the preparation of crustaceans and echinoderms was also addressed And furthermore some reports about the breeding of some crustaceans It would be very welcome if in the future more people would concern themselves with the care and preservation of the wondrous and multifarious inhabitants of the North Sea For unfortunately many of the species shown here seem to be largely unknown to a wider public which is why they hardly seem to have a real lobby in practice So we do better get to know our endemic species before they become extinct
