With Colour Frontispiece and Thirty-two Plates by Warwick Reynolds** Sir Charles George Douglas ROBERTS, Warwick REYNOLDS (Artist.), 1912      Women's Identities at War Susan R. Grayzel, 2014-03-19 There are few moments in history when the division between the sexes seems as natural as during wartime men go off to the war front while women stay behind on the home front But the very notion of the home front was an invention of the First World War when for the first time home and domestic became adjectives that modified the military term front Such an innovation acknowledged the significant and presumably new contributions of civilians especially women to the war effort Yet as Susan Grayzel argues throughout the war traditional notions of masculinity and femininity survived primarily through the maintenance of and indeed reemphasis on soldiering and mothering as the core of gender and national identities Drawing on sources that range from popular fiction and war memorials to newspapers and legislative debates Grayzel analyzes the effects of World War I on ideas about civic participation national service morality sexuality and identity in wartime Britain and France Despite the appearance of enormous challenges to gender roles due to the upheavals of war the forces of stability prevailed she says demonstrating the Western European gender system s remarkable resilience      **Wilderness Science in a Time of Change Conference**, 2000 Vol 2 Thirty eight papers related to the theme of wilderness in the context of larger systems are included Three overview papers synthesize existing knowledge and research about wilderness economics relationships between wilderness and surrounding social communities and relationships between wilderness and surrounding ecological communities and
