Animals And Ethics An Overview Of The Philosophical Debate

Andrew Linzey,Clair Linzey

Animals And Ethics An Overview Of The Philosophical Debate:

Animals and Ethics Angus Taylor,2003-05-12 A previous edition of this book appeared under the title Magpies Monkeys and Morals The new edition has been updated throughout Substantial new material has been added to the text including discussions of virtue ethics and Rawlsian contractarianism The bibliography has been significantly enlarged and now includes more than five hundred entries BOOK JACKET   Animals and Ethics 101 Nathan Nobis ,2016-10-11 Animals and Ethics 101 helps readers identify and evaluate the arguments for and against various uses of animals such Is it morally wrong to experiment on animals Why or why not Is it morally permissible to eat meat Why or why not Are we morally obligated to provide pets with veterinary care and if so how much Why or why not And other challenging issues and questions Developed as a companion volume to an online Animals Ethics course it is ideal for classroom use discussion groups or self study The book presupposes no conclusions on these controversial moral questions about the treatment of animals and argues for none either Its goal is to help the reader better engage the issues and arguments on all sides with greater clarity understanding and argumentative rigor Includes a bonus chapter Abortion and Animal Rights Does Either Topic Lead to the Other

    Animals and Ethics - Third Edition Angus Taylor,2009-05-27 Can animals be regarded as part of the moral community To what extent if at all do they have moral rights Are we wrong to eat them hunt them or use them for scientific research Can animal liberation be squared with the environmental movement Taylor traces the background of these debates from Aristotle to Darwin and sets out the views of numerous contemporary philosophers including Peter Singer Tom Regan Mary Anne Warren J Baird Callicott and Martha Nussbaum with ethical theories ranging from utilitarianism to eco feminism The new edition also includes provocative quotations from some of the major writers in the field As the final chapter insists animal ethics is more than just an academic question it is intimately connected both to our understanding of what it means to be human and to pressing current issues such as food shortages environmental degradation and climate change   **The Philosophy of Animal Rights** ,   Animal Ethics Bob Fischer,2021-05-05 There are many introductions to the animal ethics literature There aren t many introductions to the practice of doing animal ethics Bob Fischer s Animal Ethics A Contemporary Introduction fills that gap offering an accessible model of how animal ethics can be done today The book takes up classic issues such as the ethics of eating meat and experimenting on animals but tackles them in an empirically informed and nuanced way It also covers a range of relatively neglected issues in animal ethics such as the possibility of insect sentience and the ethics of dealing with pests Finally the book doesn t assess every current practice using standard ethical theories but tries to evaluate some of them using the moral frameworks endorsed by those involved So for instance there is a chapter on the way that animal care and use committees try to justify some of the educational uses of animals and the chapter on zoos considers the way that international zoological societies justify compromising animal welfare The book wraps up with a discussion of the future of animal ethics Each chapter opens with a helpful initial overview of the chapter and ends

with a list of suggested readings to help students go further on their own Key Features Covers animal ethics from an empirically informed perspective bringing philosophy into conversation with key issues in animal science conservation biology economics ethology and legal studies among other fields Provides ample coverage of the most salient current topics including for example Debates about which animals are sentient The suffering of wild animals Research ethics The boundaries of activism Avoids suggesting that animal ethics is simply the practice of applying the right general theory to a problem instead allowing readers to first work out the specific costs and benefits of making ethical decisions Impresses upon the reader the need for her to work out for herself the best way forward with difficult ethical issues suggesting that progress can indeed be made Includes summaries and recommended readings at the end of each chapter   Understanding the environment and social policy Tony Fitzpatrick,2011-02-09 Bringing together leading experts this textbook explores the key social political economic and moral challenges that environmental problems pose for social policy in a global context Combining theory and practice with an interdisciplinary approach the book reviews the current strategies and policies and provides a critique of proposed future developments in the field Understanding the environment and social policy guides the reader through the subject in an accessible way using chapter summaries further reading recommended webpages a glossary and questions for discussion Providing a much needed overview the book will be invaluable reading for students teachers activists practitioners and policymakers   **The Palgrave Handbook of Practical Animal Ethics** Andrew Linzey,Clair Linzey,2018-06-26 This handbook provides an in depth examination of the practical and theoretical issues within the emerging field of animal ethics Leading experts from around the globe offer insights into cutting edge topics as diverse as killing for food religious slaughter animal companions aquariums genetic manipulation hunting for sport and bullfighting Including contributions from Lisa Johnson on the themes of human dominance Thomas White on the ethics of captivity Mark Bernstein on the ethics of killing and Kay Peggs on the causation of suffering this handbook offers an authoritative reference work for contemporary applied animal ethics Progressive in approach the authors explore the challenges that animal ethics poses both conceptually and practically to traditional understandings of human animal relations Key Features Structured in four parts to examine the ethics of control the ethics of captivity the ethics of killing and the ethics of causing suffering Interdisciplinary approach including philosophical historical scientific legal anthropological religious psychological and sociological perspectives Focussed treatment of practical issues such as animals in farming zoos and animal experimentation The Palgrave Handbook of Practical Animal Ethics is an essential resource for those with an interest in the ethics of modern day treatment of animals as well as scholars researchers and advanced students in zoology philosophy anthropology religious studies and sociology   An Integrated Approach to Environmental Management Dibyendu Sarkar,Rupali Datta,Avinandan Mukherjee,Robyn Hannigan,2015-11-02 Covers the most recent topics in the field of environmental management and provides a broad focus on the theoretical and methodological underpinnings of environmental management Provides an up to

date survey of the field from the perspective of different disciplines Covers the topic of environmental management from multiple perspectives namely natural sciences engineering business social sciences and methods and tools perspectives Combines both academic rigor and practical approach through literature reviews and theories and examples and case studies from diverse geographic areas and policy domains Explores local and global issues of environmental management and analyzes the role of various contributors in the environmental management process Chapter contents are appropriately demonstrated with numerous pictures charts graphs and tables and accompanied by a detailed reference list for further readings   *The Routledge Companion to Ethics* John Skorupski,2010-06-21 The Routledge Companion to Ethics is an outstanding survey of the whole field of ethics by a distinguished international team of contributors Over 60 chapters are divided into six clear sections the history of ethics meta ethics perspectives from outside ethics ethical perspectives morality debates in ethics The Companion opens with a comprehensive historical overview of ethics including chapters on Plato Aristotle Hume and Kant and ethical thinking in China India and the Arabic tradition The second part covers the domain of meta ethics The third part covers important challenges to ethics from the fields of anthropology psychology sociobiology and economics The fourth and fifth sections cover competing theories of ethics and the nature of morality respectively with entries on consequentialism Kantian morality virtue ethics relativism evil and responsibility amongst many others A comprehensive final section includes the most important topics and controversies in applied ethics such as rights justice and distribution the end of life the environment poverty war and terrorism The Routledge Companion to Ethics is a superb resource for anyone interested in the subject whether in philosophy or related disciplines such as politics education or law Fully indexed and cross referenced with helpful further reading sections at the end of each chapter it is ideal for those coming to the field of ethics for the first time as well as readers already familiar with the subject   Teaching the Animal ,

Animals and Business Ethics Natalie Thomas,2022-04-24 This book engages with some of the most pressing ethical issues that arise from the use of animals in various business practices providing interdisciplinary approaches to improving the nonhuman and human lives in animal related industries The chapters in this volume provide conceptual theoretical and practical analyses of these issues that will shape the future direction of business ethics to more fully refl ect the impacts and implications of animal based businesses on society its members and nature The authors in this volume engage with topics including animal suffering and emotions the commodifi cation of animals vegetarian and vegan businesses and diets technological innovations such as gene editing and lab cultured meat as well as captivity corporate disclosure of animal welfare policies and the possibility of humane jobs as well as the consideration of animals as stakeholders   *Ethics of Animal Use* Peter Sandøe,Stine B. Christiansen,2013-05-30 An interesting and accessible introduction to ethical issues raised by various forms of human use of animals This textbook avoids moral lecturing and presents a range of ethical viewpoints without defending or applying any specific stance Readers are encouraged and provoked to reflect for themselves and to

sharpen their own points of view regarding the ethical limits on our use of animals They will also gain further understanding of the views held by other people Early chapters of this interdisciplinary book cover changes over time in our view of animals the principles of animal ethics and different views of what counts as a good animal life Later chapters apply the conceptual tools to specific issues including food animal production advanced veterinary treatment of pets control of infectious diseases wildlife management as well as the use of animals in research Specifically designed for students of veterinary medicine animal science welfare and behaviour and veterinary nursing Also of interest to those wanting to combine an up to date science based account of animal issues with clear headed moral reflection The book covers an impressive range of topics with accuracy and fairness Despite its ambitious scope the authors have achieved remarkable unity in the book and have produced a book that is easy and pleasant to read Their work will surely provide a major tool for rationalizing the debate about the ethics of animal use and I commend them for their invaluable contribution From the Foreword by Professor Bernard Rollin Colorado State University *A Theory of Justice for Animals* Robert Garner,2013-08-15 This innovative book is the first to couch the debate about animals in the language of justice and the first to develop both ideal and nonideal theories of justice for animals It rejects the abolitionist animal rights position in favor of a revised version of animal rights centering on sentience Teaching the Animal: The Social Sciences , **Animal Lives Matter** Raymond Wacks,2024-02-13 Animal Lives Matter provides a comprehensive analysis of the legal philosophical and ethical aspects of animal rights It argues that the subject extends beyond the matter of our obligations towards animals to include our wider responsibilities for protecting the environment Drawing on numerous moral political legal religious and philosophical theories including utilitarianism deontology rights theory social contractarianism and the capabilities approach the author meticulously examines the questions of sentience speciesism personhood and human exceptionalism Lucid nuanced and academically rigorous this important book will be an essential resource for scholars of law politics philosophy ethics as well as policy makers and the general reader **Understanding Animal Welfare** David Fraser,2023-11-06 The essential text on understanding and improving animal welfare Understanding Animal Welfare 2nd Edition is revised and expanded to incorporate new research and developments in animal welfare Updated with greater accessibility in mind the reader is guided through animal welfare in its cultural and historical context methods of study and applications in practice and policy Drawing examples from farm companion laboratory and zoo animals the text provides an up to date overview of research and its applications while also tracing how concepts and methods have evolved over time Readers of the second edition of Understanding Animal Welfare will also find New developments in understanding positive animal states The importance of human actions in determining animal welfare New content on One Welfare How free living wild animals are affected by human technology and climate change Originally intended for scientists and professionals Understanding Animal Welfare has also found a home in undergraduate classrooms It is now the essential text for students practitioners veterinarians and researchers in animal

welfare and related fields   **Animal Subjects** Jodey Castricano,2008-05-20 Although Cultural Studies has directed sustained attacks against sexism and racism the question of the animal has lagged behind developments in broader society with regard to animal suffering in factory farming product testing and laboratory experimentation as well in zoos rodeos circuses and public aquariums The contributors to Animal Subjects are scholars and writers from diverse perspectives whose work calls into question the boundaries that divide the animal kingdom from humanity focusing on the medical biological cultural philosophical and ethical concerns between non human animals and ourselves The first of its kind to feature the work of Canadian scholars and writers in this emergent field this collection aims to include the non human animal question as part of the ethical purview of Cultural Studies and to explore the question in interdisciplinary terms   *Animal Ethics and Philosophy* Elisa Aaltola,John Hadley,2014-11-24 Debate in animal ethics needs reenergizing To date philosophers have focused on a relatively limited number of specific themes whilst leaving metaphilosophical issues that require urgent attention largely unexamined This timely collection of essays brings together new theory and critical perspectives on key topics in animal ethics foregrounding questions relating to moral status moral epistemology and moral psychology Is an individualistic approach based upon capacities the best way to ground the moral status of non human animals or should philosophers pursue relational perspectives What does it mean to know animals and speak for them What is the role of emotions such as disgust empathy and love in animal ethics and how does emotion inform the rationalism inherent in analytic animal ethics theory The collection aims to broaden the scope of animal ethics rendering it more inclusive of important contemporary philosophical themes and pushing the discipline in new directions   **Tourism and Animal Ethics** David A. Fennell,2024-02-26 This timely book provides a critical account of the role that animals play in the tourism industry representing an extension of the sustainability imperative and environmental theory Written by a leading academic and author this volume explores the rich history of animal ethics research both inside and outside of tourism studies for the purpose of providing greater theoretical empirical conceptual and practical guidance It examines historical and current practices of the use of animals in the tourism industry from both in situ to ex situ consumption and production perspectives identifying a range of ethical issues associated with such use This second edition has been updated to reflect contemporary research and thinking around animal welfare hunting and consumption with new chapters on animals as food and policy at the national and international levels New case studies have been integrated throughout Offering an interdisciplinary overview of the moral issues related to the use of animals in tourism through cutting edge research this book is essential reading for students academics and researchers interested in tourism ethics sustainable tourism and wildlife tourism   Bioethics Udo Schüklenk,Peter Singer,2021-09-08 The new edition of the classic collection of key readings in bioethics fully updated to reflect the latest developments and main issues in the field For more than two decades Bioethics An Anthology has been widely regarded as the definitive single volume compendium of seminal readings on both traditional and

cutting edge ethical issues in biology and medicine Acclaimed for its scope and depth of coverage this landmark work brings together compelling writings by internationally renowned bioethicist to help readers develop a thorough understanding of the central ideas critical issues and current debate in the field Now fully revised and updated the fourth edition contains a wealth of new content on ethical questions and controversies related to the COVID 19 pandemic advances in CRISPR gene editing technology physician assisted death public health and vaccinations transgender children medical aid in dying the morality of ending the lives of newborns and much more Throughout the new edition carefully selected essays explore a wide range of topics and offer diverse perspectives that underscore the interdisciplinary nature of bioethical study Edited by two of the field s most respected scholars Bioethics An Anthology Covers an unparalleled range of thematically organized topics in a single volume Discusses recent high profile cases debates and ethical issues Features three brand new sections Conscientious Objection Academic Freedom and Research and Disability Contains new essays on topics such as brain death life and death decisions for the critically ill experiments on humans and animals neuroethics and the use of drugs to ease the pain of unrequited love Includes a detailed index that allows the reader to easily find terms and topics of interest Bioethics An Anthology Fourth Edition remains a must have resource for all students lecturers and researchers studying the ethical implications of the health related life sciences and an invaluable reference for doctors nurses and other professionals working in health care and the biomedical sciences

Animals And Ethics An Overview Of The Philosophical Debate Introduction

In the digital age, access to information has become easier than ever before. The ability to download Animals And Ethics An Overview Of The Philosophical Debate has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Animals And Ethics An Overview Of The Philosophical Debate has opened up a world of possibilities. Downloading Animals And Ethics An Overview Of The Philosophical Debate provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Animals And Ethics An Overview Of The Philosophical Debate has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Animals And Ethics An Overview Of The Philosophical Debate. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Animals And Ethics An Overview Of The Philosophical Debate. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Animals And Ethics An Overview Of The Philosophical Debate, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit

vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Animals And Ethics An Overview Of The Philosophical Debate has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Animals And Ethics An Overview Of The Philosophical Debate Books
