as a social divine structure grounded on the belief in grand mega God whose omnipotence is revealed encountered and
dramatised in space and place Although the concept of megachurch has been discursively and theoretically problematic
sprouting and scouting for a big idea grasping that is in itself elusive the book takes a pragmatic detour to engage and
nuance and also beat into manageable shape what can readily be construed as megachurch at least in Africa It argues that
megachurch is not only related to from the prism of its exponentiality and grandiosity a feature that is pervasive in its
conceptualisation but it is also much more inserted into a socio cultural political and religious context that is at once
empirical and relatable responsible and responsive daring and appealing local and transnational spiritual and mundane
controversial and soothing The institutionalisation of megachurch legitimises its existence radar and reach in terms of social
mobilisation charismatics and incarnationality Central to the praxis of megachurches is digital turn that zooms out the Mega

most profoundly within the mega failure of state to be responsible and account for mega wealth that African political rulers
