Rattansi, Antonio Clericuzio, 2013-03-07 The present volume owes its origin to a Colloquium on Alchemy and Chemistry in the Sixteenth and Seventeenth Centuries held at the Warburg Institute on 26th and 27th July 1989 The Colloquium focused on a number of selected themes during a closely defined chronological interval on the relation of alchemy and chemistry to medicine philosophy religion and to the corpuscular philosophy in the sixteenth and seventeenth centuries The relations between Medicina and alchemy in the Lullian treatises were examined in the opening paper by Michela Pereira based on researches on unpublished manuscript sources in the period between the 14th and 17th centuries It is several decades since the researches of R F Multhauf gave a prominent role to Johannes de Rupescissa in linking medicine and alchemy through the concept of a quinta essentia Michela Pereira explores the significance of the Lullian tradition in this development and draws attention to the fact that the early Paracelsians had themselves recognized a family resemblance between the works of Paracelsus and Roger Bacon's scientia experimentalis and indeed a continuity with the Lullian tradition Bad Alchemy Dionisio D. Martínez, 1996 The winner of a 1993 Whiting Award reflects on the 1989 Tiananmen Square massacre twentieth century music and art the relevance of language and the poet's life as a Cuban exile Reprint Management of a Novice Alchemist: Volume 2 Mizuho Itsuki, 2024-08-14 Freshly recovered from the hellflame grizzly attack Sarasa along with new team members Iris and Kate gets to work reopening her shop just in time for summer She develops a cooling hat as a product to sell to the villagers but it's a bit too pricey for the town's barter economy Just as she's about to crack the economic code and generate her most popular product yet another alchemist shows up one who gets in the way of her buying one of the hat's main ingredients icefang bat fangs She who controls the ice controls the summer The battle for commerce in South Strag is on One Island, Many Voices Eduardo R. del Rio, 2022-04-12 Cuban American writers have been studied primarily within the context of Latino literature as a whole Seeing a need to distinguish and define this unique literary perspective Eduardo del Rio selected twelve important well known authors and conducted interviews He chose writers who were born in Cuba but have lived in the United States for a significant amount of time and whose works include themes he considers elemental to Cuban American literature identity duality memory and exile But rather than a cohesive homogeneous group these

conversations unveiled a kaleidoscope of individuality style and motive The authors bonds to Cuba inform their creative work in vastly different ways and attempts to categorize their similarities only highlight the range of character and experience within this assemblage of talented writers From playwright Dolores Prida to author and literary critic Gustavo P rez Firmat these voices run the gamut of both genre and personality In addition to the essential facts of literary accomplishment the interviews include a wealth of insight into each writer s history motivations concerns and relationship to language These personal details serve to humanize and illuminate the unique circumstances and realities that have shaped both the authors and their work What del Rio has ultimately brought together is a series of intimate sketches that will not only serve as an important reference for any discussion of the literature but will also help readers to develop for themselves a sense of what Cuban American writing is and what it is not

Sports in America Peter Stine, 1995 America's fascination with sports is the topic of this literary anthology Through their fiction, poetry and essays, nearly forty writers reflect on sports as an illumination of our ordinary lives rather than as a livelihood, a world of celebrities or a means of escape As *Siv Cedering*, *Maxine Kumin* and *John Ed Bradley* demonstrate, often the concerns we bring to sports are profoundly personal Our performance both as participants and spectators is a way of marking our past, our moral urgencies, our lost childhood, our role as parents, our pursuit of excellence, our fear of failure, our very identity and place in the chain of generations Sports inevitably graze and illuminate our culture as well Heather Ross Miller's memories of half-court women's basketball become a powerful metaphor for sexual attitudes during the 1950s George Garrett's reflections on college football during World War II provide images that symbolize an era and Neil Isaacs' delightful essay on major league batboys chronicles the American Dream *This Is the Sun?: Zeitgeist and Religion (Volume I: Comparative Religion)* Albert McIlhenny, 2011-12-07 The film *Zeitgeist* became an overnight internet sensation with its claims Christianity was based upon a pagan solar mythology This idea developed in the eighteenth century but dismissed as ridiculous by scholars has held support among anti-religious and occultic thinkers and recently was popularized by conspiracy theorists In the first of a two-volume critique of these ideas Albert McIlhenny takes on the claims of its best-known supporters By the end of this volume the theory of astrotheology is shown to be based on various historical mistakes popular in early modernity but since shown to be erroneous It is demonstrated the source of its current support is not based upon any evidence but the wild claims of conspiracy theorists dressed up to look like scholarship
