Jung and the Jungians on Myth Steven Walker, 2014-04-08 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company Teaching Through the Ill Body Marla Morris, 2008-01-01 This book raises questions around pedagogy and illness Morris explores two large issues that run through the text What does the ill body teach What does the teacher do through the ill body The body has something to teach while teaching through the ill body This book is theoretically framed by connections between spirituality and aesthetics As the great spiritual traditions teach our responsibility as teachers is to help others especially those who are marginalized What is lacking in our educational discourse is a discussion of the responsibility we all have to help those who get sick and not marginalize them More specifically pedagogical and curricular questions are fleshed out through working in the area of curriculum studies depth psychology and the medical humanities These three disciplines have something in common autobiography But in the field of curriculum studies autobiographies pathographies of sickness are few and far between This book is meant to fill that gap in the educational literature This pathography is a study that explores the mysteries of suffering storytelling memory and poesis Compassion woundedness vulnerability testimony and authenticity are all issues Morris raises here Teachers scholars depth psychologists and medical educators might be particularly interested in this intensely felt narrative about what it is like for teachers to teach while suffering from chronic illness **Becoming** Deldon Anne McNeely, 2010 *Becoming* An Introduction to Jung's Concept of Individuation explores the ideas of Carl Gustav Jung His idea of a process called individuation has sustained Deldon Anne McNeely's dedication to a lifelong work of psychoanalysis which unfortunately has been dismissed by the current trends in psychology and psychiatry Psychotherapists know the value of Jung's approach through clinical results that is watching people enlarge their consciousness and change their attitudes and behavior transforming their suffering into psychological well being However psychology's fascination with behavioral techniques made necessary by financial concerns and promoted by insurance companies and pharmaceutical companies has changed the nature of psychotherapy and has attempted to dismiss the wisdom of Jung and other pioneers of the territory of the unconscious mind For a combination of unfortunate circumstances many of the younger generation including college and medical students are deprived of fully understanding their own minds Those with a scientific bent are sometimes turned away from self reflection by the suggestion that unconscious processes are metaphysical mumbo jumbo Superficial assessments of Jung have led to the incorrect

conclusion that one must be a spiritual seeker or religious in order to follow Jung's ideas about personality. Becoming is an offering to correct these misperceptions. Many university professors are not allowed to teach Jungian psychology. Secular humanism and positivism have shaped the academic worldview; therefore, investigation into the unknown or unfamiliar dimensions of human experience is not valued. But this attitude contrasts with the positive reputation Jung enjoys among therapists, artists of all types, and philosophers. Those without resistance to the unconscious because of their creativity, open-mindedness, or personal disposition are more likely to receive Jung's explorations without prejudice or ideological resistance. There is a lively conversation going on about Jung's ideas in journals and conferences among diverse groups of thinkers which does not reach mainstream psychology. Becoming is for those whose minds are receptive to the unknown and to help some of us to think more with respect than dread of the possibility that we act unconsciously.

The Rabbi, the Goddess, and Jung Naomi Ruth Lowinsky, 2016-11-01 A sanctuary for the soul. In *The Rabbi, the Goddess and Jung* Naomi Ruth Lowinsky shows us how to create a sacred space by cultivating one's inner life. Admitting that this is not an easy practice in our hectic, fearful times, she demonstrates how the word from within orients whether it comes as gift or disturbance, guest or ghost, riddle or revelation. It may force a confrontation with one's worst fears. It may visit in nightmare images such as the enormous spider with hairy legs and eight baleful eyes that appeared in a dream to warn of the perils facing human nature and Mother Nature. It is essential, especially in difficult times, to make space for what the Kabbalah calls the beyond that lies within the still, small voice of the Self, the long view of the wisdom traditions. In this collection of poetic, visionary essays, Lowinsky tells stories of the Lady Tree who showed up when she was six and has wandered in and out of her life, revealing her Goddess nature. Active imagination enables her to work out unfinished business with ancestors, including her father and Jung. Dreams introduce her to her spirit guides and to a dancing rabbi who insists she study Kabbalah. And that scary spider turns out to be Grandmother Spider, a creator goddess who has the power if we recognize Her to help us reweave our relationship with earth.

Shared Realities Mark Winborn, 2014-06-01 *Shared Realities: Participation, Mystique and Beyond* brings together Jungian analysts and psychoanalysts from across the United States, the United Kingdom, and France. Carl Jung's concept of participation mystique is used as a starting point for an in-depth exploration of shared realities in the analytic setting and beyond. The clinical narrative and theoretical discussions move through such related areas as projective identification, negative coniunctio, reverie, intersubjectivity, the interactive field, phenomenology, neuroscience, the transference, chimera, shamanism, shared reality of place, borderland, consciousness, and mystical participation. This unique collection of essays bridges theoretical orientations and includes some of the most original analytic writers of our time. An essential read for psychoanalysts, Jungian analysts, psychotherapists, and analytic candidates.
