Onslow, 1997-03-17 This book examines Conservative backbench debate on European integration and British relations in the Middle East between 1948 and 1957 In seeking to compare the impact of a loose affiliation of Conservative MPs an organized faction of longstanding and an ad hoc pressure group the text concentrates upon the Europeanists the Suez Group and the Anti Suez Group and considers their attempts to influence British foreign policy using interviews with former parliamentarians and contemporary sources published and unpublished     *The Politics of the Rope* Neville Twitchell, 2012 The campaign to abolish capital punishment 1955 1969     **The History of Parliamentary Behavior** William O. Aydelotte, 2015-03-08 In this volume thirteen American and European scholars show how a variety of mathematical tools may be used to attack major questions in the history of parliamentary behavior Their essays treat key topics related to the varied but comparable circumstances of seven countries These topics include recruitment and career patterns actions and decisions of legislators as revealed by their roll call votes and hypotheses that might help explain legislative behavior Historians have long been interested in the study of parliaments but the recent application of quantitative techniques has made possible the effective use of data too voluminous to be comprehended by traditional methods These techniques have also permitted a more precise and searching examination of certain controversial questions These essays provide a new measure of and challenge to long accepted views regarding the operation of parliaments Contributors William O Aydelotte Aage R Clausen Gudmund Hernes S ren Holmberg Geoffrey Hosking Anthony King Donald R Matthews Mogens N Pedersen Douglas Price Antoine Prost Christian Rosenzweig Peter H Smith and James A Stimson Originally published in 1977 The Princeton Legacy Library uses the latest print on demand

Modern Methods of

Teaching Political Science Prem Lata Sharma, 2002 **Britain, Israel and Anglo-Jewry 1949-57** Natan Aridan, 2004-08-02

This book focuses on the bilateral and multilateral relations between Britain the former proprietor and Israel the successor state during the period following their armed clash in January 1949 to Israel's withdrawal from the Gaza and the Sinai in March 1957. It highlights the formulation of foreign policy decisions in Britain and Israel, Britain's special responsibility and influence which affected Israel's relations with neighbouring Arab states, Israel's complex policy towards Britain, Anglo-Jewry's attitude towards Israel and the distinctive relationship between Israel's embassy in London and the Jewish community.

*Modern Political Science* Robert Adcock, Mark Bevir, Shannon C. Stimson, 2009-01-10. Since emerging in the late nineteenth century, political science has undergone a radical shift from constructing grand narratives of national political development to producing empirical studies of individual political phenomena. What caused this change? *Modern Political Science*, the first authoritative history of Anglophone political science, argues that the field's transformation shouldn't be mistaken for a case of simple progress and increasing scientific precision. On the contrary, the book shows that political science is deeply historically contingent, driven both by its own inherited ideas and by the wider history in which it has developed. Focusing on the United States and the United Kingdom and the exchanges between them, *Modern Political Science* contains contributions from leading political scientists, political theorists, and intellectual historians from both sides of the Atlantic. Together, they provide a compelling account of the development of political science, its relation to other disciplines, the problems it currently faces, and possible solutions to these problems. Building on a growing interest in the history of political science, *Modern Political Science* is necessary reading for anyone who wants to understand how political science got to be what it is today or what it might look like tomorrow. The Law and Parliament Dawn Oliver, Gavin Drewry, 1998-09.

Written by members of the Study of Parliament Group, this collection of essays on the law and parliament deals with subjects such as the Nolan Report, devolution, and an examination of the historical relationship between Parliament and European Human Rights law. **Euroscepticism in Contemporary British Politics** Anthony Forster, 2003-09-02. Anthony Forster

argues that euroscepticism, in addition to being a political stance, displays the seeds of becoming a new faith. Through a detailed analysis of British post-war politics, he shows the development of a core set of beliefs: a history of persecution, displays of moral rectitude in opposing Europe, and the power of scepticism to change existing beliefs. This challenging new history of euroscepticism will be a valuable resource for undergraduate students of politics and European studies. **British Parliamentary Parties** Jack Brand, 1992. In this book, Jack Brand examines the role of the British Conservative and Labour

parliamentary parties in the development of government policy since 1945 Focusing on six major policy fields agriculture education housing defence the economy and Scottish affairs he argues that the influence of back benchers has been consistently underestimated and that the close interdependence of front and back benchers frequently produces surprising and significant effects on policy development Dr Brand concludes that the common perception of back benchers as powerless to affect the policies of their leaders is misleading and that they are essential to the development of government policy
