CEMAF as a

Census Method David A. Swanson, Paula J. Walashek, 2011-03-28 In provocative terms that push the envelope of technical administrative and legal capabilities Swanson and Walashek propose a re vamped US census based neither on the current system self enumeration nor its predecessor door to door canvassing Instead they propose that it be built on a combination of four elements 1 administrative records 2 the continuously updated Master Address File 3 survey data and 4 modeling and imputation techniques They use Census Enhanced Master Address File CEMAF as a descriptive term for their proposal which is based on four principles and includes a proposal for an independent Census Bureau They argue that evidence suggests that the methods used to conduct traditional census counts may be at the end of their useful working lives as evidenced by increasing costs and declining response rates Some of their ideas will seem farfetched However Swanson and Walashek believe this is the time to discuss radical proposals as governments re examine the utility of traditional census counts and consider reductions as is the case in Canada and England This SpringerBriefs should be on the reading list of staff in statistical agencies grappling with rising costs and declining response rates as well as census stakeholders concerned about costs accuracy and census utility *The Crisis of Multilateral Legal Order* Lukasz Gruszczynski, Marcin Menkes, Veronika Bilkova, Paolo Farah, 2022-09-15 Multilateralism has served as a foundation for international cooperation over the past several decades Championed after the Second World War by the United States and Western Europe it expanded into a broader global system of governance with the end of the Cold War Lately an increasing number of States appear to be disappointed with the existing multilateral arrangements both at the level of norms and that of institutions The great powers see unilateral and bilateral strategies which maximize their political leverage rather than diluting it in multilateral fora as more effective ways for controlling the course of international affairs The signs of the crisis have been visible for some time but recent crises indicate an acceleration of the on going disintegration of the multilateral system such as Brexit growing resistance on the part of States to international monitoring of compliance and the radical change in the US foreign policy during the presidency of Donald Trump which saw the US withdraw from several multilateral agreements e g the Iran Nuclear Deal and the Paris Agreement leave some international organizations or bodies e g the United Nations Human Rights Council or the World Health Organization or paralyze some others e g the World Trade Organization WTO Tackling the debate surrounding the crisis of multilateralism and the related transformation of the underlying international legal order The Crisis of Multilateral Legal Order analyzes selected aspects of the current crisis from the perspective of public international law to identify the nature of the crisis its dynamics and implications *Bibliography of Agriculture* , 1968-08 Handbook of Federal Indian Law Felix S. Cohen, 1942 **Social Security Bulletin** , 1948 *Resilience, Robustness, and Vulnerability of Transport Systems* Milan Janić, 2022-11-21 This book is focused on the analysis and modelling of resilience robustness and vulnerability of transport systems and their complement reliability It provides an elaboration on their generic concepts analysing disruptive events and nature of their impacts It also offers an analysis and modelling of the
