Spirit Animals and the Wheel of Life Hal Zina Bennett,2001-02-01 Though our ancient ancestors had a deep spiritual connection to the natural world most modern humans have lost that connection resulting in ever increasing ecological assaults on our planet As environmental quality continues to worsen we must find a way to spiritually reconnect with Mother Earth before it is too late Ecospiritualism is a form of spirituality that embraces and takes responsibility for the natural world we live in One of the most practical enjoyable and simple ways of reclaiming our ecospiritual connection with Mother Earth is journeying with the spirits of animals just as our ancestors did thousands of years ago Animals most intimately connect with Mother Earth are the perfect guides to the ancient wisdom we have lost Mole eagle badger wolf bear mountain lion each animal has its place on the sacred medicine wheel each has knowledge vital to the future of our Earth and to rediscovering our rightful place in it In Spirit Animals author Hal Zina Bennett offers an accessible form of spiritual orienteering in which personal power animals are the guides and teachers and shamanism is the means by which we work with and learn from them

Exotic Animals in the Art and Culture of the Medici Court in Florence Angelica Groom,2018-10-22 The book examines the roles that rare and exotic animals played in the cultural self fashioning and the political imaging of the Medici court during the family s reign first as Dukes of Florence 1532 1569 and subsequently as Grand Dukes of Tuscany 1569 1737 The book opens with an examination of global practices in zoological collecting and cultural uses of animals The Medici s activities as collectors of exotic species the menageries they established and their deployment of animals in the ceremonial life of the court and in their art are examined in relation to this wider global perspective The book seeks to nuance the myth promoted by the Medici themselves that theirs was the most successful princely serraglio in early modern Europe

Animal Labour Charlotte E. Blattner,Kendra Coulter,Will Kymlicka,2020 Animals do a wide range of work in our society but they are rarely recognized as workers or accorded any labour rights and their working conditions are often oppressive and exploitative Drawing on law ethics and labour studies the essays in this volume explore the potential and dangers of

animal labour **The Ethics of Animal Labor** Jocelyne Porcher, 2017-02-15 This book argues for a moral consideration of animal work relations. Paying special attention to the livestock industry, the author challenges the zootechnical denigration of animals for increased productivity while championing the collaborative nature of work. For Porcher, work is not merely a means to production but a means of living together in unity. This unique reconsideration of work envisions animals as co-laborers with humans rather than overwrought tools for exploitative and often lethal employment. Readers will learn about the disjunction between those focused on productivity and profit and those who favor a more ethical work environment for animals. Porcher's text also engages environmental and political debates concerning animal-human relations. Gifts Angie Harrelson, Brenda McGee, 2007-07 Gifts is a book in the Multiage Differentiated Curriculum Kit for Grades 1-3 that gives students the opportunity to discover extrinsic and intrinsic gifts available to them in their everyday lives. The books in Prufrock's new Differentiated Curriculum Kits employ a differentiated integrated curriculum based on broad themes. This all-in-one curriculum helps teachers save planning time, ensure compliance with national standards, and most importantly, pique their students' natural excitement and interest in discovery. By participating in the wide variety of activities in the Multiage Differentiated Curriculum Kit for Grades 1-3, students will discover the gifts around them and gain a lifelong desire to learn. Sentimental, personal, historical, symbolic, endangered, and fragile gifts are explored. Students also will learn the concept of supply and demand when assessing value or worth. The process and science of the preservation of national treasures also is investigated by students. From Egyptian pharaohs to poor farmers, students will find that everyone has gifts to offer. Gifts, along with the other books in the Multiage Differentiated Curriculum Kit for Grades 1-3, Discoveries, Faces, Cycles, and Symbols, makes teaching advanced learners easier. Grades 1-3 This curriculum unit makes use of the following great children's literature books: Tutankhamen's Gift by Robert Sabuda, Song and Dance Man by Karen Ackerman, Alejandro's Gift by Richard E. Albert, This is Our Earth by Laura Lee Benson, The Giving Tree by Shel Silverstein, The Velveteen Rabbit by Margery Williams, Aunt Claire's Yellow Beehive Hair by Deborah Blumenthal, The Pain and the Great One by Judy Blume, and The Great Trash Bash by Loreen Leedy. Animal Behavior Tim Halliday, 1994 Provides a look at the fascinating activities of all types of animals from birth to maturity as they attract a mate, care for their young, find food, and shelter and defend themselves. Written by a team of international experts. **The Friendly Beasts**, 1997 An old English Christmas carol in which the friendly stable beasts tell of the gifts which they have given to the newborn Child. The Love of God Poured Out: Grace and the Gifts of the Holy Spirit in St. Thomas Aquinas John Meinert, 2018-05-01 What is the relationship between the gifts of the Holy Spirit and the action of grace? John Meinert's The Love of God Poured Out enters into the major positions and debates within Thomism to forge a new synthesis on this topic within the greater body of scholarship existing today. Meinert reads Aquinas's thought on the gifts of the Holy Spirit and grace in an integral and analogous way. Not only does The Love of God Poured Out aid scholars in understanding Aquinas's thought on these two issues; it also once more clarifies the truth that

the Holy Spirit and his gifts are neither a devout appendix to moral theology nor a pious nod to tradition They are the heart and height of the moral life a life lived subditus Deo

'We Are Still Didene' Thomas McIlwraith,2012-10-15 Detailing the history of the aboriginal village of Iskut British Columbia over the past 100 years We Are Still Didene examines the community's transition from subsistence hunting to wage work in trapping guiding construction and service jobs Using naturally occurring extended transcripts of stories told by the group's hunters Thomas McIlwraith explores how Iskut hunting culture and the memories that the Iskut share have been maintained orally McIlwraith demonstrates the ways in which these stories challenge the idealized images of Aboriginals that underlie state sponsored traditional ecological knowledge TEK studies McIlwraith instead illuminates how these narratives are connected to the Iskut Village's complex relationships with resource extraction companies and the province of British Columbia as well as their interactions with animals and the environment

Live Stock and Dead Things Hannah Chazin,2024-12-20 Reconceptualizes human animal relationships and their political significance in ancient and modern societies In Live Stock and Dead Things Hannah Chazin combines zooarchaeology and anthropology to challenge familiar narratives about the role of nonhuman animals in the rise of modern societies Conventional views of this process tend to see a mostly linear development from hunter gatherer societies to horticultural and pastoral ones to large scale agricultural ones and then industrial ones Along the way traditional accounts argue that owning livestock as property along with land and other valuable commodities introduced social inequality and stratification Against this Chazin raises a provocative question What if domestication wasn't the origin of instrumentalizing nonhuman animals after all Chazin argues that these conventional narratives are inherited from conjectural histories and ignore the archaeological data In her view the category of domestication flattens the more complex dimensions of humans relationship to herd animals In the book's first half Chazin offers a new understanding of the political possibilities of pastoralism one that recognizes the powerful role herd animals have played in shaping human notions of power and authority In the second half she takes readers into her archaeological fieldwork in the South Caucasus which sheds further light on herd animals transformative effect on the economy social life and ritual Appealing to anthropologists and archaeologists alike this daring book offers a reconceptualization of human animal relationships and their political significance

Nietzsche's Animal Philosophy Vanessa Lemm,2009-08-25 Lemm consolidates her reputation as one of Nietzsche's most original attentive and lively readers The Journal of Nietzsche Studies This book explores the significance of human animality in the philosophy of Friedrich Nietzsche and provides the first systematic treatment of the animal theme in Nietzsche's body of work Vanessa Lemm argues that the animal is neither a random theme nor a metaphorical device in Nietzsche's thought Instead it stands at the center of his renewal of the practice and meaning of philosophy itself Lemm provides an original contribution to ongoing debates on the essence of humanism and its future At the center of this new interpretation stands Nietzsche's thesis that animal life and its potential for truth history and morality depends on a continuous antagonism

between forgetfulness animality and memory humanity This relationship accounts for the emergence of humanity out of animality as a function of the antagonism between civilization and culture By taking the antagonism of culture and civilization to be fundamental for Nietzsche s conception of humanity and its becoming Lemm gives a new entry point into the political significance of Nietzsche s thought The opposition between civilization and culture allows for the possibility that politics is more than a set of civilizational techniques that seek to manipulate dominate and exclude the animality of the human animal By seeing the deep seated connections of politics with culture Nietzsche orients politics beyond the domination over life and instead offers the animality of the human being a positive creative role in the organization of life This book will appeal not only to those interested in Nietzsche but to anyone interested in the theme of the animal in philosophy literature cultural studies and the arts as well as those interested in the relation between biological life and politics

Animal Ethics and the Nonconformist Conscience Philip J. Sampson,2018-08-24 This book explores the religious language of Nonconformity used in ethical debates about animals It uncovers a rich stream of

innovative discourse from the Puritans of the seventeenth century through the Clapham Sect and Evangelical Revival to the nineteenth century debates about vivisection This discourse contributed to law reform and the foundation of the RSPCA and continues to flavour the way we talk about animal welfare and animal rights today Shaped by the nonconformist conscience it has been largely overlooked The more common perception is that Christian dominion authorises the human exploitation of animals while Enlightenment humanism and Darwinian thought are seen as drawing humans and animals together in one family This book challenges that perception and proposes an alternative perspective Through exploring the shaping of animal advocacy discourses by Biblical themes of creation fall and restoration this book reveals the continuing importance of the nonconformist conscience as a source to enrich animal ethics today It will appeal to the animal studies community theologians and early modern historians

Gifts in the Age of Empire Sinem Arcak Casale, 2023-07-28 Explores the Safavid and Ottoman empires through the lens of gifts When the Safavid dynasty founded in 1501 built a state that championed Iranian identity and Twelver Shi ism it prompted the more established Ottoman Empire to align itself definitively with Sunni legalism The political religious and military conflicts that arose have since been widely studied but little attention has been paid to their diplomatic relationship Sinem Arcak Casale here sets out to explore these two major Muslim empires through a surprising lens gifts Countless treasures such as intricate carpets gilded silver cups and ivory tusk knives flowed from the Safavid to the Ottoman Empire throughout the sixteenth century While only a handful now survive records of these gifts exist in court

chronicles treasury records poems epistolary documents ambassadorial reports and travel narratives Tracing this elaborate archive Casale treats gifts as representative of the complicated Ottoman Safavid coexistence demonstrating how their rivalry was shaped as much by culture and aesthetics as it was by religious or military conflict Gifts in the Age of Empire explores how gifts were no mere accessories to diplomacy but functioned as a mechanism of competitive interaction between these early modern Muslim courts

Relief on the Hoof Eva Plach, 2025-11-15 Relief on the Hoof is about the thousands of horses and cattle that the United Nations Relief and Rehabilitation Administration UNRRA shipped as humanitarian aid in the immediate aftermath of WWII and about the seagoing cowboys who cared for the animals during their trans Atlantic journeys UNRRA contracted the Church of the Brethren to recruit almost 7 000 men to do this work and in exchange provided free passage on its ships to the cattle that were part of the Brethren's own humanitarian initiative the Heifer Project The Heifer Project emerged from a conviction that cows and their milk offered the best value as relief commodities As Eva Plach shows both UNRRA's animal aid program and the Heifer Project were responding to a crisis in postwar Europe Millions of livestock were lost during the war and contemporary experts warned that postwar recovery food security and the prevention of social and political unrest would be compromised without replenishing the lost herds Poland received more Heifer Project cattle than any other country and was the major recipient of UNRRA cattle and horses as well Relief on the Hoof shows that Poland's special status based on assessments of wartime destruction and postwar need reflected its unique geopolitical importance as Cold War tensions mounted
