Anne Of Brittany The Great Of Hours Discovery Of Art

RS Peters

Anne Of Brittany The Great Of Hours Discovery Of Art:

A Dictionary of Miniaturists, Illuminators, Calligraphers, and Copyists John William Bradley, 1889 Half-hour lectures on the history and practice of the fine and ornamental arts William Bell Scott, 1874 Half-Hour Lectures on the History and Practice of the Fine and Ornamental Arts William Bell Scott, William James Linton, 2025-07-13 Reprint of the original first published in 1875 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage The Illuminated Books of the Middle Ages Henry Noel Humphreys, 1844 **Video Source Book**, 2008 *Recent Improvements in Arts, Manufactures, and Mines* Andrew Ure, 1844 The art journal London, 1882 *Queenship in Medieval France, 1300-1500* Murielle Gaude-Ferragu, 2016-08-31 This book examines the power held by the French medieval queens during the fourteenth and fifteenth centuries and their larger roles within the kingdom at a time when women were excluded from succession to the throne Well before Catherine and Marie de Medici the last medieval French queens played an essential role in the monarchy not only because they bore the weight of their dynasty's destiny but also because they embodied royal majesty alongside their husbands Since women were excluded from the French crown in 1316 they were only deemed as queen consorts Far from being confined solely to the private sphere however these queens participated in the communication of power and contributed to the proper functioning of court society From Isabeau of Bavaria and her political influence during her husband's intermittent absences to Anne of Brittany's reign this book sheds light on the meaning and complexity of the office of queen and ultimately the female history of power **Athenaeum and Literary Chronicle**, 1848 *The Athenæum*, 1848 *The Grove Encyclopedia of Medieval Art and Architecture* Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture *Lost Artefacts from Medieval England and France* Katherine Baker, 2022 Contemporary descriptions of objects no longer extant examined to reconstruct these lost treasures Surviving accounts of the material culture of medieval Europe including buildings boats reliquaries wall paintings textiles ivory mirror cases book bindings and much more present a tantalising glimpse of medieval life hinting at the material richness of that era However students and scholars of the period will be all too familiar with the frustration of trying to piece together a picture of the past from a handful of fragments The material turn has put art architecture and other artefacts at the forefront of historical and cultural studies and the resulting spotlight on the material culture of the past has been illuminating for researchers in many fields Nevertheless the loss of so much of the physical remnants of the Middle Ages continues to thwart our understanding of the period and much of the knowledge we often take

for granted is based on a series of arbitrary survivals The twelve essays in this book draw on a wide array of sources and disciplines to explore how textual records from the chronicles of John of Worcester and Matthew Paris and inventories of monastic treasuries and noble women to Beowulf and early English riddles when combined with archaeological and art historical evidence can expand our awareness of artistic and cultural environments Touching on a broad range of issues around how we imaginatively reconstruct the medieval past and a variety of objects both precious and ephemeral this volume will be of fundamental interest to medieval scholars whatever their disciplinary field Contributors Katherine Baker Marian Bleeke Deirdre Carter Laura Cleaver Judith Collard Joshua Davies Kathryn Gerry Karl Kinsella Katherine A Rush Katherine Weikert Beth Whalley Victoria Yuskaitis *The Oxford Dictionary of Art and Artists* Ian Chilvers, 2017-09-27 Covering Western art from the ancient Greeks to the present day this best selling and authoritative dictionary is more wide ranging than any comparable reference work It contains over 2 500 clear and concise entries on styles and movements materials and techniques and museums and galleries It also includes biographical entries for artists critics collectors dealers and patrons with places and full dates of birth and death in many instances correcting misinformation that has found its way into other sources For this new edition entries have been thoroughly revised and updated and more than fifty new entries have been added for example Tracey Emin and Jack Vettriano Browsers and readers with an interest in a particular area will benefit from the classified list of all the entries in the book an invaluable innovation that makes it easy to see immediately which collectors for example or 18th century French artists or printmaking terms are included in the dictionary Written in an engaging manner with many entries enlivened by quotations from artists and critics this dictionary is a pleasure to browse whilst its A Z structure and classified list makes it perfect for quick reference Previously entitled *The Concise Oxford Dictionary of Art and Artists* this major new edition is essential for students and teachers of art design art theory and art history and it is ideal for artists visitors to art exhibitions and galleries and anyone with an interest in art **Queens and Mistresses of Renaissance France** Kathleen Wellman, 2013-05-21 Tells the history of the French Renaissance through the lives of its most prominent queens and mistresses *Illuminated Manuscripts* John William Bradley, 2022-08-15 In *Illuminated Manuscripts* John William Bradley explores the intricate world of medieval manuscript creation offering readers a vivid portrayal of this art form through a blend of meticulous analysis and poetic prose The book delves into the historical evolution of illuminated texts examining their significance within the religious and cultural contexts of the Middle Ages Through a series of thematic essays Bradley discusses the techniques of illumination the roles of scribes and artists and the socio political influences that shaped these extraordinary works all while weaving in stunning visual examples that enhance the reader s understanding of the subject **Paintings in Proust** Eric Karpeles, 2008 Eric Karpele s guide offers a feast for the eyes as it celebrates the close relationship between the visual and literary arts in Proust s masterpiece Karpeles has identified and located all of the paintings to which Proust makes exact reference Where only a painter s name is mentioned to

indicate a certain mood or appearance he has chosen a representative work to illustrate the impression that Proust sought to evoke Botticelli's angels Manet's courtesans Mantegna's warriors and Carpaccio's saints stand among Monet's water lilies and Piranesi's engravings of Rome while Karpeles's insightful essay and lucid contextual commentary explain their significance to Proust Extensive notes and a comprehensive index of all painters and paintings mentioned in the novel provide an invaluable resource for the reader navigating *In Search of Lost Time* for the first time or the fifth BOOK JACKET

The Virgin Mary in the Perceptions of Women Joelle Mellon, 2016-04-21 Once the Virgin Mary was a pivotal element of Christianity a holy figure at the heart of most Christians' spiritual lives She was invoked at all major life passages baptisms weddings childbirths and funerals and images of the Virgin Mary could be found virtually anywhere from pub signs to sacred texts Medieval women especially looked to Mary to answer their prayers be their role model and serve as their advocate in heaven They prayed to her several times a day and sometimes devoted their entire lives to her service This book investigates perceptions of the Virgin Mary through several centuries of literature Focusing especially on the depictions of the Virgin Mary in medieval and Renaissance manuscripts the author rediscovers a time when the Divine Female was very much in evidence and good Christian women were taught to pray to a Holy Mother Topics include the cyclical popularity of Virgin Mary devotional objects such as Books of Hours rosaries and Marian gardens the mystical qualities attributed to the Virgin Mary through centuries of reported divine visions the historical relationships between the Virgin Mary and other religious figures including the Devil and Mary Magdalene as an alternative to the Virgin Mary as a feminine model **Patronage of British Art** John Pye, 1845 *The Encyclopaedia Britannica* Thomas Spencer Baynes, 1881 **Catalogue of the Reserved and Most Valuable Portion of the Libri Collection**, 1862
