Theological Dictionary of the Old Testament G. Johannes Botterweck,Helmer Ringgren,Heinz-Josef Fabry,1974 This multivolume work is still proving to be as fundamental to Old Testament studies as its companion set the Kittel Friedrich Theological Dictionary of the New Testament has been to New Testament studies Beginning with bh b father and continuing through the alphabet the TDOT volumes present in depth discussions of the key Hebrew and Aramaic words in the Old Testament Leading scholars of various religious traditions including Roman Catholic Lutheran Reformed Anglican Greek Orthodox and Jewish and from many parts of the world Denmark France Germany Great Britain Greece Israel Italy the Netherlands Norway Sweden Switzerland and the United States have been carefully selected for each article by editors Botterweck Ringgren and Fabry and their consultants George W Anderson Henri Cazelles David Noel Freedman Shemaryahu Talmon and Gerhard Wallis The intention of the writers is to concentrate on meaning starting from the more general everyday senses and building to an understanding of theologically significant concepts To avoid artificially restricting the focus of the articles TDOT considers under each keyword the larger groups of words that are related linguistically or semantically The lexical work includes detailed surveys of a word s occurrences not only in biblical material but also in other ancient Near Eastern writings Sumerian Akkadian Egyptian Ethiopic Ugaritic and Northwest Semitic sources are surveyed among others as well as the Qumran texts and the Septuagint and in cultures where no cognate word exists the authors often consider cognate ideas TDOT s emphasis though is on Hebrew terminology and on biblical usage The contributors employ philology as well as form critical and traditional historical methods with the aim of understanding the religious statements in the Old Testament Extensive bibliographical information adds to the value of this reference work This English edition attempts to serve the needs of Old Testament students without the linguistic background of more advanced scholars it does so however without sacrificing the needs of the latter Ancient scripts Hebrew Greek etc are regularly transliterated in a readable way and meanings of foreign words are given in many cases where the meanings might be obvious to advanced scholars Where the Hebrew text versification differs from that of
