Near-Death Experiences Ornella Corazza,2008-06-30 Near death experiences fascinate everyone from theologians to sociologists and neuroscientists This groundbreaking book introduces the phenomenon of NDEs their personal impact and the dominant scientific explanations Taking a strikingly original cross cultural approach and incorporating new medical research it combines new theories of mind and body with contemporary research into how the brain functions Ornella Corazza analyses dualist models of mind and body discussing the main features of NDEs as reported by many people who have experienced them She studies the use of ketamine to reveal how characteristics of NDEs can be chemically induced without being close to death This evidence challenges the conventional survivalist hypothesis according to which the near death experience is a proof of the existence of an afterlife This remarkable book concludes that we need to move towards a more integrated view of embodiment in order to understand what human life is and also what it can be Ornella Corazza is a NDE researcher at the School of Oriental and African Studies SOAS University of London In 2004 5 she was a Member of the 21st Century Centre of Excellence COE Program on the Construction of Death and Life Studies at the University of Tokyo

Bringing Forth a World Joff P.N. Bradley,David Kennedy,2019-12-30 Offering a critical yet constructive response to the perceived crises in tertiary foreign language education in the Japanese university the contributors to *Bringing Forth a World* provide theoretical and practical solutions which together act as a prolegomena to bringing forth a world Theirs is an ecology of contribution in liberal arts education which takes responsibility for the care for youth and contests intellectual passivity and indifference in foreign language instruction The editors proffer a transformative engaged and multidisciplinary liberal arts pedagogy one at odds with forms of lowest common denominator one size fits all and standardized provision In response to the prevalent business dominated model they demonstrate an applied format of multiliteracy theory one with semiotic multimodal feminist dimensions which is regionally specific and better accounts for divergent forms of human expression and perception The writers not only take account of the intellectual and mental issues in the student demographic but also in the teaching profession which suffers from widespread anxiety job insecurity and a lack of autonomy experimentation and innovation Philosophically the contributors to this book demand a form of meaning making which is fundamentally social and creative and which celebrates

processes of becoming other in between the student and teacher that seldom if ever follow a predictable trajectory It is hoped that readers will embrace the spirit of the book pick up its philosophical gauntlet to think otherwise than prevalent standardized models of teaching and learning and therefore will use its core tenets to experiment with different ways of educating the youth of today

Japanese ANIME Story Seo hyun woong,2025-05-15 Hello I am Seohyeon Woong an author from the Japanese specialty bookstore MeeNii We often try to define cultures by borders and seek identity within them However culture is like water flowing beyond borders continuously influencing and being influenced by each other without staying in one place The cultural relationship between Korea and Japan especially through animation exchange is a perfect example of this fluidity The introduction of Japanese animation to Korea starting in the 1960s was not merely the import of foreign content It was a cultural phenomenon that shaped the imagination of a generation inspired creativity and sometimes sparked social debates While it is widely known that Korean animations like Robot Taekwon V were inspired by Japanese works the depth and breadth of that influence are far more extensive than one might think This book explores how Japanese animation has been accepted and transformed within Korean society and culture from the 1960s to the present Through works spanning generations from Mazinger Z to Your Name we will uncover hidden stories of Korean popular culture This is not just a history of animation but also a cultural history reflecting the changes and growth of Korean society We aim to revisit Japanese animations from the black and white TV era when parents gathered with neighborhood kids to watch cartoons to those enjoyed by today s MZ generation By minimizing technical jargon and complex theories I hope to guide this journey in a language that everyone can easily understand Let us begin the journey to discover another aspect of Korean culture through the lens of Japanese animation Thank you
