

The background of the cover is a detailed, colorful illustration of a bustling Italian city scene, likely Venice. On the left, a large, ornate building with a prominent blue-tiled dome and classical architectural details, including columns and statues, stands on a raised platform. A wide set of stairs leads down from the building's entrance to a canal. In the canal, several gondolas are visible, with people inside. To the right of the building, a large, open square is filled with a diverse crowd of people in various costumes, some walking, some sitting, and others engaged in activities. In the foreground, the red-tiled roofs of buildings line the canal. The entire scene is rendered in a classic, storybook style with fine lines and a rich color palette.

## **Annos Italy:**

Anno's Italy Mitsumasa Anno, 1978 A pictorial presentation of rural town and city scenes in Italy which contain hidden images from fine arts religion history and folklore      *Drafting Italy* Marco Rovinello, 2023-05-23 This is the first comprehensive history of conscription and the military in Italy from the Restoration to the eve of WWI The comparative and transnational approach enables this work to compare and contrast the Italian experience with that of many other countries in the world as well as understand transfers and the adaptive and imitative processes that emerge when conscription and the military are viewed from an Italian perspective Peacetime and wartime recruitment military life culture justice and civil military relationships are analysed using a wide range of sources and an interdisciplinary approach that combines top down and bottom up perspectives This enables the book not only to assess the contribution the military has made to the country in terms of state building nation building modernization pedagogical and disciplinary models gender identity and roles but also to reconsider the standard taxonomies as well as some established evolutionary models of the armies Moreover the Italian military is seen as an internally complex world that is incapable of defining its own one dimensional identity or of imposing any such identity on its members Consequently it is an element in the history of a country that is substantially the same as any other such element and thus important in people's collective and individual lives whether or not they are in uniform Rather than being an object of study in and of itself the military becomes a vantage point from which to observe the Italian history in the long 19th century Therefore this book can be profitably read by professional military historians and non specialist readers interested in the military as well as by all scholars working on Italian pre and post unification political institutional socio economic cultural and gender history      **Criminal Law in Liberal and Fascist Italy** Paul Garfinkel, 2016

**The Crisis of Liberal Italy** Douglas J. Forsyth, 2002-06-06 In this major interpretation of the crisis of democracy in Italy after World War I Douglas Forsyth uses unpublished documents in Italy's central state archives as well as private papers diplomatic and bank archives in Italy France Britain and the United States to analyse monetary and financial policy in Italy from the outbreak of war until the march on Rome The study focuses on real and perceived conflicts and often painful choices between great power politics economic growth macroeconomic stabilisation and the preservation or strengthening of democratic consensus The key issue explored is why governments in Italy after World War I although headed by left liberal reformers were unable to press ahead with the democratic reformism which had characterised the so called Giolittian era 1901 1914 Their failure paved the way for parliamentary deadlock and Mussolini's seizure of power      **Mediterranean Timescapes** Ray Laurence, Francesco Trifilò, 2023-04-27 This book built around the study of the representation of age and

identity in 23 000 Latin funerary epitaphs from the Western Mediterranean in the Roman era sets out how the use of age in inscriptions and in turn time varied across this region Discrepancies between the use of time to represent identity in death allow readers to begin to understand the differences between the cultures of Roman Italy and contemporary societies in North Africa Spain and southern Gaul The analysis focuses on the timescapes of cemeteries a key urban phenomenon in relation to other markers of time including the Roman invention of the birthday the revering of the dead at the Parentalia and the topoi of life s stages In doing so the book contributes to our understanding of gender the city the family the role of the military freed slaves and cultural changes during this period The concept of the timescape is seen to have varied geographically across the Mediterranean bringing into question claims of cultural unity for the Western Mediterranean as a region Mediterranean Timescapes is of interest to students and scholars of Roman history and archaeology particularly that of the Western Mediterranean and ancient social history

Harris,2020-06-30 This book analyzes the spread of American female consumer culture to Italy and its influence on Italian women in the postwar and Cold War periods eras marked by the political economic social and cultural battle between the United States and Soviet Union Focusing on various aspects of this culture beauty and hygiene products refrigerators and department stores as well as shopping and magazine models the book examines the reasons for and the methods of American female consumer culture s arrival in Italy the democratic consumer capitalist messages its products sought to sell to Italian women and how Italian women themselves reacted to this new cultural presence in their everyday lives Did Italian women become the American Mrs Consumer As such the book illustrates how the modern consuming American woman became a significant figure not only in Italy s postwar recovery and transformation but also in the international and domestic cultural and social contests for the hearts and minds of Italian women

**Humanism and Education in Medieval and Renaissance Italy** Robert Black,2001-09-20 Based on

the study of over 500 surviving manuscript school books this comprehensive 2001 study of the curriculum of school education in medieval and Renaissance Italy contains some surprising conclusions Robert Black s analysis finds that continuity and conservatism not innovation characterize medieval and Renaissance teaching The study of classical texts in medieval Italian schools reached its height in the twelfth century this was followed by a collapse in the thirteenth century an effect on school teaching of the growth of university education This collapse was only gradually reversed in the two centuries that followed it was not until the later 1400s that humanists began to have a significant impact on education Scholars of European history of Renaissance studies and of the history of education will find that this deeply researched and broad ranging book challenges much inherited wisdom about education humanism and the history of ideas
