Baby In Me:

Baby Me Anne Storm,2024-07-25 Davina I walked away from the club the minute those two pink lines showed up on the test There were only a few good options for a baby daddy among the club s men and the odds weren t in my favor that my daughter s father was one of them So I never told them Until I had to Her life was on the line and my secret might just destroy the happy little life I d managed to find Especially when it turned out the baby s father was the President of the Savage Vipers MC Tripp I married my kids mom after a one night stand led to her getting knocked up with my son Despite leaving my high school sweetheart behind for her we had a good life until she was killed Eight months ago I reconnected with my high school sweetheart and when I finally got around to bringing her around my kids history repeated itself Our former club girl had a baby She was sick and needed help That little girl also turned out to be my daughter Her mother was a woman I had been interested in but couldn t have because of our age differences and the fact that she was a club girl Despite all that she quickly became the one woman I couldn t let go Baby Frances Isabelle M. J.

Edwardes,2019-07-22 The Origins of Self explores the role that selfhood plays in defining human society and each human individual in that society It considers the genetic and cultural origins of self the role that self plays in socialisation and language and the types of self we generate in our individual journeys to and through adulthood Edwardes argues that other awareness is a relatively early evolutionary development present throughout the primate clade and perhaps beyond but self awareness is a product of the sharing of social models something only humans appear to do The self of which we are aware is not something innate within us it is a model of our self produced as a response to the models of us offered to us by other people Edwardes proposes that human construction of selfhood involves seven different types of self All but one of them are internally generated models and the only non model the actual self is completely hidden from conscious awareness We rely on others to tell us about our self and even to let us know we are a self The Adventures of Lee Robinson Ed
