Backing Into The Future The Classical Tradition And Its Renewal

MacGregor Knox, Williamson Murray

Backing Into The Future The Classical Tradition And Its Renewal:

Backing Into the Future Bernard Knox,1994 Who has brought the world of ancient Greece and Rome to life for the uninitiated reader and scholar alike **The Dynamics of Military Revolution, 1300-2050** MacGregor Knox,Williamson Murray,2001-08-27 The Dynamics of Military Revolution aims to bridge a major gap in the emerging literature on revolutions in military affairs suggesting that there have been two very different phenomena at work over the past centuries military revolutions which are driven by vast social and political changes and revolutions in military affairs which military institutions have directed although usually with great difficulty and ambiguous results By providing both a conceptual framework and a historical context for thinking about revolutionary changes in military affairs the work establishes a baseline for understanding the patterns of change innovation and adaptation that have marked war in the Western World since the thirteenth century beginning with Edward III s revolutionary changes in medieval warfare through the development of modern Western military institutions in seventeenth century France to the cataclysmic changes of the First World War and the German Blitzkrieg victories of 1940 This history provides a guide for thinking about military revolutions in the coming century which are as inevitable as they are difficult to predict **Classical Victorians** Edmund Richardson,2013-02-07 This is a compelling account of Victorian Britain s troubled relationship with antiquity Extraordinary characters the virtuoso forger the blundering general and the bitter prodigy will engage scholars and general readers alike This wide ranging narrative breaks new ground in the fast growing field of classical reception studies **The Making of Peace** ,

Projecting the Past Maria Wyke,2013-12-02 Brought vividly to life on screen the myth of ancient Rome resonates through modern popular culture Projecting the Past examines how the cinematic traditions of Hollywood and Italy have resurrected ancient Rome to address the concerns of the present The book engages contemporary debates about the nature of the classical tradition definitions of history and the place of the past in historical film **The Modern Cultural Myth of the Decline and Fall of the Roman Empire** Jonathan Theodore,2016-08-13 This book investigates the decline and fall of Rome as perceived and imagined in aspects of British and American culture and thought from the late nineteenth through the early twenty first centuries It explores the ways in which writers filmmakers and the media have conceptualized this process and the parallels they have drawn deliberately or unconsciously to their contemporary world Jonathan Theodore argues that the decline and fall of Rome is no straightforward historical fact but a myth in terms coined by Claude L vi Strauss meaning not a falsehood but a complex social and ideological construct Instead it represents the fears of European and American thinkers as they confront the perceived instability and pitfalls of the civilization to which they belonged The material gathered in this book illustrates the value of this idea as a spatiotemporal concept rather than a historical event a narrative with its own unique moral purpose **Military Innovation in the Interwar Period** Williamson R. Murray,Allan R. Millett,1998-08-13 In 1914 the armies and navies that faced each other were alike right down to the strengths of their

companies and battalions and the designs of their battleships and cruisers Differences were of degree rather than essence During the interwar period however the armed forces grew increasingly asymmetrical developing different approaches to the same problems This study of major military innovations in the 1920s and 1930s explores differences in exploitation by the seven major military powers The comparative essays investigate how and why innovation occurred or did not occur and explain much of the strategic and operative performance of the Axis and Allies in World War II The essays focus on several instances of how military services developed new technology and weapons and incorporated them into their doctrine organization and styles of operations

The Pedagogical Contract Yun Lee Too, 2000-07-13 *The Pedagogical Contract* explores the relationship between teacher and student and argues for ways of reconceiving pedagogy It discloses this relationship as one that since antiquity has been regarded as a scene of give and take where the teacher exchanges knowledge for some sort of payment by the student and where pedagogy always runs the risk of becoming a broken contract The book seeks to liberate teaching and learning from this historical scene and the anxieties that it engenders arguing that there are alternative ways of conceiving the economy underlying pedagogical activities Reading ancient material together with contemporary representations of

teaching and learning Yun Lee Too shows that apart from being conceived as a scene of self interest in which a professional teacher or sophist is the charlatan who cheats his pupil pedagogy might also purport to be a disinterested process of socialization or a scene in which lack and neediness are redeemed through the realization that they are required precisely to stimulate the desire to learn The author also argues that pedagogy ideally ignores the imperative of the conventional marketplace for relevance utility and productivity inasmuch as teaching and learning most enrich a community when they disregard the immediate material concerns of the community The book will appeal to all those who understand scholarship as having an important social and or political role to play it will also be of interest to literary scholars literary and cultural theorists philosophers historians legal theorists feminists scholars of education sociologists and political theorists Yun Lee Too is Assistant Professor of Classics Columbia University She is the author of Rethinking Sexual Harassment The Rhetoric of Identity in Socrates Text Power Pedagogy and The Idea of Ancient Literary Criticism forthcoming and coeditor with Niall Livingstone of Pedagogy and Power Rhetorics of Classical Learning

War, Strategy, and Military Effectiveness
Williamson Murray, 2011-09-30 This collection of articles represents Professor Williamson Murray s efforts to elucidate the role that history should play in thinking about both the present and the future They reflect three disparate themes in Professor Murray s work his deep fascination with history and those who have acted in the past his fascination with the similarities in human behavior between the past and the present and his belief that the study of military and strategic history can be of real use to those who will confront the daunting problems of war and peace in the twenty first century The first group of essays addresses the relevance of history to an understanding of the present and to an understanding of the possibilities of the future The second addresses the possible direct uses of history to think through the problems involved in the creation of effective military institutions The final group represents historical case studies that serve to illuminate the present
