**Bygone Middlesex** William Andrews,1899 **Echoes of Old Lancashire** William Edward Armytage Axon,1899 Preface This volume is intended for those who find it pleasant at times to wander in the byways of topography and local literature The development of Lancashire especially in its relation to modern industrial life has been told by more than one able historian and all that is here attempted is to glean in the ample harvest fields The bygone customs forgotten worthies outworn superstitions historical episodes and travellers tales here recorded will it is hoped not be without interest If some of the articles seem more modern than the title would strictly justify it must be remembered that the changes in the condition of the County Palatine have been so rapid that many things have become obsolete in the life time of the existing generation

peculiarities One will write only in the morning another only at night a third will be able to force himself into effort only at intervals and a fourth will after the manner of Anthony Trollope be almost altogether independent of times and places The nearest approach to a rule was that which was formulated by a great writer of the last generation who said that morning should be employed in the production of what De Quincey called the literature of knowledge and the evening in impassioned work the literature of power      *Ecclesiastical Curiosities* Various,
