Stomp Off, Let's Go Ricky Riccardi, 2025-01-06 In *Stomp Off Let's Go* author Ricky Riccardi offers a fresh take on the most widely discussed period of Louis Armstrong's life Tracing the trumpeter's meteoric rise to fame from childhood in New Orleans all the way to Chicago where he changed the course of music with the Hot Five and Hot Seven recordings Riccardi foregrounds the voices of Armstrong and his contemporaries to explore Armstrong's path and relationships more intimately in turn providing essential insights into how Armstrong rose to become one of America's most beloved icons

The Original Hot Five Recordings of Louis Armstrong Gene Henry Anderson, 2007 Between 1925 and 1928 the Hot Five the incomparable Louis Armstrong and four seasoned practitioners of the burgeoning jazz style recorded fifty five performances in Chicago for the OKeh label Oddly enough the quintet immortalized on vinyl with recent technology rarely performed as a unit in local nightspots And yet like other music now regarded as especially historic their work in the studio summarized approaches of the past and set standards for the future Remarkable both for popularity among the members of the public and for influence on contemporary musicians these recordings helped make Satchmo a familiar household name and ultimately its bearer an adored public figure They showcased Armstrong's genius notably his leadership in transforming the practice of jazz as an ensemble improvisation into jazz as the art of the improvising soloist In his study Professor Anderson for the first time provides a detailed account of the origins of this pioneering enterprise relates individual pieces to existing copyright deposits and contextualizes the music by offering a reliable timeline of Armstrong's professional

activities during these years All fifty five pieces moreover are described in informed commentary Publisher description

Creating Jazz Counterpoint Vic Hobson, 2014-03-19 The book *Jazzmen* 1939 claimed New Orleans as the birthplace of jazz and introduced the legend of Buddy Bolden as the First Man of Jazz Much of the information that the book relied on came from a highly controversial source Bunk Johnson He claimed to have played with Bolden and that together they had pioneered jazz Johnson made many recordings talking about and playing the music of the Bolden era These recordings have been treated with skepticism because of doubts about Johnson's credibility Using oral histories the *Jazzmen* interview notes and unpublished archive material this book confirms that Bunk Johnson did play with Bolden This confirmation in turn has profound implications for Johnson's recorded legacy in describing the music of the early years of New Orleans jazz New Orleans jazz was different from ragtime in a number of ways It was a music that was collectively improvised and it carried a new tonality the tonality of the blues How early jazz musicians improvised together and how the blues became a part of jazz has until now been a mystery Part of the reason New Orleans jazz developed as it did is that all the prominent jazz pioneers including Buddy Bolden Bunk Johnson Louis Armstrong Sidney Bechet Johnny Dodds and Kid Ory sang in barbershop or barroom quartets This book describes in both historical and musical terms how the practices of quartet singing were converted to the instruments of a jazz band and how this in turn produced collectively improvised blues inflected jazz that unique sound of New Orleans
