In Search of the Swan Maiden Barbara Fass Leavy,1995-07-01 In her compendious study of the folktale of the runaway wife Leavy argues that the contradictory claims of nature and culture are embodied in the legendary figure of the swan maiden a woman torn between the human and bestial worlds The New York Times Book Review This is a study of the meaning of gender as framed by the swan maiden tale a story found in the folklore of virtually every culture The swan maiden is a supernatural woman forced to marry keep house and bear children for a mortal man who holds the key to her imprisonment When she manages to regain this key she escapes to the otherworld never to return These tales have most often been interpreted as depicting exogamous marriages describing the girl from another tribe trapped in a world where she will always be the outsider Barbara Fass Leavy believes that in the societies in which the tale and its variants endured woman was the other the outsider trapped in a society that could never be her own Leavy shows how the tale though rarely explicitly recognized is frequently replayed in modern literature Beautifully written this book reveals the myriad ways in which the folktales of a society reflect its cultural values and particularly how folktales are allegories of gender relations It will interest anyone involved in literary gender and cultural studies Folk Traditions of

Along with confections of human with animal and woman wife with antelope meat the trickster god figure is central to San mythology In this book Mathias Guenther places San mythology firmly in the context of world mythology Stories in a New Skin Keavy Martin,2012-12-15 In an age where southern power holders look north and see only vacant polar landscapes isolated communities and exploitable resources it is important to note that the Inuit homeland encompasses extensive philosophical political and literary traditions Stories in a New Skin is a seminal text that explores these Arctic literary traditions and in the process reveals a pathway into Inuit literary criticism Author Keavy Martin considers writing storytelling and performance from a range of genres and historical periods the classic stories and songs of Inuit oral traditions life writing oral histories and contemporary fiction poetry and film and discusses the ways in which these texts constitute an autonomous literary tradition She draws attention to the interconnection between language form and context and illustrates the capacity of Inuit writers singers and storytellers to instruct diverse audiences in the appreciation of Inuit texts Although Eurowestern academic contexts and literary terminology are a relatively foreign presence in Inuit territory Martin builds on the inherent adaptability and resilience of Inuit genres in order to foster greater southern awareness of a tradition whose audience has remained primarily northern The Folktale Stith Thompson,1977 As interest in folklore increases the folktale acquires greater significance for students and teachers of literature The material is massive and scattered thus few students or teachers have accessibility to other than small segments or singular tales or material they find buried in archives Stith Thompson has divided his book into four sections which permit both the novice and the teacher to examine oral tradition and its manifestation in folklore The introductory section discusses the nature and forms of the folktale A comprehensive second part traces the folktale geographically from Ireland to India giving culturally diverse examples of the forms presented in the first part The examples are followed by the analysis of several themes in such tales from North American Indian cultures The concluding section treats theories of the folktale the collection and classification of folk narrative and then analyzes the living folklore process This work will appeal to students of the sociology of literature professors of comparative literature and general readers interested in folklore **The Fox's Craft in Japanese Religion and Culture** Michael Bathgate,2004-03 For more than a millennium the fox has been a ubiquitous figure at the margins of the Japanese collective imagination In the writings of the nobility and the motifs of popular literature the fox is known as a shapeshifter able to assume various forms in order to deceive others Focusing on recurring themes of transformation and duplicity in folklore theology and court and village practice The Fox's Craft explores the meanings and uses of shapeshifter fox imagery in Japanese history Michael Bathgate finds that the shapeshifting powers of the fox make it a surprisingly fundamental symbol in the discourse of elite and folk alike and a key component in formulations of marriage and human identity religious knowledge and the power of money The symbol of the shapeshifter fox thus provides a vantage point from which to understand the social practice of signification **The Golden Bough** James George Frazer,2020-08-01 Reproduction of the original The Golden Bough by

James George Frazer Kuna Art and Shamanism Paolo Fortis, 2013-01-02 Known for their beautiful textile art the Kuna of Panama have been scrutinized by anthropologists for decades Perhaps surprisingly this scrutiny has overlooked the magnificent Kuna craft of nuchukana wooden anthropomorphic carvings which play vital roles in curing and other Kuna rituals Drawing on long term fieldwork Paolo Fortis at last brings to light this crucial cultural facet illuminating not only Kuna aesthetics and art production but also their relation to wider social and cosmological concerns Exploring an art form that informs birth and death personhood the dream world the natural world religion gender roles and ecology Kuna Art and Shamanism provides a rich understanding of this society's visual system and the ways in which these groundbreaking ethnographic findings can enhance Amerindian scholarship overall Fortis also explores the fact that to ask what it means for the Kuna people to carve the figure of a person is to pose a riddle about the culture's complete concept of knowing Also incorporating notions of landscape islands gardens and ancient trees as well as cycles of life including the influence of illness Fortis places the statues at the center of a network of social relationships that entangle people with nonhuman entities As an activity carried out by skilled elderly men who possess embodied knowledge of lifelong transformations the carving process is one that mediates mortal worlds with those of immortal primordial spirits Kuna Art and Shamanism immerses readers in this sense of unity and opposition between soul and body internal forms and external appearances and image and design
