Myers,2024-10-11 Child abuse and neglect are tragically common Each year more than 1 000 American children die due to maltreatment Thousands more suffer physical abuse sexual abuse and neglect Across the country every community has a system of government operated and funded child protective services CPS But given that social workers of CPS have the authority to remove children from unsafe parents it is no surprise that CPS is controversial Does CPS protect children Does CPS do more good than harm Is CPS fundamentally racist as some critics argue Should CPS be abolished To answer these questions it is essential to understand the origins of child protection in America How did we arrive at the child protection system in place today This book traces the history of child protection from colonial times to the present and provides the most in depth analysis ever published of the origins of child protection

The Quest for the Christ Child in the Later Middle Ages Mary Dzon,2017-03-09 Beginning in the twelfth century clergy and laity alike started wondering with intensity about the historical and developmental details of Jesus early life Was the Christ Child like other children whose characteristics and capabilities depended on their age Was he sweet and tender or formidable and powerful Not finding sufficient information in the Gospels which are almost completely silent about Jesus childhood medieval Christians turned to centuries old apocryphal texts for answers In *The Quest for the Christ Child in the Later Middle Ages* Mary Dzon demonstrates how these apocryphal legends fostered a vibrant and creative medieval piety Popular tales about the Christ Child entertained the laity and at the same time were reviled by some members of the intellectual elite of the church In either case such legends so persistent left their mark on theological devotional and literary texts The Cistercian abbot Aelred of Rievaulx urged his monastic readers to imitate the Christ Child s development through spiritual growth Francis of Assisi encouraged his followers to emulate the Christ Child s poverty and rusticity Thomas Aquinas for his part believed that apocryphal stories about the Christ Child would encourage youths to be presumptuous while Birgitta of Sweden provided pious alternatives in her many Marian revelations Through close readings of such writings Dzon explores the continued transmission and appeal of apocryphal legends throughout the Middle Ages and demonstrates the significant impact that the Christ Child had in shaping the medieval religious imagination *The Annual of Psychoanalysis*, V. 26/27 Jerome A. Winer,2013-06-17 Volume 26 27 begins with publication of *The Annual* s first prize essay Samuel Abrams s *How Child and Adult Analysis Inform and Misinform One Another* This is followed by a series of papers originally prepared for a symposium honoring John E Gedo These papers span the clinical topics of obsessiveness sublimation dreams and self analysis and analyzability and also delve into applied psychoanalysis and art history with two studies of

Vincent van Gogh and another of Alberto Giacometti These papers not only convey the impressive range of Gedo's own interests but embody the high scholarly and clinical standards that Gedo has long held both for himself and for the field in general Section III offers original contributions to clinical analysis in the form of the consideration of the role of affective engagement in the analyst's usability thoughtful assessment of the perils of parental projection in child analytic work and comparison of a failed and successful supervision in the same psychoanalytic case Section IV examines psychoanalysis and the arts with two further studies of van Gogh an analytic reading of Nabokov's *Lolita* and more general examinations of psychoanalysis in relation to dramatic art and film analysis The volume closes with two provocative scholarly essays bearing on the roots of psychoanalysis the correspondence between Mabel Dodge and her analysts Smith Ely Jelliffe and A A Brill as a vehicle for reviewing the issue of extra and postanalytic contact between analyst and patient and an examination of Freud Lacan and the uneasy relationships among literature psychoanalysis and the female subject Volume 26-27 offers readers a rich harvest of contemporary insights about psychoanalysis including its history and evolution its continuing clinical refinement and its scholarly applications outside the consulting room

The Invention of Childhood Creativity Cat Martins, 2024-11-15 This text offers a comprehensive analysis of the concept of the modern creative and imaginative child in Western education Drawing on archived sources and historical works it reframes childhood creativity as a social cultural and scientific construction asking how our thinking and acting toward the creative child have been produced historically The text dissects the discursive construction of creativity as a natural and developmental attribute of the child It argues that the idea of the White creative child constructed through comparative reasoning shaped by primitivism and illustrated through botanical metaphors as close to nature and the senses is a notion embedded with colonialities forming part of a Western civilizing project and entrenched power knowledge relations A compelling and original account of childhood creativity this text will appeal to researchers in arts education early childhood education curriculum studies and the history of education
