Language Across the Curriculum & CLIL in English as an Additional Language (EAL) Contexts Angel M.Y. Lin, 2016-09-15

This book will be of interest to a broad readership regardless of whether they have a background in sociolinguistics functional linguistics or genre theories

It presents an accessible meta language i.e. a language for talking about language that is workable and usable for teachers and researchers from both language and content backgrounds thus facilitating collaboration across content and language subject panels

Chapters 1 to 3 lay the theoretical foundation of this common meta language by critically reviewing systematically presenting and integrating key theoretical resources for teachers and researchers in this field

In turn Chapters 4 to 7 focus on issues in pedagogy and assessment and on school based approaches to LAC and CLIL drawing on both research studies and the experiences of front line teachers and school administrators

Chapter 8 provides a critical and reflexive angle on the field by asking difficult questions regarding how LAC and CLIL are often situated in contexts characterized by inequality of access to the linguistic and cultural capitals where the local languages of the students are usually neglected or viewed unfavourably in relation to the L2 in mainstream society and where teachers are usually positioned as recipients of knowledge rather than makers of knowledge

In closing Chapter 9 reviews the state of the art in the field and proposes directions for future inquiry
