Beasts that Teach, Birds that Tell: Animal Language in Rabbinic and Classical Literatures Eliezer Segal, 2019 A study of rabbinic texts about talking animals examined in the context of Greek and Roman cultures *Books in Series*, 1980

Fables in Jewish Culture Emile Schrijver, Lies Meiboom, 2023-11-15 Fables in Jewish Culture catalogues almost 400 Jewish scrolls and books from the collection of Jon A Lindseth that contain animal stories with moral connections Spanning six centuries the books are in several languages including Hebrew Yiddish Aramaic Ladino Judeo Spanish and Judeo Persian They were printed all over the world and include animal stories from the Hebrew Bible and other religious texts as well as translations of secular stories such as Aesop's fables in Hebrew The catalogue is divided into four sections Biblical works rabbinic works medieval works and postmedieval works and each entry is illustrated with a page or more from the work a detailed description of the characteristics and publishing history of the work and description of the fables contained therein along with a discussion of their literary and or cultural historical significance This volume includes a foreword by Jon A Lindseth describing how he assembled this collection of Jewish books containing fables as well as essays on the role of fables in Jewish culture their use in Biblical and rabbinical literature and their appearance in Jewish and Yiddish literature Fables in Jewish Culture concludes with a bibliography of fables in Jewish literature and multiple indexes that allow readers to locate works by a number of criteria including fable author title in English Hebrew and Latin and printer Contributors Marion Aptroot David Daube Simona Gronemann Jon A Lindseth Raphael Loewe Lies Meiboom Emile Schrijver David Stern Heide Warncke Irene Zwiép **Proverbial Aesop** Aesop, Chandler A. Phillips, 2012 *Orality and Literacy in the Demotic Tales* Jacqueline E. Jay, 2016-06-10 In *Orality and Literacy in the Demotic Tales* Jacqueline E Jay extrapolates from the surviving ancient Egyptian written record hints of the oral tradition that must have run alongside it The monograph's main focus is the intersection of orality and literacy in the extremely rich corpus of Demotic narrative literature surviving from the Greco Roman Period The many texts discussed include the tales of the Inaros and Setna Cycles the Myth of the Sun's Eye and the Dream of Nectanebo Jacqueline Jay examines these Demotic tales not only in conjunction with earlier Egyptian literature but also with the worldwide tradition of orally composed and performed discourse *Animal Narratology* Joela Jacobs, 2020-12-15 *Animal Narratology* interrogates what it means to narrate to speak speak for on behalf of and to voice or represent life beyond the human which is in itself as different as insects bears and dogs are from each other and yet more as individual as a single mouse horse or puma The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of attitude toward and responsibility for the animals that are read and written about thus demonstrating that just as the animal does not exist neither does the human In their zoopoetic focus the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology yet they make clear that what matters is how the animal is approximated and that there is an effort to approach

and encounter the non human in the first place Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another s perspective to the degree that such an endeavor is possible Ultimately the contributions call for a recognition of the many spaces moments and modes in which human lives are entangled with those of animals one of which is located within the creative bounds of storytelling

Evangelical Faith and the Challenge of Historical Criticism Christopher M. Hays, Christopher B. Ansberry, 2013-11-19 Many introductions to biblical studies describe critical approaches but they do not discuss the theological implications This timely resource discusses the relationship between historical criticism and Christian theology to encourage evangelical engagement with historical critical scholarship Charting a middle course between wholesale rejection and unreflective embrace the book introduces evangelicals to a way of understanding and using historical critical scholarship that doesn't compromise Christian orthodoxy The book covers eight of the most hotly contested areas of debate in biblical studies helping readers work out how to square historical criticism with their beliefs
