England the novel established itself as a distinct genre with the works of Daniel Defoe and Richardson in the eighteenth century. Alongside the development of realism in the novel, the exotic and the adventurous continued to be popular. The novelist's tradition does not consist of rules but of certain assumptions about the handling of imagined reality. The element of realism helped in differentiating the eighteenth-century fiction from the earlier fiction. The one common feature that binds the works of Richardson, Defoe and Fielding is the quality of realism. Modern English writers of fiction preserve to maintain the startling element which is an aspect of realism. They have endeavoured to view life realistically to investigate and explore the secret of the mind, thus proving that the function of a novelist is the revelation of hidden life. **The Impact of Virginia**

Woolf on Anita Desai Dr. Varsha P. Zanwar, 2014-01-07 Virginia Woolf was a talented and indefatigable writer. She was a very serious and conscious artist interested more in the life of the mind in sensation, thoughts, feelings, intuitions than in the life of external action. Being an artist of great insight and penetration, she painted a picture of real life as she saw it. In her desire to paint reality, she broke with the traditions and conventions of the 19th-century novel. Anita Desai is also an indisputably one of the most powerful and distinguished contemporary Indian novelists in English. A novelist of considerable merit, Anita Desai has enriched the tradition of the Indian novel in English. She is a conscious artist of a high order and her concern for human has imparted profound appeal to her novels. Anita Desai, in contrast with other women novelists, is more interested in the interior landscape of the mind, the thought than in political and social realities. Thus Virginia Woolf and Anita Desai are two great artists in the realm of English fiction. Both are rooted in two totally different milieus, yet the works of two share not only in structure and themes but also in imagery, style and technique. The study of the impact of Virginia Woolf on Anita Desai provides a very fascinating and rewarding experience. Anita Desai and Virginia Woolf have taken deep interest in depicting the family structure. These two writers have their thematic nexus on the familial relationship. It is the depiction of the familial relationships which binds the two novelists with each other in a strong bond. Though these two great writers, Woolf and Desai are from two different centuries and countries, the works of two share in the structure, themes like loneliness, isolation, death, etc. and imagery. Also in the novels of both, there is a major role of time and memory. This book makes a modest attempt to focus attention upon the impact of Woolf on Desai. In both Woolf and Desai, we find an almost obsessive involvement with the characters' past as a key to their consciousness, their lives. A preoccupation with nostalgia and memory thus becomes an integral part of their craft. But these are not used as things in themselves. They are used artistically, both for thematic as well as formal purposes. A careful study of the novels makes us understand how they are made to function as artistic tools. This book particularly highlights the impact of Virginia Woolf on Anita Desai with respect to three novels of each. These are I Mrs Dalloway and Cry the Peacock II To the Lighthouse and Clear Light of Day III The Waves and Fire on the Mountain. I record my gratefulness to the principal of J E S College, Jalna, Dr R S Agrawal, Head of the Department of English, M A Sami Siddiqui for support and encouragement at every stage of my work. I also offer my sincere thanks to the

senior teachers of my Department for their valuable suggestions I feel deeply to put into words my sense of thankfulness to my parents and family I am thankful to Rut Printer and Publisher and Dr U P Mogle for the valuable work help to design and print Dr Varsha P Zanwar Women's Writing in India K.
