**Perspectives on Assessment and Improvement of Quality in Early Childhood Education and Care: A World-Wide Kaleidoscope** Antonia Elisabeth Enikoe Baumeister,Hui Li,Linda Joan Harrison,2024-08-29 The key aims of early childhood education and care ECEC are to offer children from all social backgrounds a good start in their lives to support parenting as well as families workforce participation and thereby to sustainably strengthen the national economy over current and future generations High quality ECEC has been shown to improve child outcomes and be a buffer against developmental risk factors For these reasons governments ECEC providers and researchers are placing an increasing focus on the frameworks and systems that underpin quality as well as the measures that assess quality At the same time however research on ECEC as a multidisciplinary endeavor has shown that the aims and benefits of high quality ECEC can only be reached when all stakeholders needs are acknowledged and sufficiently met For example recent evidence suggests that the acceptability and social validity of quality assessment and improvement methods are contested among some stakeholders and thus the sustainability of these quality efforts may be in doubt New challenges also include the ever changing nature and circumstances affecting ECEC stakeholders for example the greater flows of refugee families and the impact of the Covid 19 pandemic This Frontiers Research Topic will contribute to an updated knowledge base in order to inform governments providers and the scientific community about best practices and new solutions for conceptualizing measuring and improving ECEC quality The aim of the proposed Research Topic is to generate a worldwide kaleidoscope of research studies that explore and discuss models for gathering the perspectives of multiple stakeholders and considering the meaningfulness of stakeholder views for conceptualizing assessing and improving quality in ECEC We believe that greater attention needs to be given to the diversity of stakeholders who are invested in ECEC including government regulatory authorities service providers educators families communities and children We also believe that wide ranging stakeholder input will generate innovative methods for assessing and improving quality that keep pace with our rapidly changing information society Two

further foci are set on ECEC practices 1 that support participation diversity and inclusion of all children and families and 2 that are suitable for developing countries and diverse populations within countries In this the focus is not only on best practices but also on the limitations of practices In soliciting research articles on ECEC stakeholder perspectives we describe stakeholders as inclusive of government non government regulatory agencies service providers teachers and caregivers families communities and children Themes of interest include but are not limited to Assessment of quality in ECEC including self assessment approaches The design of and use of quality frameworks in ECEC Effects of quality and of quality improvement on children and families Drivers and indicators of quality improvement Acceptance and sustainability of quality efforts among ECEC stakeholders Policy expectations of quality rating and improvement systems e g funding policy The role of teacher and caregiver professionalization All types of center based and home based ECEC We are interested both in quantitative and qualitative research designs as well as in mixed methods research Cross sectional longitudinal quasi experimental and case study designs are welcome The following article types are welcome original research empirical studies systematic reviews community case studies policy briefs articles and brief research reports

**Off to a Good Start** Laurie T. Martin, Lisa Sontag-Padilla, Jill S. Cannon, Anamarie Auger, Rebecca Diamond, Catherine Joyce, Katherine L. Spurlock, Anita Chandra, 2015-01-15 Drawing on national state and local data the Urban Child Institute partnered with RAND to explore the social and emotional well being of children in Memphis and Shelby County Tenn The book highlights the importance of factors in the home child care setting and community that contribute to social and emotional development

**Learning Together in the Early Years** Theodora Papatheodorou, JANET R Moyles, 2008-07-09 Relational pedagogy underpins the core principles of both the cognitive and social emotional development of young children as evidenced in the Reggio Emilia preschools and the Te Whariki curriculum in New Zealand Emphasising the links between people places and ideas and the effects of these on education educators and learners it is integral to the English Early Years Foundation Stage and forms the basis for early years provision around the world This book brings together contributions from international experts on early years education to explore and debate relational pedagogy across different countries and in the context of a broad international field The three sections of the book cover the following areas culture environment and adult child relationships how children and adults relate to the culture ethos and environment in which they function adult child relationships how education and care environments directly relate to learning and teaching adult adult relationships for professional development in training situations and parental partnerships The book will be of interest to all those who want to delve deeper into how these interactions affect teaching and learning and to understand how the context can have its own impact on pedagogical outcomes Researchers in early years education and students on early childhood education courses will find much here to inspire and challenge their thinking
