teachings the acts and the events ascribed to him that have served as the foundational story of one of the world's central religions. This kind of historiography is not biography. The historical study of the Jesus stories and the transmission of these stories through time have been of seminal importance to historians of religion. Critical historical examination has provided a way for scholars of Christianity for centuries to analyze the roots of legend and religion in a way that allows scholars an escape from the confines of dogma, belief, and theological interpretation. In recent years, historical Jesus studies have opened up important discussions concerning anti-Semitism and early Christianity and the political and ideological filtering of the Jesus story of early Christianity through the Roman empire and beyond. Entries will cover the classical studies that initiated the new historiography, the theoretical discussions about authenticating the historical record, the examination of sources that have led to the western understanding of Jesus' teachings and disseminated myth of the events concerning Jesus' birth and death. Subject areas include the history of the historical study of the New Testament, major contributors and their works, theoretical issues and concepts, methodologies and criteria, historical genres and rhetorical styles in the story of Jesus, historical and rhetorical context of martyrdom and messianism, historical teachings of Jesus within historical context of ethics, titles of Jesus, historical events in the life of Jesus, historical figures in the life of Jesus, historical use of Biblical figures referenced in the Gospels, places and regions, institutions, the history of the New Testament within the culture, politics, and law of the Roman Empire. *The Apocryphal New Testament* William Hone, 1880 **Calmet's Dictionary of the Holy Bible** Augustin Calmet, 1800 **Zondervan Illustrated Bible Dictionary** J. These writings often have links with the books generally regarded as canonical, but Christian denominations disagree on which writings should be regarded as canonical and which are apocryphal. Definition: The word apocrypha means things put away or things

hidden and comes from the Greek through the Latin The general term is usually applied to the books that were considered by the church as useful but not divinely inspired As such to refer to Gnostic writings as apocryphal is misleading since they would not be classified in the same category by orthodox believers Often used by the Greek Fathers was the term antilegomena or spoken against although some canonical books were also spoken against such as the Apocalypse of John in the East Often used by scholars is the term pseudepigrapha      *The Very Best Baby Name Book* Bruce Lansky,2012-09-18 Identifies first names for boys and girls and reveals their origins and meanings in addition to featuring popularity rankings for names from around the world stereotypes of commonly used names and thematic lists      **The Apocryphal New Testament, being all the Gospels, Epistles and other pieces now extant, attributed in the first four centuries to Jesus Christ, His Apostles and their companions, and not included in the New Testament by its compilers.
