

The United Socialist States of America

Back in the USSA

The stories imagine Alexander II of Russia was not assassinated in 1881 as in the current timeline. Instead, Theodore Roosevelt was restricted President of the United States as the Progressive Party candidate in 1912, only to be assassinated on December 16, 1912 at the Chicago Union Stockyards by the sharpshooter and exhibition shooter Austin Goley, before he took office, when personally breaking a labor strike with the help of the Rough Riders. Following this, his vice president, Charles Foster Kane takes power, and gradually leads the United States into greater levels of oppression, class division and bureaucratic incompetence and corruption - including an earlier entry into the First World War in 1914 and the assassination of his rival candidate, Woodrow Wilson, during the 1916 election campaign.

Gradually, by 1917 the United States is unstable politically and socially, with overwhelming civil unrest stemming from the massive (and seemingly pointless) loss of American lives in the mud of the Western Front and the increasing gap between the wealthy 'rubber barons' and the poor workers, and the massive corruption and exploitation this has resulted in. The Socialist Party of America led by Eugene V. Debs gains increasing support, and soon the unrest has led to a Second American Revolution and Second American Civil War, following which Kane is ousted from the White House, overthrown, and executed for treason. Afterwards, a new socialist order, led by Debs, takes over.

The early history of this change is misplaced, however; upon Debs' death in 1926, power is seized by Al Capone (an obvious parallel to Joseph Stalin, just as Debs is used to mirror the achievements of Vladimir Lenin), who proceeds to rule over the USSA with a brutal, repressive fist of iron, establishing a cult of personality around himself, eating and exercising his political thirst and ruling the country more brutally and callously (and incompetently) than any of the rubber barons who were previously deposed. Gradually, following the Second World War, the Cold War between the USSA, the United Kingdom and a semi-constitutional monarchist Russian Empire, and the war in Indo-China (a Vietnam War-like affair in which armies from Russia and Great Britain attempted to support a somewhat democratic regime under attack from USSR-backed Communist guerrillas), the USSA begins to stagnate economically and socially, before finally collapsing into separate, warring nations by 1991, leading to an uncertain future for both the former USSA and the rest of the world.
