**Aris 2007** , *Choice* ,1999 Exploring the Association Between Military Base Neighborhood Characteristics and Soldiers' and Airmen's Outcomes Sarah Opal Meadows,Laura L. Miller,Jeremy N. V. Miles,Gabriella C. Gonzalez,Brandon T. Dues,2013-01-24 This report explores the applicability of neighborhood theory and social indicators research to understanding the quality of life in and around military bases It also highlights gaps in neighborhood study methodology that need to be addressed in future research Finally it outlines how a more in depth neighborhood analysis of military installations could be conducted *ECIE2011- 6th European Conference on Innovation and Entrepreneurship* Alexandros Kakouris,2011

**Against the Grain** ,1999 **The Problem with Survey Research** George Beam,2017-09-08 The Problem with Survey Research makes a case against survey research as a primary source of reliable information George Beam argues that all survey research instruments all types of asking including polls face to face interviews and focus groups produce unreliable and potentially inaccurate results Because those who rely on survey research only see answers to questions it is impossible for them or anyone else to evaluate the results They cannot know if the answers correspond to respondents actual behaviors objective phenomena or to their true beliefs and opinions subjective phenomena Reliable information can only be acquired by observation experimentation multiple sources of data formal model building and testing document analysis and comparison In fifteen chapters divided into six parts Ubiquity of Survey Research The Problem Asking Instruments Asking Settings Askers and Proper Methods and Research Designs The Problem with Survey Research demonstrates how asking instruments settings in which asking and answering take place and survey researchers themselves skew results and thereby make answers unreliable The last two chapters and appendices examine observation other methods of data collection and research designs that may produce accurate or correct information and shows how reliance on survey research can be overcome and must be **Work-Family Conflict and Family-Friendly Policies for Working Women in India** Dr. Gunjan

Mishra,2021-05-04 In India labour market is changing very rapidly With this the workplace culture is also changing The capitalist work culture is also affecting the socio cultural status of Indians At the capitalist workplace employees are working like machine The work culture is now marked by high payments great perks and incentives as well as other facilities However the negative aspect of this culture is seen in long working hours less family bonding neglect of family responsibilities difficulty in taking care of children health issues at early age and increased stress and anxiety There are several studies showing that capitalist work place is affecting not only the labour but also the culture market It is creating difficulty in balancing work with family The respective roles to be played within the workplace and the family has spill over each other Work has entered the homes of several working people who find it difficult to cope with the dual responsibility of work and family life The present work is aimed at exploring the work family conflict faced by Indian working women in the current scenario *The Political Economy of Reform Failure* Mats Lundahl,2007-04-11 Economists have moved in recent

years beyond analyzing the manner in which the macroeconomies of different countries function and prescribing appropriate policies for dealing with domestic and external imbalances. Increasingly they have sought to understand the complex interaction between political and economic phenomena. This book considers issues of economic reform in a broad range of settings: developed countries, transition countries, developing countries. Using country specific cases such as Uzbekistan, Burma and Haiti, it focuses on those territories which have encountered problems reforming, allowing the reader to gain an accurate understanding of the factors that inhibit the success of economic reform, the different context in which economic reform is attempted and the different challenges that individual countries face. An international team of contributors, including Bo S. dersten, Deepak Lal and Ron Findlay, have been brought together to analyze these topical issues, making this an informative and thought provoking book of interest to those involved in the field of development studies.

Handbook of Research on Global Corporate Citizenship Andreas Georg Scherer, Guido Palazzo, 2008

Want to know what's buzzing with corporate citizenship? Look no further. This book shows why global corporate citizenship has been called the topic of the decade and why it matters to each of us no matter where we live. It explains in plain English the major issues and ideas percolating in current research on the topic. Trust what you discover in the book. The list of contributors to Handbook of Research on Global Corporate Citizenship reads like a Who's Who of corporate citizenship research. Thomas Donaldson, University of Pennsylvania, US. This is a unique and eclectic set of essays on a vitally important but often neglected topic. The editors are to be congratulated in assembling a distinguished group of scholars who carefully and expertly guide the reader through the various facets of global corporate citizenship. This is a must read for anyone interested in the social ramifications of the globalization of business activity. John H. Dunning, OBE, University of Reading, UK and Rutgers University, US. Start with a fact: large corporations wield enormous power in the contemporary globalized economy. Then note the hopes and fears that this fact inspired: the potential to harness the profit motive to social needs but the fear that the profit motive can just as easily wreak havoc. And finally bring together some leading scholars from around the world to discuss the matter and the result is a hugely impressive collection of essays on one of the burning issues of our time. This volume is definitive, the necessary starting point for future debate. Paul S. Adler, University of Southern California, US. This volume provides an extensive and comprehensive overview of current research and theory about why and how corporations should play a more active role in fulfilling their global citizenship obligations and responsibilities. Its contributors include many of the most important and influential scholars in the field of corporate social responsibility from both Europe and the US. An important strength of this volume is the diversity and breadth of the dimensions of corporate citizenship that it explores in depth. This volume provides an important resource to scholars, managers and activists interested in promoting corporate citizenship. David Vogel, University of California, Berkeley, US. The Handbook of Research on Global Corporate Citizenship identifies and fosters key interdisciplinary research on corporate citizenship and provides a framework for further academic debate on corporate

responsibility in a global society This exciting and important Handbook provides a unique forum to discuss the consequences of the social and political mandate of business firms and examines the implications of these consequences for the theory of the firm Leading academics have been invited from various disciplines such as management studies economics sociology legal studies and political science to evaluate the concept of corporate citizenship and to analyze the role of private business in global governance and the production of global public goods The Handbook is structured in seven sections theoretical perspectives on corporate citizenship contemporary issues and challenges of global business regulation actors and institutions of global business regulation disciplinary perspectives on corporate citizenship implications for management theory building critical perspectives on corporate citizenship conclusions This Handbook will be a significant read for academics postgraduate students and managers interested in the field of corporate citizenship regulation and corporate responsibility across the social sciences The Policy-Making Process and Social Learning in Russia Marina

Khmelnitskaya,2016-04-29 Centering its study around three explanatory variables actors institutions and ideas this book argues that Russia s hybrid institutional environment reduces the competition of policy ideas both at the stage of policy elaboration by the community of state and non state policy experts and also at the stage of policy adoption by parliament

**MAHAD: The Making of the First Dalit Revolt** Anand Teltumbde, 2022-10-04 MAHAD has an iconic place in Dalit universe Associated with legendary personality of Dr Ambedkar the struggle of Dalits at Mahad for asserting their rights to access the public tank the Chavadar tank arguably ranks among the first civil rights struggles in history Unfortunately it remained largely confined to folklore its detailed account still remaining fragmented and in mostly Marathi This book provides a comprehensive account using many sources including the archival materials of the two conferences in Mahad in 1927 that marks the beginning of the Dalit movement under Babasaheb Ambedkar to a wider readership in English It tries to frame it within its historical context which will help people comprehend its historical significance It also seeks to draw certain lessons for the future course of the Dalit movement The book additionally contains the original account of Comrade R B MORE the organizer of the first conference at Mahad

Rethinking Risk in National Security Michael J. Mazarr, 2016-05-18 This book examines the role of risk management in the recent financial crisis and applies lessons from there to the national security realm It rethinks the way risk contributes to strategy with insights relevant to practitioners and scholars in national security as well as business Over the past few years the concept of risk has become one of the most commonly discussed issues in national security planning And yet the experiences of the 2007 2008 financial crisis demonstrated critical limitations in institutional efforts to control risk The most elaborate and complex risk procedures could not cure skewed incentives cognitive biases groupthink and a dozen other human factors that led companies to take excessive risk By embracing risk management the national security enterprise may be turning to a discipline just as it has been discredited
