addition the authors explore the changes that a group based vision of infancy could bring to early child education and care They also show how ignoring group contexts in many clinical traditions can distort descriptions of what happens in therapy producing such unintended consequences as mother blaming for the future problems an infant may experience as she or he grows up Finally the book s appendix summarises the main forms of evidence which falsify claims that science has proven that an inborn gift for dyadic intersubjectivity or for one to one infant adult attachments founds human social development

and Other Humans Nancy S. Heller, Daniel G. Heller, 2007-01-23 1ST FLAP COPY Several years ago while I was rounding at one of the Brigham and Women s Hospital nurseries a new father shared a funny story with me Early the previous morning this new father went to the hospital lobby in search of coffee and bagels While waiting in line at the coffee shop the father noticed a man enter the lobby He was struck by the odd appearance of this man In the midst of a brutally cold New England winter this man was dressed in a bicycle racing shirt shorts ski socks pulled up to his knobby knees ankle weights a hospital ID badge around his neck and a propeller attached to the top of his bicycle helmet When he returned to his wife s hospital room he told her about his experience This new dad worked in the human services field and was very impressed that the hospital was so progressive as to hire such an obviously mentally challenged person About ten minutes passed when the new parents heard a loud knock on the hospital room door To their surprise shock astonishment and horror the same man walked into the room complete with the propeller helmet shorts ski socks ankle weights Now the man had a stethoscope around his neck and was pushing a portable crib with their new baby Greeting the shocked and befuddled new parents the man proudly announced his arrival Hi I m Dr Heller I m your pediatrician and am here to examine your baby Dr Dan was without a doubt the most unique charismatic and outgoing individual who one will ever meet As one mother remarked to me You will always remember the first time you met Dr Dan Bruce Bunnell MD Dr Heller s partner of 15 years at Centre Pediatrics told this story at a memorial service for Dr Heller in 2005 2nd FLAP Having Dr Heller for a doctor was like having Mary Poppins for a nanny Parent Sara B Dr Dan was an original that s the only way I know how to put it He is such a huge part of our family history that memories keep flooding in For example when our daughter finally slept through the night after months of disturbing our sleep my husband and I were not only shocked as new parents we were also worried that her brand new sleep pattern might signal a serious medical problem Dr Dan was on when I called and I will never forget how he questioned me closely about symptoms and listened very carefully to all I said Then as I hung on to every word of diagnosis he could provide for me he slowly explained That Mrs L is what we in the medical profession refer to as a blessing Parent Susan L *Breastfeeding Management for the Clinician* Marsha Walker, 2016-06-06 Breastfeeding Management for the Clinician Using the Evidence Fourth Edition is an essential and practical reference guide for clinicians Using a research based approach it includes
