Great Power Politics in Cyprus Haralambos Alexandrou, Michalis Kontos, Nikos Panayiotides, 2014-06-30 This volume approaches foreign interventions in Cyprus from two different angles a vertical angle which corresponds to a case by case historical analysis of foreign interventions which have taken place throughout the modern history of Cyprus and a horizontal angle which corresponds to the implementation of systemic models of analysis in approaching foreign interventions in Cyprus Furthermore the volume deals with domestic perceptions formed as a result of foreign interventions in Cyprus focusing particularly on their impact on the politics and public rhetoric of the Cyprus problem especially as regards the Greek Cypriot community *The Politics of the Rope* Neville Twitchell, 2012 The campaign to abolish capital punishment 1955 1969 **A Lesson for Our Times** C. Philip Skardon, 2010-03-19 Even though it has faded in the minds of most the Cold War was the dominant happening in the second half of the 20th Century The underlying cause was the Soviet Unions expansionism which was driven by imperialist ambition overlaid with ideology Combating this radical and highly threatening form of political and territorial aggrandizement made extraordinary demands on the Western nations and especially the United States because of its strength and democratic tradition These forces vied in the Hungary Suez Crisis of 1956 as not before or after when 200 000 Soviet troops intervened in Hungary to put down the revolution and the attendant Uprising and acting contrary to Western interests Britain and France invaded the Canal Zone and the Israelis the Sinai raising the crisis to a point of extreme danger as the East West confrontation nearly burst its bounds Had the allies not been halted in Egypt by the Eisenhower Administrations use of the UN Charter and UN mechanisms for maintaining peace and the Russians not deterred from invading Western Europe by threat of U S nuclear retaliation it seemed possible that the world would experience a general war with nuclear weapons as a major component A Lesson for Our Times focuses on this possibility While it is about the steps taken by the United States to prevent the worst from occurring immediately it is also about what was done to prevent a similar crisis from occurring in the future To say that these actions were unique and effective is true but not enough They were also unprecedented in the history of the nation and surely the world as well as proof that the peace keeping system

devised after World War II would function as intended if undergirded and augmented by U S prestige and wherewithal Here then was Hungary Suez in its totality More should be known about the crisis for these reasons alone This book seeks to meet that need while filling a large gap in the understanding of the Cold War It also recalls a time when Americas conduct as the worlds primary superpower was as clear and visionary as it was purposeful and constructive in a word when American diplomacy was at its zenith
