Moreh, 2023-09-20 Arabic literature is noted for its tradition conscious consistency and sophistication In the classical period poetry and prose reached a high level of refinement and attained standards which are still being applied in the modern Arab world today The literature of the modern post classical period is no less sophisticated being a vibrant and flourishing expression of the continued Arabic tradition The series *Studies in Arabic Literature Supplements to the Journal of Arabic Literature* founded in 1971 is concerned with all kinds of literary expression in Arabic including the oral and vernacular traditions of both the modern and the classical periods Studies in the series can be literary historical analytical or comparative in nature and can treat of individual works authors and genres as well as literary traditions in a wider context Studies dealing with the social political and philosophical backgrounds of Arabic literature are particularly welcome in the series The series comprises monographs thematic collections of articles handbooks textual editions and annotated translations Text editions are as a rule accompanied by a translation on facing pages both text editions and translations should include comprehensive critical introductions which give a full and proper appreciation of the text or texts in question

The Symbolist Movement in the Literature of European Languages Anna Balakian, Anna Elizabeth Balakian, 1984 Edited by Anna Balakian this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages The scope of these analyses which explore Latin America Scandinavia Russia Poland Hungary Serbia Czechoslovakia and Bulgaria as well as West European literatures continues to make the volume a valuable reference today As Ren Wellek suggests in his historiographic contribution the fifty one contributors not only make us think afresh about individual authors who are giants but also draw us to reassess schools and movements in their local as well as international contexts Reviewers comment that this copious and intelligently structured anthology divided into eight parts traces the conceptual bases and emergence of an international Symbolist movement showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends Several chapters deal with the relationships between literature and the other arts pointing to Symbolism at work in painting music and theatre Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words The volume is a major contribution to the most significant exponents

and essential themes of Symbolism The theoretical historical and typological sections of the volume help explain why the impact of this important movement of the fin de siècle is still felt today **Baudelaire and Nature** F. W. Leakey, 1969

French Verse-Art Clive Scott, 1980-05-15 This 1980 book is designed to help university students to master the technicalities and techniques of French verse The author assumes that part of the difficulty encountered by readers derives from the need to approach French verse through English verse this book undertakes therefore a differentiation of the two verse traditions Dr Scott's concern is to provide the groundwork of a terminology to discuss the origins and implications of that terminology and to show how terminological knowledge can be translated into critical speculation about poetry After three chapters which establish the essential features of the French line of verse and outline the difficulties the student is likely to encounter in trying to describe it and deal with it the book moves on to consider rhyme stanzas verse forms and free verse *Mallarmé's Ideas in Language* Heather Williams, 2004 In this book the author discusses the sheer improbability of Mallarmé's joint concern with concepts or ideas on the one hand and with language as it behaves within the constraints of poetic convention on the other

Studies in Modern French Literature Presented to P. Mansell Jones Lloyd James Austin, 1961 **Such Rare Citings** Nikki Santilli, 2002 This volume is the first full length account of the British prose poem its history and status as a genre This book not only aims to place British prose poetry within the larger literary framework but also contributes to the discussion of what constitutes the genre while posing the question is there a discernible British style Extending from the Romantic period to the twentieth century Such Rare Citings offers analyses of prose poems by writers from Coleridge to Samuel Beckett *Jean Moreas and Les Stances: the Making of a Poet* John Davis Butler, 1963

Literature and the Rise of the Interview Rebecca Roach, 2018-11-21 Today interviews proliferate everywhere in newspapers on television and in anthologies as a method they are a major tool of medicine the law the social sciences oral history projects and journalism and in the book trade interviews with authors are a major promotional device We live in an interview society How did this happen What is it about the interview form that we find so appealing and horrifying Are we all just gossips or is there something more to it What are the implications of our reliance on this bizarre dynamic for publicity subjectivity and democracy Literature and the Rise of the Interview addresses these questions from the perspective of literary culture The book traces the ways in which the interview form has been conceived and deployed by writers and interviewing has been understood as a literary critical practice It excavates what we might call a poetics of the interview form and practice In so doing it covers 150 years and four continents It includes a diverse rostrum of well known writers such as Henry James T S Eliot Ezra Pound Djuna Barnes William Burroughs Philip Roth J M Coetzee and Toni Morrison while reintroducing some individuals that history has forgotten such as Betty Ross Queen of Interviewers and Julian Hawthorne Nathaniel's profligate son Together these stories expose the interview's position in the literary imagination and consider what this might tell us about conceptions of literature authorship and reading communities in modernity **Books for**
