After: Framed easel paintings displayed on stand or hung on walls.

Portraits Before Mona:
idealized depictions.
After: Realistic "full-bodied" human beings.

Mystery for the ages. Singers, musicians, poets performed to keep Mona "full of movement" while posing.

American Museums and the Persuasive Impulse J. Donald Ragsdale, 2009-01-14 In *American Museums and the Persuasive Impulse* Professor Ragsdale assesses American museums as means of visual persuasion He demonstrates that museums their contents and their manners of display are as capable of influencing visitors as speeches or advertisements and that an awareness of their social influence provides an insight into the cultural roles of museums The book considers a diverse array of museums ranging from such national cultural icons as the Metropolitan Museum of Art and the Art Institute to such city museums as the Philadelphia Museum of Art and the Los Angeles Country Museum of Art and includes separate chapters on museums devoted to modern and contemporary art and to the specialized collections of individual connoisseurs In addition to these primarily art museums Professor Ragsdale assesses museums devoted to collections such as the National Air and Space

Museum and to commemoration and remembrance such as the National World War II Museum and the US Holocaust Memorial Museum American Museums and the Persuasive Impulse makes an important contribution to the theory of persuasion and to visual communication art history and museology It utilizes a theory of visual signs based on the semiotic theory of C S Peirce In so doing it demonstrates that museum buildings the art and other objects contained within them and the spaces used for display may all be thought of in terms of means of social influence *Partisan Canons* Anna Brzyski,2007-10-08 Case studies that counter the idea of a transcendent art canon by demonstrating that the content of any and every canon is historically and culturally specific *Western European Museums and Visual Persuasion* J. Donald Ragsdale,2020-07-13 *Western European Museums and Visual Persuasion* is an assessment of the visual persuasiveness of art museums It demonstrates that museums are as capable of influence as speeches or advertisements are and that an awareness of this influence provides an insight into museums cultural roles The book considers a diverse array of institutions ranging from such national cultural icons as the Louvre the British Museum and the Prado to museums of partisan advocacy such as the Centre Georges Pompidou the Tate Modern and the Museo Nacional Centro Arte de Reina Sofia The museums architectural significance the importance of their collections and the persuasiveness of their exhibition designs are the bases for assessment *Western European Museums and Visual Persuasion* is an important extension of theories of persuasion and visual communication to art art history and museology It utilizes a theory of visual signs based on the semiotics of C S Peirce to demonstrate that museum buildings the art within them and the spaces used for display all may be thought as ways of influencing society *Anyone Can Teach Art: How to Confidently Teach Art in Your Classical Homeschool* Julie Abels,2020-04-11 *Me Teach art* I don t even know how to draw Many of us started there We felt a total lack of confidence about teaching art We wanted to give our children all the benefits of art in their education but didn t know how Some of us did a few colorful hands on projects with our children but we could see they weren t really learning the basics of art We had never learned the basics of art ourselves But then after a few years of teaching art with the classical model of education we realized that teaching art can be as simple as teaching any other subject and we can learn it alongside our children Now we ve condensed our knowledge here for you Instead of a how to draw book *Anyone Can Teach Art* presents the scope and sequence of a classical Christian art curriculum for K 12 students In this book we break it all down for you By the end of this book you ll know Why art should be included in everyone s education What are the basics of art creation and art appreciation How to use the ancient amazingly effective classical model of education to teach art Which simple drills and exercises to include in art projects to help students advance their skills How to proceed in art education once your students have mastered the basics What s stopping you from including art in your child s education Learn the basics and follow the plan in this book and you ll realize how easy it really is to teach art **Questioning History** Joe Regenbogen,2016-06-17 Since the days of the Ancient Greeks history has been perceived as the academic study of the past Unfortunately it has generally been

taught as a litany of rigid boring facts intended to be accepted rather than questioned This has been reinforced for decades by weighty textbooks that overwhelm the reader with mind numbing details presented in a chronological sequence The end result is that students see little relevance of what they learn in history class to the real world and many simply struggle to stay awake Compared to other subjects taught at the secondary level history is frequently judged to be the most boring This is largely because it is viewed as an intellectually lifeless subject that presents few opportunities for active engagement Questioning History is a book built around 16 essential questions designed to challenge this common assumption Each question is broad open ended and subject to vigorous debate By examining the historical background behind each question and by analyzing the ways in which the question can be answered the reader will come away with a deeper understanding of the past and a new appreciation for history as a cognitively dynamic subject In addition by using each chapter as a platform for engaging discussions and Socratic seminars the reader will be able to refine the decision making skills necessary for effective citizenship in a democratic society Depending on the classroom or the setting in which it is being used Questioning History can either take the place of the more traditional textbook or at least be used as a supplement to make it come more alive The best way to learn and to appreciate a subject is through active engagement Questioning History provides a shot of adrenalin to the study of history
