Anna Karenina And Other Essays:

Anna Karenina Frank Raymond Leavis, 1967 Valuation in Criticism and Other Essays F. R. Leavis, 1986-07-17 This volume gathers together some of F R Leavis's earliest work with the things he was working on before his death as well as a representative sample of pieces reflecting the concerns he developed throughout his writing life This material from the whole span of a long writing career shows both the continuity of his pre occupations and important respects in which his judgements changed In an introductory essay Professor Singh discusses each piece and relates it to the development of Leavis's ideas The reader can trace his concern for standards of critical valuation as it evolved through studies of T S Eliot D H Lawrence William Empson George Eliot Henry James W B Yeats I A Richards and others Leavis's well known reflections on Marxism are also included Tolstoy's Major Fiction Edward Wasiolek, 1978 Edward Wasiolek after much valuable work on Dostoevsky has now written one of the best books on Tolstoy in recent decades This may be in part because of his preoccupation with Tolstoy's most challenging contemporary and the resulting sense of their unlikeness in a common pursuit But there are other unspeculative reasons Few studies of Tolstoy have been so carefully pondered and so firmly organized to convince and not so many show the flexibility and variety of its approach Wasiolek proposes an essentially simple and consistent reading but he advances it with subtlety and discretion Henry Gifford Times Literary Supplement **The Literary Criticism of F. R. Leavis** R. P. Bilan, 1979-10-18 A comprehensive analysis and assessment of the many strands of Leavis's work emphasising the basic unity of his ideas **Modernist Eroticism** A. Schaffner, S. Weller, 2012-09-27 This volume explores the impact of sexological and early psychoanalytic conceptions of sexual perversion on the representation of the erotic in the work of a range of major European modernists including Joyce Kafka Lawrence Mann Proust and Rilke as well as in that of some less well known figures of the period such as Dujardin and Jahn **The Concise New Makers of Modern Culture** Justin Wintle, 2008-11-28 A Who's Who of Western culture from Woody Allen to Emile Zola Containing four hundred essay style entries and covering the period from 1850 to the present The Concise New Makers of Modern Culture includes artists writers dramatists architects philosophers anthropologists scientists sociologists major political figures composers film makers and many other culturally significant individuals and is thoroughly international in its purview Next to Karl Marx is Bob Marley with John Ruskin is Salman Rushdie alongside Darwin is Luigi Dallapiccola Deng Xiaoping rubs shoulders with Jacques Derrida as do Julia Kristeva and Kropotkin With its global reach The Concise New Makers of Modern Culture provides a multi voiced witness of the contemporary thinking world The entries carry short bibliographies and there is thorough cross referencing as well as an index of names and key terms **The Nostalgic Imagination** Stefan Collini, 2019 This unusual book explores the historical assumptions at work in the style of literary criticism that came to dominate English studies in the twentieth century Stefan Collini shows how the work of critics renowned for their close attention to the words on the page was in practice bound up with claims about the nature and direction of historical change

the interpretation of the national past and the scholarship of earlier historians Among the major figures examined in detail are T S Eliot F R Leavis William Empson and Raymond Williams while there are also original discussions of such figures as Basil Willey L C Knights Q D Leavis and Richard Hoggart The Nostalgic Imagination argues that in the period between Eliot s The Sacred Wood and Williams s The Long Revolution the writings of such critics came to occupy the cultural space left by academic history s retreat into specialized archive bound monographs Their work challenged the assumptions of the Whig interpretation of English history and entailed a revision of the traditional relations between literary history and general history Combining close textual analysis with wide ranging intellectual history this volume both revises the standard story of the history of literary criticism and illuminates a central feature of the cultural history of twentieth century Britain

Drama & the Dramatic S. W. Dawson, 2017-07-06 First published in 1970 this book explores drama as literature and provides critical overviews of different aspects of drama and the dramatic It first asks what a play is before going on to examine dramatic language action and tension dramatic irony characters and drama s relationship with modern criticism and the novel This book will be a valuable resource to those studying drama and English literature

Contemporary Literary Critics NA NA, 2015-12-25 A reference guide to the work of 115 modern British and American critics

Modern Literature and the Tragic K. M. Newton, 2008-06-20 This book explores modern literature s responses to the tragic It examines writers from the latter half of the nineteenth century through to the later twentieth century who respond to ideas about tragedy Although Ibsen has been accused of being responsible for the death of tragedy Ken Newton argues that Ibsen instead generates an anti tragic perspective that had a major influence on dramatists such as Shaw and Brecht By contrast writers such as Hardy and Conrad influenced by Schopenhauerian pessimism and Darwinism attempt to modernise the concept of the tragic Nietzsche s revisionist interpretation of the tragic influenced writers who either take pessimism or the Dionysian commitment to life to an extreme as in Strindberg and D H Lawrence Different views emerge in the period following the second world war with the Theatre of the Absurd and postmodern anti foundationalism

Joseph Conrad Jacques Berthoud, 1978 Although the importance of Conrad s work has long been recognized Jacques Berthoud attempts a full demonstration of the clarity consistency and depth of thought evident in the novels written during the first decade of this century Instead of the standard versions of Conrad from sceptical moralizer to metaphysician of darkness he offers a tragic novelist engaged in a sustained exploration of the contradictions inherent in man s relations with his fellows and from the perspective thus achieved he is able to show why Conrad occupies a leading place among the creators of modern literature This book will be of interest to specialists in English studies because it seeks to make a substantial contribution to the critical debate on the significance of Conrad s work It will also appeal to any reader looking for guidance through the complexities of the major novels the central issues have been presented as simply as the originality of Conrad s art and thought permits

The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950 George Watson, I. R.

Willison,1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries **Faithful Realism** Josie

Billington,2002-05 Josie Billington seeks to resituate Gaskell s work within the wider tradition of nineteenth century realism and argues that Gaskell deserves to be read not as a poor second to George Eliot but as offering an English Victorian equivalent of the religious realism of Leo Tolstoy *Science Fiction and the Two Cultures* Gary Westfahl,George

Slusser,2009-06-01 Essays in this volume demonstrate how science fiction can serve as a bridge between the sciences and the humanities The essays show how early writers like Dante and Mary Shelley revealed a gradual shift toward a genuine understanding of science how H G Wells first showed the possibilities of combining scientific and humanistic perspectives how writers influenced by Gernsback s ideas like Isaac Asimov illustrated the ways that literature could interact with science and assist in its progress and how more recent writers offer critiques of science and its practitioners *Leavis and*

Lonergan Joseph Fitzpatrick,2021-02-11 This book illustrates the value of the cross fertilisation of literary criticism with philosophy something Leavis advocated in his later writings Lonergan s epistemology of Critical Realism supports Leavis s account of how we reach a valid judgment concerning the worth of a poem or literary text and his exploration of the relationship between subjectivity and objectivity illustrates how close engagement with serious literature can be considered morally beneficial something Leavis passionately believed in Leavis and Lonergan are at one in providing convincing arguments against Cartesian dualism and the dominant positivist philosophies of their times And Leavis s method and practice as a literary critic which he developed independently of Lonergan exemplify Lonergan s epistemology as applied to literature and in this way illustrate its versatility and fruitfulness **Experiencing Ways Through Words** Emily

Abdeni-Holman,2025-09-29 We tend to think of ourselves using language What if we thought instead about language working on us or about language as something we experience rather than make use of This book explores the generative capacities of language suggesting that we need to pay much greater attention to the meaning making capabilities and political and moral implications of more intangible aspects of language atmosphere mood texture the mode of being a use of language carries and not only carries but gives off sends into both its reader and writer Advancing an interpretation of language as fundamentally attitudinal and creative *Experiencing Ways Through Words* explores literature in the light of such thinking claiming that properties we tend to sideline as aesthetic are profoundly constitutive of a text s capacity for significance
