Annual Survey Of Eastern Europe And The Former Soviet Union 1997 The Challenge Of Integration:

Annual Survey of Eastern Europe and the Former Soviet Union, 1998 *The Challenge of Integration* Peter Rutland, 1998 The EastWest Institute took over sponsorship of the Survey when the Open Media Research Institute in Prague closed in 1997 after publishing the first two annual volumes Overviews of eastern Europe and the former Soviet states are followed by essays on regional issues and economics and then analyses of the current situation in specific countries The perspectives include a year of optimism in Hungary keeping Latvia on a course toward the west Slovenia as an island of stability a year of western determination in Bosnia Vojislav Seselj as a demagogue waiting in Yugoslavia and progress amid privation in Georgia The texts are accompanied by maps data boxes feature stories excerpts from documents and profiles of key figures Annotation copyrighted by Book News Inc Portland OR *A History of The Gypsies of Eastern Europe and Russia* D. Crowe, 2016-09-23 In this fully updated edition with a new foreword by Andre Liebich David M Crowe provides an overview of the life history and culture of the Gypsies or Roma from their entrance into the region in the Middle Ages up until the present drawing from previously untapped East European Russian and traditional sources *From Ethnic Conflict to Stillborn Reform* Shale Horowitz, 2005-04-27 *From Ethnic Conflict to Stillborn Reform* is the first complete treatment of the major post communist conflicts in both the former Yugoslavia Bosnia Herzegovina Croatia and Serbia and the former Soviet Union Armenia Azerbaijan Georgia Moldova and Tajikistan It is also the first work that focuses not on causes but rather on consequences for democratization and market reform the two most widely studied political outcomes in the developing world Building on existing work emphasizing the effects of economic development and political culture the book adds a new comprehensive treatment of how war affects political and economic reform Author Shale Horowitz employs both statistical evidence and historical case studies of the eight new nations to determine that ethnic conflict entangles distracts and destabilizes reformist democratic governments while making it easier for authoritarian leaders to seize and consolidate power As expected economic backwardness worsens these tendencies but Horowitz finds that powerful reform minded nationalist ideologies can function as antidotes The comprehensiveness of the treatment use of both qualitative and quantitative analysis and focus on standard concepts from comparative politics make this book an excellent tool for classroom use as well as a ground breaking analysis for scholars *Annual Survey of Eastern Europe and the Former Soviet Union: 1998* Peter Rutland, Gale Stokes, 2024-11-01 *Annual Survey at Eastern Europe and the Former Soviet Union 1998* provides an overview of developments in one of the most rapidly changing regions of the world It covers useful historical background as well as foreign policy issues and profiles of key personalities in these regions *Corporate Governance Lessons from Transition Economy Reforms* Merritt B. Fox, Michael A. Heller, 2021-04-13 *Corporate Governance Lessons from Transition Economy Reforms* explores a timely topic at the intersection of economics law and policy reform To date most sophisticated theoretical work on corporate governance has focused on advanced market economies In post socialist

countries corporate finance and transition economics scholars have often done little more than convey the received theory to transition policymakers This volume focuses for the first time on the reverse concern what if anything do the reform experiences of transition countries teach about corporate governance theory more generally To investigate this question Merritt Fox and Michael Heller have assembled a stellar group of corporate governance theorists The answers are startling The principal essays approach the problem from three complementary perspectives that form the organizing themes of the book The first part refines core corporate theory terms The second presents important empirical work that explores the channels through which good corporate governance may link to the real economy The final part links corporate governance theory to practical reforms After fifteen years of experience practice can now inform theory Together these essays present a comprehensive new view on a provocative theme Written in an accessible style they will be of interest to a broad range of scholars commentators and policymakers

Aid, Insurgencies and Conflict Transformation Rob Kevlihan, 2013-02-11 This book examines the circumstances under which aid can contribute to the management and transformation of intra state conflicts How and when do insurgents govern How does the presence of aid and social services influence how insurgents govern Under what circumstances can aid contribute to the management and transformation of civil wars The established literature in this area argues that aid exacerbates civil wars where resources are scarce as greedy rebels steal resources for themselves This book however argues that under certain conditions such greed can be good Drawing on primary research from three very different conflicts Northern Ireland 1969 1998 southern Sudan 1983 2005 and Tajikistan 1992 1997 and more than 10 years experience working in and researching humanitarian crises this study breaks new ground through its wide ranging comparison of conflicts The book argues that insurgent efforts to reap rewards from aid and social services have in turn facilitated organizational changes and that these changes while they may have had conflict enhancing effects in the short term have also contributed to conflict transformation over the long term This book will be of much interest to students of insurgencies civil wars comparative politics conflict management humanitarian emergencies public health and IR Security Studies in general

International Multiparty Mediation and Conflict Management Sinisa Vukovic, 2015-10-05 This volume aims to provide a detailed explanation of the effects of cooperation and coordination on international multiparty mediation in conflicts Contemporary scholarship stresses that the crucial ingredients for a successful multiparty mediation are consistency in interests and cooperation and coordination between mediators This book seeks to supplement that understanding by investigating how much the consistency of interests and cooperation and coordination affect the overall process and what happens to the mediation process when mediating parties do not share the same idea and interest in finding a common solution At the same time it explores the obstacles in achieving coordination and coherence between various mediators in such an environment and how to surmount the problems that multiple mediators face when operating without a common script in attempting to mediate a negotiated settlement The study investigates three distinct

mechanisms both on the systemic and contextual level that have the potential to deter defection from a potential member of the multiparty mediation coalition geo political shifts changes in the conflict dynamics and mediators ability to bargain for a cooperative relationship As the number of states and international actors that are involved in mediation increases a careful assessment is necessary not only of their relative institutional strengths and weaknesses but also of how to promote complementary efforts and how to synchronize the whole process when one actor is transferring the responsibilities for mediation to others This book will be of much interest to students of mediation conflict management war and conflict studies security studies and IR The Open Access version of this book available at <https://www.routledge.com/International-Multiparty-Mediation-and-Conflict-Management-Challenges-of-Vukovic/p/book/9781138087897> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Ideology and National Identity in Post-communist Foreign Policy Rick Fawn, 2004-03-01 A comparative analysis of the foreign policies of eight post communist states which considers the extent to which official communist ideology has been replaced by nationalism and establishes how these states express their national identities through foreign policy

Problems of Post-communism, 2002 2014 Crisis in Ukraine. Perspectives, Reflections, International Reverberations Karol Kujawa, Valeriy Morkva, Klaus Bachmann, Monika Byrska, Filiz Çoban, Soner Karagül, Marta Králiková, Jan Muš, Sezai Özcelik, Didem Saygin, Emanuele Scimia, Ercüment Tezcan, Mehlika Özlem Ultan, Andrei Vardomatski, 2015-12-30 This book is a collective attempt to present a wide ranging picture of international attitudes towards the events currently ongoing in Ukraine As some experts have already tended to claim in 2014 this post Soviet state lying in the Eastern part of the European continent has become a scene of the most serious geopolitical standoff since the end of the Cold war It would be in place here to remind a well known clear cut maxim formulated by Zbigniew Brzezinski in late 1990s and concerning Ukraine's key role in shaping the Russian imperial self identity Without Ukraine Russia ceases to be a Eurasian empire So what may readers expect to find in this book It has been divided into two parts reflecting the perspectives on Ukrainian crisis first the perspective of Ukraine's close neighbours from Central Eastern Europe and Turkey second the perspectives of the global players like the EU the US or China We hope that such a publication focused on the above mentioned problems and embedded in the actual reality will be useful both for professionals in the field of political science as well as for those who have an influence on the shape of the foreign policy

Koalitionen in West- und Osteuropa Sabine Kropp, Suzanne S. Schüttemeyer, Roland Sturm, 2013-07-29 In vielen Ländern Europas sind Regierungen Koalitionsregierungen In den vorliegenden Länderstudien werden erstmals Koalitionsbildungen und die Regierungspraxis von Koalitionen in West und Osteuropa vergleichend untersucht

Financial Integration, Vulnerabilities to Crisis, and EU Accession in Five Central European Countries Mustapha K. Nabli, 1999-01-01 A major source of vulnerability in the CE5 is their nascent financial systems and their ability to handle large and increasing volume of capital As the experience of East Asia demonstrates a high priority should be given to

improving the quality and performance of the banking system From Financial Integration Vulnerabilities to Crisis and EU Accession in Five Central European Countries The objective of this study is to help assess the possible vulnerabilities in a number of Central European countries as they proceed with global financial integration and EU accession The report focuses on those countries slated to be the first in the region to join the EU the Czech Republic Estonia Hungary Poland Slovenia CE5 The study Discusses the context and presents a short description of the CE5 countries experience in attracting capital flows Analyzes the manifestations of vulnerability to financial crises and sustainability of foreign capital flows to the CE5 Interprets the results and draws implications in view of the initial conditions of the various countries Compares the EU accession of the CE5 to the Southern Mediterranean countries accession to the EC in the 1980s Draws conclusions and makes recommendations

Competitive Authoritarianism Steven Levitsky, Lucan A. Way, 2010-08-16 Based on a detailed study of 35 cases in Africa Asia Latin America and post communist Eurasia this book explores the fate of competitive authoritarian regimes between 1990 and 2008 It finds that where social economic and technocratic ties to the West were extensive as in Eastern Europe and the Americas the external cost of abuse led incumbents to cede power rather than crack down which led to democratization Where ties to the West were limited external democratizing pressure was weaker and countries rarely democratized In these cases regime outcomes hinged on the character of state and ruling party organizations Where incumbents possessed developed and cohesive coercive party structures they could thwart opposition challenges and competitive authoritarian regimes survived where incumbents lacked such organizational tools regimes were unstable but rarely democratized

Kazakhstan - Ethnicity, Language and Power Bhavna Dave, 2007-09-13 Kazakhstan is emerging as the most dynamic economic and political actor in Central Asia It is the second largest country of the former Soviet Union after the Russian Federation and has rich natural resources particularly oil which is being exploited through massive US investment Kazakhstan has an impressive record of economic growth under the leadership of President Nursultan Nazarbaev and has ambitions to project itself as a modern wealthy civic state with a developed market economy At the same time Kazakhstan is one of the most ethnically diverse countries in the region with very substantial non Kazakh and non Muslim minorities Its political regime has used elements of political clientelism and neo traditional practices to bolster its rule Drawing from extensive ethnographic research interviews and archival materials this book traces the development of national identity and statehood in Kazakhstan focusing in particular on the attempts to build a national state It argues that Russification and Sovietization were not simply top down processes that they provide considerable scope for local initiatives and that Soviet ethnically based affirmative action policies have had a lasting impact on ethnic lite formation and the rise of a distinct brand of national consciousness
