Gunkel, 2012-07-13 An investigation into the assignment of moral responsibilities and rights to intelligent and autonomous machines of our own making One of the enduring concerns of moral philosophy is deciding who or what is deserving of ethical consideration Much recent attention has been devoted to the animal question consideration of the moral status of nonhuman animals In this book David Gunkel takes up the machine question whether and to what extent intelligent and autonomous machines of our own making can be considered to have legitimate moral responsibilities and any legitimate claim to moral consideration The machine question poses a fundamental challenge to moral thinking questioning the traditional philosophical conceptualization of technology as a tool or instrument to be used by human agents Gunkel begins by addressing the question of machine moral agency whether a machine might be considered a legitimate moral agent that could be held responsible for decisions and actions He then approaches the machine question from the other side considering whether a machine might be a moral patient due legitimate moral consideration Finally Gunkel considers some recent innovations in moral philosophy and critical theory that complicate the machine question deconstructing the binary agent patient opposition itself Technological advances may prompt us to wonder if the science fiction of computers and robots whose actions affect their human companions think of HAL in 2001 A Space Odyssey could become science fact Gunkel's argument promises to influence future considerations of ethics ourselves and the other entities who inhabit this world      [The Secret Wisdom of Animals](#) Kim Malonie, 2017-10-13 What is your pet trying to tell you Through Kim Malonie's exceptional and rare gift we are drawn into and can experience our pet's emotions feelings and thoughts but most of all their unconditional love for us their care givers Reading this book will change your life and that of your pets forever It is a gift you cannot afford to miss out on Perfect for you or anybody that loves and cares for animals Let us as peoples wake up Change the plight of animals around the globe and in the process learn to give unconditional love Be assured you will laugh at the amazing sense of humor animals have This book is a most compelling read a book that will be a must in your library We most heartily recommend Keywords Animal Whisperer Animal Communication Spiritual Animal Behavior Animal Psychology Animal Companions Pets Dogs Cats Birds Monkeys Horses
