers, diplomats, government officials, businessmen, and travellers.

Central and South-Eastern Europe 2004 Europa Publications, 2003 Comprises a general survey of the region, country surveys, political profiles of the region, and information on international and regional organizations and research institutes.

The International Relations of the EU Steve Marsh, Hans Mackensteen, 2014-09-11 In an incisive and lively discussion, *International Relations of the EU* examines both the economic and security dimensions of European Union external relations. The book adopts an innovative approach that

combines International Relations with International Political Economy Set against a backdrop of EU enlargement and disarray over military intervention in Iraq International Relations of the EU is a timely contribution to our understanding of the EU's role as an international actor The text is suitable for advanced undergraduate courses in Politics and International Relations

East Central European Foreign Policy Identity in Perspective E. Tulmets, 2014-07-29 How have countries in the EU that were previously under Communist rule influenced the creation of a European policy towards other Post Soviet nations This study explores countries including the Czech Republic and Poland and shows how they have helped develop a coherent policy based reconciling political and historical foreign policy identities

The Enlarged European Union Peter Mair, Jan Zielonka, 2002 The European Union will be a much more diversified entity after the forthcoming eastward enlargement The applicant states from Eastern Europe are much poorer than the current member states from Western Europe Their democracy and in some cases even their statehood is newly established and presumably more fragile Their economic legal and administrative structures are less developed This collection of essays will try to examine the origin nature scale and implications of this divergence How much divergence is likely to be imported by the Union and will it hamper the process of European integration This volume looks at differences and similarities in the field of macro economics welfare systems democracy institutional infrastructure civic orientations and popular culture The book shows that the map of convergence and divergence in the future EU will be very complex and will not correspond exactly with the old east west divide Moreover the division lines are constantly changing with the enlargement process representing an important factor pushing individual states into a single regulatory frame if not in a common political direction However there are other unifying factors at play globalization produces different models and loyalties than Europeanization Moreover the European pulling effect works unevenly in different functional fields and in different countries There are also many factors that produce greater divergence rather than convergence across the European Union a certain degree of divergence is thus unavoidable The book shows in particular that certain types of divergence can be beneficial rather than merely detrimental in the process of European integration

Romania and The European Union Dimitris Papadimitriou, David Phinnemore, 2008-03-26 This is a new overview of Romania's relationship with the European Union since the collapse of the Ceausescu regime in 1989 and recent accession to EU membership It presents the reader with a clear sense of the debate with full coverage of all the key issues involved

Central and South-Eastern Europe 2003 Europa Publications, 2002 An in depth survey of the region presenting the latest economic and political developments It includes expert comment on issues of regional importance up to date statistics a directory of institutes and companies and political profiles

The Politics of European Union Enlargement Frank Schimmelfennig, Ulrich Sedelmeier, 2005-11-16 This is a key reference text presenting the latest first rate approaches to the study of European enlargement Developed and significantly expanded from a special issue of the leading Journal of European Public Policy this new volume draws on the insights from the recently emerging theoretically informed literature

on the EU's eastern enlargement and complements these studies with original articles that combine a theoretical approach with comparative analyses. These expert contributors focus on the broader theoretical debates and their implications for the enlargement of the EU as well as placing the enlargement of the EU within the broader context of the expansion of international organisations and the study of institutions in international relations. *The EU Timescape* Klaus

Goetz, Jan-Hinrik Meyer-Sahling, 2013-09-13 The manner in which time is institutionalized is critical to how a political system works. Terms, time budgets and time horizons of collective and individual political actors, rights over timing, sequencing and speed in decision making and the temporal properties of policy matter to the distribution of power, efficiency and effectiveness of policy making and democratic legitimacy. This book makes a case for the systematic study of political time in the European Union (EU) both as an independent and a dependent variable and highlights the analytical value added of a time-centred analysis. The book discusses previous scholarship on the institutionalization of political time and its consequences along the dimensions of polity, politics and policy, reviews dominant perspectives on political time which centre on power, system performance and legitimacy and presents case studies that illustrate the importance of time in the governance of the EU. This book was originally published as a special issue of *Journal of European Public Policy*. Globalisation and

Enlargement of the European Union Andreas Bieler, 2002-11 On January 1 1995 Austria and Sweden joined the European Union. This book analyses why these two countries joined at such a moment when steps towards a Common Foreign and Security Policy threatened their neutrality. *Central and Eastern Europe in the EU* Christian Schweiger, Anna

Visvizi, 2018-05-15 Since the onset of the global financial crisis in 2008 the EU has been in almost permanent crisis mode. It is witnessing new dimensions of internal differentiation among its member states and the migration crisis has shown that the Central and Eastern European countries (CEEs) in particular are slowly but certainly transforming themselves from predominantly passive policy takers towards becoming more active players in the process of shaping the EU's governance agenda. This edited volume offers the first comprehensive and critical insight into how the CEEs position themselves in the EU's changing internal and external environment, their stance towards the European integration process under current crisis conditions and what political and economic strategies they prioritize. **Globalisation and European Integration** Petros

Nousios, Henk Overbeek, Andreas Tsolakis, 2012-05-04 This book explores the links between European integration and globalisation and examines the potential for social transformation in the context of the global economic crisis and the resulting EU reforms. Divided into three parts, this book offers both empirical and theoretical analyses of social integration, supranationality and global competition. Drawing on Critical Political Economy research, Neo Gramscian, Open Marxist, Regulationist and Post-structuralist scholars subject a wide range of European flagship policies in matters of competition, trade and security to critical scrutiny and relate them to global political economy dynamics. Contributors examine the ways in which current global economic turbulence has affected the European Union, its membership and its adjacent areas and

determine the potential for economic and political transformation in light of the global economic crisis and Europe's 2020 Strategy. In the emerging multi-polar world in which the EU and the US are expected to share global policymaking with new powers, this book argues for a revised conceptualisation of European integration and its relationship with globalisation. Globalisation and European Integration will be of interest to students, scholars and researchers of globalisation, political economy, international relations and European Union politics.
